OLYMPIA, Wash., April 3.—(Special.)—H. T. Jones, dean of all Washington state officials, who retired from the state board of control, April 1, after 12 years of continuous service, was guest of honor at a banquet tendered him tonight by state officials and employees, citizens of Olympia and other friends. Superintendents and ex-superintendents of state institutions came from various parts of the state for the occasion. Governor Lister introduced Thomas M. Vance, of Olympia, as toastmaster, George E. Morris, Chief Justice of the Supreme Court, Clark V. Savidge, Commissioner of Public Lands, and others responded to toasts. The retiring official received an ivory and gold headed cane as a gift from his friends. LIVE WIRE KILLS LABORER

Section Hand Dies Instantly Near Prescott.

ST. HELENS, Or., April 3.—(Special.)—County Coroner White held an inquest here today over the body of John Butterworth, a section hand, who was killed instantly yesterday at 4:30 P. M., near Prescott, by coming in contact with a heavy voltage electric wire. The wires carrying the voltage are owned by the Oregon-Washington Corporation, which supplies electric current to several of the small towns along the Columbia River. The cable crosses the Columbia a short distance above Prescott, from the headworks on the Kalama River. The wire ladders had become decayed and dropped from the pole, permitting the wires to sag nearly to the ground. Butterworth stepped from the railroad grade, and stooped to pass under the wire, but his head touched it. Two of his fellow workmen ran to his aid and in doing so one was stunned through contact with the wire on his head and another was severely burned on the hands. Butterworth leaves a wife and eight small children.

GERMAN SALLY STOPPED

DEADLOCK ON WESTERN BATTLE FRONT CONTINUES.

Paris Report Belgian Effort to Regain Lost Position Failed—Mining Operations Progress. LONDON, April 3.—Reports from Paris and Berlin today indicate that the deadlock in France and Flanders continues with virtually no change. The French tell of stopping a German effort to debouch near Lassigny; the Germans relate that Belgians failed to regain a farm they previously had lost, and that a French charge in Le Petre forest had failed. Neither side makes any claim to successes. The report of the French War Office, issued at Paris tonight, said: "Saturday at Domplere, to the southwest of Pions, we continued to make satisfactory progress with our mining operations. "Near Lassigny, the Germans attacked and attempted to debouch. They were stopped short by our fire as they were sallying forth from their trench. "In Upper Alsace, in the region of Bernhaupt-le-Haut, we repulsed two German attacks. "The earlier French report said: "In the regions of the Somme, La Boisselle and Domplere mining war-

Accurate figures were not available because the books have been kept open during the process of segregating the non-citizen voters.
