CHINOOK SEEN AT WORK

Sessions of Columbia and Snake Waterways' Association Convention Open and Visitors Will See Coast Resorts Today.

ASTORIA, Or., May 8.—(Special.)—The waterway enthusiasts had the time of their lives today when 114 of them were entertained with a trip to sea, which to many was a novel experience. It was through the courtesy of the lighthouse department that the visitors were given the opportunity to complete in this fitting way one of the most important celebrations ever held in the Northwest.

The trip was made on the lighthouse-tender Manzanita, Captain Richardson, and the conditions were ideal, affording the visitors a splendid chance to view the harbor and the improvement work in progress in deepening the channel across the bar.

Dredge Seen at Work.
The dredge Chinook was at work as the Manzanita steamed by. Each vessel blew a salute that brought everyone on deck to give three cheers. Nothing occurred to mar the pleasure of the occasion. The old Pacific was on its good behavior and continued as peaceful as an inland stream, so that no one was seasick.

This afternoon the delegates were taken over the city by automobiles. A visit was made to one of the salmon-packing plants at the terminals at Flavel and Fort Stevens. A sightseeing trip will be made to Cannon Beach tomorrow. The return will be made after luncheon at Seaside where the Commercial Club will greet the visitors. After a short stop at Seaside the trip will be continued to Gearhart, where dinner will be served. Many of the delegates will depart for home on the evening train.

That the Dardanelles will be captured by the allies, Mr. Weber is confident. He says Russia has approximately 9,000,000 men at the various battle fronts in Germany, Austria and Asiatic Turkey. Also that 6,000,000 more soldiers are ready to go forward whenever needed. A large number of German and Austrian prisoners are to be seen at Moscow and other points in Russia, he says. It seems to him that Germany will be overcome by exhaustion and lack of food.
