Mrs. Luella Sauers Accused of Kidnaping of Babe.

MOTHER'S HEART SOFTENS

Return of Child Convinces Her Young Woman Did Not Intend Theft—Bigamy Charge May Be Filed on Third Marriage.

WOMAN HELD ON KIDNAPING CHARGE AND CHILD SHE IS ACCUSED OF STEALING.

kidnaping charge by Municipal Judge Stevenson yesterday.

In spite of her extreme youth, Mrs. Sauers has been married three times. The first marriage was annulled by her parents because of her youth; the third ceremony was said to have been performed last week in Tacoma, while she still was the wife of another.

Although no complaint has been made yet, a bigamy charge may be laid against Mrs. Sauers. Her first marriage was to Wilbert Heyting on December 29, 1913. Through the influence of her parents this marriage was annulled. Last July she was married to J. A. Sauers, of Lentz. A week ago she was married to Jay Dunn, of Tacoma, although she had not been divorced from Sauers. She had left Sauers several months previous, alleging mistreatment.

The testimony of Mrs. Johnson yesterday was that Mrs. Sauers had been given the temporary care of the baby, which she accepted with pleasure, being fond of the child. She was not paid anything for the child's keep. Mrs. Sauers asked Mrs. Johnson several times if she might not adopt the child, but had been refused. Mrs. Sauers left Portland several weeks ago with the baby, leaving no address behind, and the mother believed the child had been kidnaped.

"But I think it was only a misunderstanding and that Mrs. Sauers did not kidnap my baby intentionally," said Mrs. Johnson.

Mrs. Johnson received word from Mrs. Sauers' mother, after the warrant had been issued, that Mrs. Sauers would return to Portland within a few days. Mrs. Sauers said she had written her mother this and had intended to return Monday.

Asked about her marriage the young woman said: "Yes, I knew I did not have a divorce from Mr. Sauers when I was married to Mr. Dunn." She did not appear concerned about the omission.

ACADEMY ALTERS SESSIONS

Military School Breaks Up Rest of Week to Aid Study Power.

An innovation in school regulations has been introduced by the Hill Military Academy.

Members of the faculty say that they observed that those students who attended the summer camp conducted by the institution displayed on their return to the school in the fall superior energy and willingness to work and made greater progress than those students who passed their time totally free from study. This was obviously the effect of maintaining the school atmosphere at the summer camp.

It was observed in a like manner that the absence from study continually from Friday until Monday had an unfavorable effect on the diligence and progress of the student. So it was decided that the commencement, with the term, a session of school would be held on Saturday morning and a recess would be taken on Wednesday afternoon. In this way the rest is just as long, but coming at two intervals, it is believed that it is more refreshing and obviates that sharp division between recreation and study periods.

CITY FEARS TAX LOSS

MR. LAROCHE SEES CHANCE FOR TANGLE OVER COLLECTIONS.

Commission Asked to Watch Bills Before Legislature in Effort to Prevent Invalidation. That officials of the City of Portland should close their eyes to tax-collecting legislation before the State Legislature, to see that an act of questionable legality is not put through, is the advice of City Attorney LaRoche in a communication sent yesterday to City Commissioner Bigelow. To have an act passed which might later be thrown into court on injunction proceedings, Mr. LaRoche says would be fatal to the city.

It is said that should a law be enacted establishing a different system of collecting taxes in Multnomah County from that used in another section of the state, there would be a serious question as to its constitutionality. There would be grounds for an injunction suit. In the event of such a suit, the city might be prevented from collecting taxes, and being prohibited under the city charter from borrowing money, it would be in a serious plight. It is said the Legislature is looking at the tax-collecting problem in three different ways. One is to collect at different dates on the basis of assessed valuation. The second is on the basis of population, and the third is to have a uniform tax law. City Attorney LaRoche expresses the opinion that it would be unconstitutional to have different dates of collection, because it would be giving to one part of the state privileges not enjoyed by all others.

The blast was fired just beside the railroad right of way as the train passed. Heavy rocks were hurled 800 feet and fell into the Columbia River, but luckily none of them hit the passenger train. EAT LESS MEAT IF BACK HURTS

Take a Glass of Salts to Flush Kidneys If Bladder Bothers You.

Eating meat regularly eventually produces kidney trouble in some form or other, says a well-known authority, because the uric acid in meat excites the kidneys, they become overworked; get sluggish; clog up and cause all sorts of distress, particularly back-ache and misery in the kidney region; rheumatic twinges, severe headaches, acid stomach, constipation, torpid liver, sleeplessness, bladder and urinary irritation. The moment your back hurts or kidneys aren't acting right, or if bladder bothers you, get about four ounces of Jad Salts from any good pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush clogged kidneys and stimulate them to normal activity; also to neutralize the acids in the urine so it no longer irritates, thus ending bladder disorders. Jad Salts cannot injure anyone; makes a delightful effervescent lithia-water-drink which millions of men and women take now and then to keep the kidneys and urinary organs clean, thus avoiding serious kidney disease—Adv.
