

JUNE 10 DATE FOR ROLLER SKATE RACE

All Arrangements Made for Holding The Oregonian's Gala Event for Boys.

TIME CHOSEN WITH CARE

Course Is to Be About Three Miles Long Over Streets With Least Grades—Trophy Cup and Medals to Be Awarded.

"Thursday, June 10, at 5 o'clock in the afternoon at The Oregonian corner, Sixth and Alder streets."

This is the date, the time and the starting point of the Oregonian's roller-skate race to be held for children in conjunction with the Rose Festival programme.

The race is assured. All arrangements for the holding of the gala event were closed yesterday and all that remains is to secure the applications of the youngsters who wish to compete.

A valuable trophy cup, gold, silver and bronze medals will go to the youngsters.

Blanks to Be Published. Application blanks as well as other information on how to enter the race, will be published in The Oregonian from time to time.

The only restriction placed on the event is the age and weight limit. In order to make competition as even as possible it has been found advisable to set the age limit for the contestants between 9 and 14 years.

In order to enter the race the contestant must weigh less than 125 pounds and must have the consent of his parents. This detail will be worked out later.

Care Taken in Choosing Time. The greatest of care was taken in selecting the time for the race. It was found that 5 o'clock in the afternoon would prove the most satisfactory.

This gives the racers the benefit of the cooling evening breeze. Earlier in the afternoon the weather would have been too warm, and had the race been scheduled for the morning the children would have been in school.

The race will take place at 2 o'clock in the afternoon. Plenty of time will intervene between the finish of the parade and the commencement of the race in order to enable all to procure places along the route of the race.

Three-Mile Course Planned. The course, which is yet to be selected, will be one with the least number of car tracks to cross and the smallest grades. It will cover approximately three miles of paved streets, beginning and finishing at The Oregonian corner.

A small army of officials will be on hand to see that everything goes off according to schedule, and a flock of automobiles will follow the course to give aid or assistance to any youngster who may need it.

Nothing of this kind has ever been held, and the race has fallen into immediate favor of all. It is a distinct departure from the usual marathons or cross-country races given throughout the country.

Sight to Be Remembered. The novel sight of hundreds of youngsters paddling through the streets on roller skates will be one that Rose Festival visitors will long remember. From indications the race promises to rival the far-famed electric parades for interest.

All dangers will be eliminated during the race. The streets upon which the course will be laid will be patrolled by the police in the same manner as for the parades.

The city officials have all been interviewed on the subject and have pronounced hearty approval of the plan. Youngsters with roller skates had better be getting them in trim. Those who haven't a pair of skates and know how to skate should hurry and have a pair bought, so they will be in trim by 5 o'clock on the afternoon of Thursday, June 10.
