# COMPLETE BAN ON LIQUOR IDAHO PLAN

Laws to Make Even Possession of Intoxicants in State Punishable.

### PERMITS TO BE REQUIRED

Druggists and Purchaser Under Oath to Tell Use to Which Alcohol Is to Be Put-Sale or Manufacture Prohibited.

BOISE, Idaho, Feb. 27 .- (Special.)-When Idaho becomes a prohibition state January 1, 1916, as provided by House bill No. 142, which passed the Senate this week and was transmitted to the Governor for his signature, and the terms of Senate bill No. 50, which also passed the Legislature making enforcement of statewide prohibition possible, this state will probably be under the most drastic dry law ever

enacted. In 1916 the state will vote on a constitutional amendment providing permanent prohibition.

### Liquor Banned From Homes.

Senate bill No. 50, which lays down the terms under which a prohibition district may operate in this state, is so strict as to make it unlawful for any person, firm, company, corporation or agent to have in his or its possession any intoxicating liquors of any kind for any use except for sacra-mental, medicinal, scientific or me-

mental, medicinal, scientific of me-chanical purposes.

Before a pharmacist is authorized to transport pure alcohol for scientific or mechanical purposes or for com-pounding or preparing medicines, he nust first obtain a permit for must first obtain a permit for the purpose from the Probate Court. To set this permit he must file with that court a statement in writing, given under eath, that he desires the alcohol for scientific or mechanical purposes, or compounding or preserving medicines only in the county where it is to be used.

### Care Records Provided.

This permit is void for transportation purposes after 20 days from date of issuance. The court is required to keep a public record of all certificates issued. The certificate must be affixed in a conspicuous place upon any package containing pure alcohol imported into or shipped within the state and when so affixed authorizes state and when so affixed authorizes any common carrier, person operating a boat or vehicle to transport it, but before delivery the permit must be defaced so it cannot be used again. All transportation companies are re-quired to keep a record of shipments open to inspection and it is made unlawful for them to ship alcohol or liquor to a false or fictitious name or person. Carriers may accept shipments of wine for sacramental purposes when the shipment is accom-panied by a certificate and if no certificate is attached, carriers are required to refuse the shipment. A record of these shipments must also be kept. To purchase alcohol for scientific or

mechanical purposes all persons must apply to the Probate Court for a permit for that purpose, and to procure one must show the use to which the alcohol is to be put, given under oath. This permit will allow the purchaser to procure the alcohol from a pharmacist who is also required to keep a record of all permits.

Drink in Public Misdemeanor.

To drink intoxicating liquors of any kind in a prohibition district, in a public place, on a passenger coach, streetear, boat, or in or about any depot, platform or waiting-room, is made a misdemeanor, and this also applies to drunkenness.

Conviction of any provisions of the act is punished by a fine of not less than \$50 nor more than \$500, and imprisonment in the county jail for not less than 30 days, nor more than six months. A second offense is made "persistent violation" and a felony punishable by imprisonment in the state penitentiary at hard labor for not less than one year nor more than two years. In case a pharmacist is convicted the court is required "in addition to the penalty provided by this act, to revoke his license to practice pharmacy."
