Federal Commissioner Replies With Challenge and Says Public Will Want to Know Details of Circumstances Hinted At.

NEW YORK, April 24 .- John D. Rock. efeller, Jr., gave out a brief statement today in reference to the correspond-ence between himself and L. M. Bowers, chairman of the Colorado Fuel & Iron Company, which was made public yesterday by Frank P. Walsh, chairman of the United States Commission on Industrial Relations. He said a complete

statement would be issued Monday. Mr. Rockefeller asserts that Mr. Walsh had drawn inferences without ascertaining whether they were cor rect, "a proceeding which is wholly in defensible."

Public to Have Firets.

He said further that he would be glad to appear to give additional testimony before the commission at any time, "for we are desirous that the public shall have all the facts."

KANSAS CITY, April 24.--"Mr. Rocke-feller's statement in which he declared he would be glad to return to the witness stand and answer any questions concerning his interests in Colorado is the most important and most gratifying the Commission has received, "Frank P. Walsh, chairman of the Federal Commission on Industrial Relations, said in a statement tonight.

a statement tonight. Walsh Issues Challenge. Concerning a full statement of cir-cumstances brought up in the corre-spondence between Mr. Rockefeller and his Colorado agents at the time of the recent coal strike, which Mr. Rocke-feller said would be issued from his of-fice on Monday, Mr. Walsh says: "In the statement which Mr. Rocke-feller says he will make I challenge him to say whether L. M. Bowers told the truth in his letter of April 4, 1914, in which he said the Colorado Fuel & Iron Company leads in fixing prices and conditions of labor.

Iron Company leads in fixing prices and conditions of labor. "Under date of June 14, 1914, Mr. Rockefeller wrote to his publicity agent, Ivy Lee, a copy of which letter has been filed with the Commission's records. The letter says: "Several points in my memorandum, however, could well, even more appro-priately, he used in the letter from Governor Ammons to President Wilson, which you are proposing to write as

The state-ment should also give the name of the Major referred to and details of the memorandum made up by the Major. This will be of importance in view of the fact that Governor Ammons has de-clared it to be a lie that Mr. Lee fur-nished him any draft to be used in a letter to the President or to the Gov-ernors of other states. Also Mr. Rock-efeller should let the public know how the drafts of the letters for the Gov-

If prohibition does not prohibit people from drinking, then I ask again in heaven's name, what its purpose is? If Oregon is to be flooded with liquor through mail-order channels, bootleggers and blind tigers, what object is there in destroying millions of propherties without compensation, which the laws of Oregon have heretofore encouraged, and in destroying vast revenes and in throwing thousands of people out of employment?

to Montana Town.

BUTTE, Mont., April 24 .- Butte cannot hope to take care of the army of unemployed men moving upon it from every direction. Officials of the min-Monday ing companies said today they had advices that unskilled laborers, attract-ed by the news that Butte was striking its old pace as a result of the copper boom, were headed this way by the thousands.

'Already there are more men of this class in Butte than can be employed," said C. F. Kelly, vice-president of the largest company here, today. "We sim-ply cannot provide work for these men. While the companies have been putting on skilled miners, they have no em ployment for men who are without exyesterday.
