ONE HUNDRED YEARS IN PIEDMONT.

A master carpenter has builded a house in Piedmont that will be a strong, snughome in the year 2015. It is the last word in convenience and modern ideas. The workmanship is that of an expert with prids in his work, Bone-dry lumber was used. Every door and window, every drawer works perfectly and always will. Everything, from solid hardwood floors. In the house a special process to brevent the light from darkening their color, to the obscure joints of drawers in the kitchen mortised and glued, if you please, so that they will never spread, but always work easily has been done RiGHT without regard for time by a master carpenter of the old sched. Do you appreclate of the old sched. Do you appreclate plate glass windows, golid brass fittings for doors, locks that work easily and will continue to work easily? This house has them. Do you want a fireplace that will not smoke, that throws heat without fuel waste, a kitchen with a place for everything from ironing-board to brooms? This is the house you are looking for. Do you know the difference in cost between just saiding a house and in laying Al siding 2% inches to the weather, with joint mortised? You do? Then, Mr. Buyer, you will get the nulls of difference in cost built for 100 years and the ordinary house built for thrown together to list from two to 20 years, is on a choice Piedmont sluttle or thrown together to list from two to 20 years, is on a choice Piedmont sluttle or thrown together to list from two to 20 years, is on a choice Piedmont sluttle or thrown together to list from two to 20 years, is on a choice Piedmont sluttle to the waster with slute in the house built for loo years and the rooms. The young and builded for loo years is on a choice Piedmont sluttle two to the waster with sluttle the house has never been occupied.
