REPUBLICANS MAY HAVE 2

Taft and Progressive Wings Likely to Contest; Democrats, Progressives and Socialists Also to Have Full Representation.

Republicans who remained loyal to Taft in 1912 will have one of these, which will be opposed at the Republican primaries by followers of the Reosevelt progressive movement of 1912 who have since returned to the old party ranks. The more radical Progressives probably will insist on a taket of their own, unless the National organization meantime collapses utterly. The Democrats are planning an Republicans who remained loyal to by The Democrats are planning an unusually active fight, and the Socialists, deprived of standing as a primary by fallure to poll a 10 per cent vote at the last election, will be out with a full ticket in an effort to re-

Among the Taft Republicans there is no dearth of candidates for the leading positions which are to be content of the leading positions which are to be content of the leading positions which are to be content of the leading positions which are to be content of the leading positions. leading positions which are to be con-tested next year. Representative Humphrey may be able to get united support of the regular faction in his candidacy for the nomination for United States Senator to succeed Miles Poindexier, who has announced his re-turn to the Republican fold. Ex-Goy-ernor Henry McBride has long been considering seeking the Republican nomination, but has not yet an-nounced himself. Support that Repub-lican leaders already are promising lican leaders already are promising Humphrey is placing McBride at some disadvantage. The latter, if a candidate, probably would need second choice votes to insure his nomination, as Humphrey would have the strongest call for support of the regular wing of the party and Poindexter would rally most of the radicals. Mr. McBride, while a strong Roosevelt follower up to the time of the twin Chicago conventions, did not follow the Colonel into the new party.

Gubernatorial Timber Thick. There are likely to be several Republicans of the regular brand contesting for the Gubernatorial nomination. John G. Lewis, of Aberdeen, former State Treasurer, is the only announced candidate thus far, but announced candidate thus far, but Siste Representative Roland G. Hartley, of Everett is preparing to launch his boom in the near future, ex-Governor M. E. Hay, of Spokane, is expected to make an announcement by September, and J. E. Frost, of Seattle, and J. H. McNeeley, of Buckley, are busy sizing up the situation. Mr. Hay's probable candidacy will keep George A. Lee, chairman of the Public Service Commission under Hay, out of Service Commission under Hay, out of the race, and also will deter the candidacy of Senator Sutton of Chency, but probably will not received.

the Governor, in such a combination. Either Senator Dan Landon or Representative Tom Murphine, Frogressive leaders in the respective Houses of the Legislature at the recent session, will contest for the nomination for Congress in the Senatic district, left vacant by the candidacy of Representative Humphrey for the Senate. Ex-Representative Humphrey for the Senate. Ex-Representative J. W. Bryan, defeated for renomination in the Progressive primaries last year, also probably will be a candidate. A considerable degree of this attitude apparently is due to the fact that Senator Foindexter, before announcing his own return, took none of the other. his own return, took none of the other party men into his confidence. Democrats Making Slate. Democratic leaders have had visions of forming a strong 1916 ticket with Governor Lister a candidate for reelection and George Turner or Judge S. J. Chadwick of the Supreme Court for the Senate. Efforts are reported for the Senate. Efforts are reported to have W. W. Black, of Everett, who has tried valuity for Governor and United States Senator, centent himself with the Congressional nomination in the Second district, where he has a the Second district, where he has a strong following, and there is talk of restraining the Senatorial ambitions of ex-Mayor George F. Cotterill, of Seattle, with the Congressional nomina-tion in the First or Scattle district. C. C. Dill. Democratic Congressman in the Fifth or Spokane district, undoubtedly will be nominated to succeed himself, and efforts probably will be made to select a prominent Democrat from Eastern Washington, such as Senator Arthur McGuire or Representative Frank Reeves, as candidate for Lieu-tenant-Governor to help Governor Lis-

ter in the state campaign.

All these statings depend upon the desires of the individuals. Governor Eister's closest friends do not know whether the executive will be a candi-

date for re-election, for the Senate of whether he will drop out of politics and the situation is similarly undefined in regard to most of the others.

Aside from Mr. Humphrey, the Republican Representatives, who are Lindley Hadley in the Second district, Albert Johnson in the third, and William L. La Follette in the fourth, are regarded as probable candidates for re-election.

Mid-Day Weather Observation of Relative Humidity to Be Taken.

