TAKE a small chew of "Right-Cut" —and see for yourself that a nibble of real tobacco is better than a mouthful of the old kind. Richer, more satisfying and lasts you longer—because "Right-Cut" is the Real Tobacco Chew. Mellow, sappy, rich tobacco—seasoned and sweetened just enough. A ready chew, too—you don't have to grind it. The taste comes steady. Take a very small chew—less than one-quarter the old size. It will be more satisfying than a mouthful of ordinary tobacco. Just nibble on it until you find the strength chew that suits you. Luck it away. Then let it rest. See how easily and evenly the real tobacco taste comes, how it satisfies without grinding, how much less you have to spit, how few chews you take to be tobacco satisfied. That's why it costs less in the end. It's a ready chew, cut fine and short shreds so that you won't have to grind on it with your teeth. Grinding ordinary candied tobacco makes you spit too much. The taste of pure, rich tobacco does not need to be covered up with molasses and licorice. Notice how the salt brings out the rich tobacco taste in "Right-Cut." One small chew takes the place of two big chews of the old kind. WEYMAN-BRUTON COMPANY 50 Union Square, New York BUY FROM DEALER OR SEND 10¢ STAMPS TO US
