OREGON HOPS MAKING GOOD PROGRESS
Full Crop Looked for, but Future of Market
Is Uncertain.

Local hop dealers are without orders for
either the old or new crop and prices are
wholly nominal. The California market is
also dull.

The new Oregon crop is making good headway and if properly cultivated, a full yield
will probably be obtained, provided, of

Other Leaders Score Advances but Fail to Hold - Largest Weekend Business in Six Years. Bond Market Is Strong.

NEW YORK, April 10.—Profit-taking of a very broad and general character, in which Europe participated to an unusual degree, was almost the solo restraint upon further speculative excesses in the stock market to day. Even so, higher prices were established and in some instances retained on the largest week-end business in six years.

At the opening, which was marked by much confusion and excitoment, practically much confusion and excitoment, practically above specialities moved somewhat unevenly toward livels substantially above yesterday's high figures.

General Trade Improving.

General trade is quiet, but improving More activity is shown in the iron and steel industries, also in the textile trades, although the volume of business is still much below normal. Some of the railroads are making better returns, partly as a result of the advance in rates, but the volume of traffic does not as yet show any important increase. Should the present apirit of hopefuless which exists in financial centers extend to commercial and industrial circles as it probably will, we may look for better reports from the railroads.

It is a little early to form any opinions about crops, but the agricultural classes as a whole are probperous, and the present spring will undoubtedly see increased efforts to augment the yields, particularly of food and animal products, which are bringing war prices.

feed and animal products, which are bringling war prices.

This market has now experienced a very
considerable advance, and more or less profit
taking must be anticipated, especially
should events of an unfavorable nature occur. The outlook, nowever, is for continued
improvement; and a widening of activity
would prove more satisfactory and sounder
than any spectacular advance at this time.
In all probability the market will show
wider and more frequent fluctuations, affording good trading opportunities.

Packing-House Granted Exemption

From Federal Inspection.

KLAMATH FALLS, Or., April 10.—
(Special.)—Word has just been received by the D. J. Desmend Meat Company that their meats have been exempted from Federal inspection by the bureau of animal industry of the Department of Agriculture. This order of exemption will enable the local packing-house to ship directly to consumers.

exemption will enable the local packing-house to ship directly to consumers in any part of the United States, but is intended to cover shipments to mills and camps along the Weed-Klamath Falls branch of the Southern Pacific. It means the enlargement of the local market and more money for Klamath eattlemen. The Desmond Meat Company, which recently purchased the shops of several meat men here in Klamath Falls and combined the businesses, has installed a large packing and curing plant in their factory and are prepared to handle the entire pork output of Klamath County at this time.

The weekly market letter of the Portland Wool Warehouse Company says:

Our correspondents in the East report a Quite market, with a tendency on the part of low wools to advance, while time wools are maintaining a ressly market. The only weak sports reported in the last week are off grades of scoured wool, which are shaded a little to clean them up before the new senson starts.

South American wools are still a factor in the market, and dealers are trying to make the most of any small lot of cheap wools that are offsred to bear the market, and dealers are trying to make the most of any small lot of cheap wools that are offsred to bear the market. American, which compare with our Valley wools, are offered around 50c to 82c teday,

Corn ragged early and late with whear. The buils were handleapped by the slowness of cash demand.

Euying of oats appeared to be only of a scattered sort. Accordingly, the market had an easy tone.

Advances in the provision market could be traced largely to the expected resumption of hog shipments from here on Mouday. Cash demand from the South was said to have improved quite a good deal.