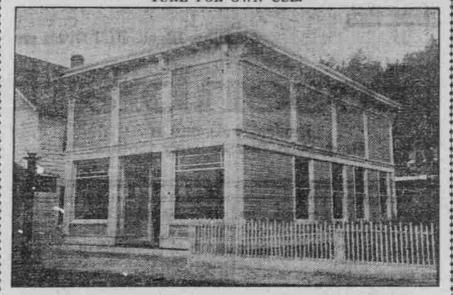

WASHINGTON, D. C., June 12 .- The relative humidity in the middle of the day hereafter will be included in the weather reports furnished daily by the POSTS ARE DIVIDED EVENLY Weather Bureau to the newspapera.
At present, observations of the relative humidity are taken at 8 o'clock in the morning and 8 o'clock at night, but at these times the temperature is likely to be much lower and the relative humidity much higher than in the middle of the day. An extra observation of the relative humidity, therefore, will be taken, probably at 2 o'clock.

GARDINER BANKING INSTITUTION COMPLETES NEW STRUC-TURE FOR OWN USE.

FIRST NATIONAL'S NEW HOME CREDIT TO TOWN. GARDINER, Or., June 5.—(Special.)—The First National Bank of Gardiner, an institution organized January 2, 1915, has completed the erection of an up-to-date bank building, which will be used exclusively as a bank home. It is fitted with modern conveniences and is equipped with a reinforced concrete vault, which sets on a solid concrete base built up from several feet below the surface of the ground. Within the vault there have been placed a manganese steel money safe and safety deposit boxes. The building is a credit to Gardiner.

SCHOOL HEAD IS RETAINED C. W. Boetticher Elected Superin-

tendent at Albany Fifth Time.

ALBANY, Or., June 12 .- (Special.) --For the fifth successive time, C. W. Boetischer has been elected Superintendent of the Albany schools.

Professor Boetischer began his work as a teacher 30 years ago. After teaching for five years in his native state of Ohio he came West and after teaching a short time in the State of Washing-ton was elected principal of the Silver-ton schools. He returned to Ohio and graduated from Marietta College in 1895. He then taught for 14 years in Ohio and West Virginia. In 1909 he re-turned to Oregon and was principal of the Silverton schools until he came to Albany in 1911;

Last night the Woman's Club gave a lawn fete on the Hotel Washington grounds. The feature of the programme was a "better babies" contest, in which several prominent business and professional men appeared as the "babies." The examining physicians were impersonated by F. E. Flynn and Lloyd Nichols, and Mrs. Earl Coe was the attending nurse. The prize was awarded to a 210-pound "baby," John Wyers, ex-Mayor of White Salmon.

The annual business meeting of the association this morning was followed by a big dinner at the Oddfellows' hall. In the afternoon was the musical and literary programme, interspersed with one-minute reminiscent talks and, stories, by some of the older pioneers. The festivities ended with a dance at the Woodmen Hall.

Regular Monday Clearance Sale

During the course of our regular business we take in exchange many pianos and player pianos in the finest tones, cases and actions. These instruments accumulate very rapidly on our floors. In order to turn them quickly we have decided to inaugurate, beginning tomorrow, June 14, a clearance sale, which will take place regularly every Monday.

Pianos

come. Their extraordinary fine condition denotes that they have been well taken care of and they will make a splendid addition to any home.

Player Pianos

In tomorrow's sale, most of the player pianos offered are the very latest style, 88-note, full-scale instruments, containing many of the modern up-to-date improvements. They have been most carefully gone over by our experts, repolished, put in perfect order and all bear our strict

There will also be included brand-new pianos, standard makes, styles of which have been discontinued in our latest catalogues owing to small changes in styles of cases by the manufacturers. Still these changes are so slight that there could be no objection by anyone wishing to purchase a strictly up-to-date style of case, in a good make of instrument.

Still Another Exception Panama-Pacific Exposition Models **Exhibition Pianos**

Perhaps the greatest feature of this sale is the offering of several Exposition models from a large manufacturer who completed these beautiful instrumnts too late to be included in our magnificent display at the San Francisco Exposition. These are on sale at most amazing prices and terms so liberal that you could hardly afford to overlook them. See these and, pianos and hear them tomorrow.

Prices and Terms

Read the list of splendid bargains offered. These are genuine bona fide offers. The names and prices are significant, but only by coming to our store and seeing the identical instruments can you correctly estimate their extraordinary value. No sale will be considered closed unless positive satisfaction is given.

Not only are the prices the lowest at which such splendid values can be offered, but the terms will be made to suit your convenience. A cash payment so low that it hardly reimburses us for the cartage charges, will take the majority of them.
