Some states, for instance, allow only two amendments to be proposed at one time. If the suffrage amendment happens to be the third amendment it may have to wait over to the next Legislature, which may be four or even six years off, for all Legislatures do not meet every two years as does the Oregon Legislature.

# A Terse, Truthful Tale -- It Happened at Jaeger Bros.

—A lady yesterday remarked:

-"This is Mrs. ----, my sister, from New York.

-She might purchase a diamond, Mr. Jaeger, if there is a real special value to be had.

-We were just now walking up Sixth street. We noticed your new store, and I stated that Jaeger Bros. are to Portland what Tiffany is to New York.

-We admired the beautiful marble front now being installed, and we watched the decorators as they were placing the artistic tint on the walls.

-The new store will certainly be beautiful, and as we stood there, admiring the work, we heard many people passing speak of Jaeger Bros, and their new store.

-When your Removal Sale was spoken of my sister was at once interested, and we just thought that we would walk down this way, and we're here."

-Now these remarks were not made all at once, but they came out during the time the lady was inspecting the diamond stock, and while she was making her purchase.

-Right here in Portland many people reside that do not realize fully what this lady from New York realized.

-Now is the time of all times for you to purchase a diamond. With diamond values constantly advancing, you cannot possibly make a mistake.

-It's truly a wonderful opportunity, and if you will just take a moment to investigate (like the lady from New York) you, too, will buy, or in other words, make an investment, just as this lady did.
