# NATIONAL DEFICIT ESTIMATE IS CUT

Simmons Says Country Will Not Run More Than 26 Millions Behind in Fiscal Year.

INCOME TAX RELIED ON

Conditions Both in Europe and in Mexico Held to Blame for Falling Off in Revenue-Coun-

try Is Growing, Too.

WASHINGTON, March 20 .- Chairman WASHINGTON, March 3.—Chairman Simmons, of the Senate finance com-mittee, took issue today with prophets of a large Treasury deficit, in a state-ment, saying his investigations at the Treasury have convinced him that the deficit will not exceed \$25,000,000. Senator Simmons said there had been a many conflicting estimates of the many conflicting estimates of the obable deficit, some as high as \$130,-2,000, that he decided to ascertain the

"real facts."
"During the past week," he said, "I have been investigating this matter closely in conference with officials of the Treasury Department, and as a result of the investigations and con-ferences. I feel safe in saying that the probable deficit will not, if any, much exceed \$26,000,000.

Canal Cost Not Included.
"Of course this does not include the expenditures on account of the Panama.

expenditures on account of the Panama Canal. These expenses are otherwise provided for by law and are not required to be paid out of the current funds of the Government.

"The receipts from practically every source." he added, "have fallen below the estimate, due to depressed business conditions on account of the war in Europe. Although the revenues derived from internal revenue tax probably will be increased by the emergency revenue act over the estimates by about \$20,000,000, there was on March 15, 1915, an excess of ordinary expenditures over receipts of approximately tures over receipts of approximately \$85,000,000, against a deficit of \$24,000,-

\$85,000,000, against a deficit of \$24,000,000 on the same date last year.

"The estimated recipts for the remainder of the fiscal year totals \$256,000,000, while the ordinary disbursements will amount to \$207,000,000, an excess of receipts over expenditures for the remainder of the year of \$55,000,000 at the end of the fiscal year.

Europe and Mexico Blamed. "The increases are due in part to the normal growth of the Government and part are due to conditions arising out of the European war and the abnormal stock and Occupants of Flats Oft

of the European war and the admorate conditions in Mexico.

"When the fact is considered that the income tax is not required by law to be paid until about the end of the fiscal year, June 30, and that the bulk of this tax is not in fact paid until about the end of the fiscal year, the aircumstance of an excess of disburse-ments over receipts for the first half of the year and an excess of receipt of the year and an excess of receipts over disbursements during the last half of the year will be readily understood. "It also will be apparent that any estimate based upon the assumption that the proportion of the receipts and disbursements will be the same during the second half of the year as during the first half is both inteleading and erroneous."

KARL H. VON WIEGAND, WORLD-FAMOUS CORRESPOND-ENT, TO WRITE OF WAR FOR THE OREGONIAN.

Karl H. von Wiegand.

Karl H. von Wiegand, one of the most famous and successful war correspondents in the world, has been employed by a syndicate of newspapers, whose sole representative in Portland will be The Oregonian, to cover outstanding news features of the present old-world war. His field will be Germany in general and Berlin in particular.

Until recently Mr. von Wiegand has been acting as war correspondent for the United Press, being in charge of the Berlin bureau of that organization. His work was of such high value as to attract general attention and

admiration. As a result he received a flattering offer to enter a larger field and one where his work would be more widely read. The New York World made the offer and secured Mr. von Wiegand's services, and the World in turn has syndicated his forthcoming articles among some of the most prominent newspapers of the country, including The Oregonian. Karl H. von Wiegand is not a native of Germany, as one might conclude from his name, but an American, having been born in Phoenix, Ariz. He began his newspaper career as a correspondent of various New York, Kansas City and San Francisco papers. For a time he was on the local staff of the Examiner of the latter city. When the Los Angeles Examiner was started he was a member of the local staff. During the Japanese-Russian War Von Wiegand was cable editor of the Associated Press in San Francisco. He scored a beat on the Berkeley airship disaster, the first to occur in this country. He was standing by the side of Francis J. Heney, of San Francisco, when Heney was shot by a thug in a courtroom during the trials following the great municipal upheaval in that city.

Von Wiegand was with the Associated Press three years and was then placed in charge of the San Francisco Bureau of the United Press. He went to Berlin as manager of the United Press Bureau there in 1911. He is about 38 years old.
