the auspices of which he spoke on Friday night, paid only his personal expenses in Portland.

The entire receipts at the Heilig were 1916.75. The expenses, including Mr. Bryan's expenses, rent of the theater, orchestra, advertising and all were 1222.25. An aggregate of \$57.50 had to be deducted also for complimentary tickets issued.

This leaves a net profit of \$631 for the society. The money will be used in the work at the Albertina Kerr Nursery Home, the Portland Commons Prison League, the Louise Home for Girls and the Portland Commons Home, all of which are conducted by this organization.

JEWELERS' HEAD IN CITY

T. Combs, of Omaha, Comes for Oregon Convention.

T. Combs. of Omaha, Neb., president of the American Retail Jeweiers' Association, arrived in Portland last night. He is accompanied by Colonel John I. Shepherd, of New York, one of the best-known men in the jeweiry business. Both are here to attend the annual convention of the Oregon Retail Leweigr's Association that convenes in Children, Denied to Him.

Jewelers' Association that convenes in this city August 5. They arrived early with a view to visiting the Columbia Highway, points in the Willamette Valley and cities in Washington.

This is the eighth annual convention of the Oregon Retail Jewelers and the Columbia Highway are all Jewelers and the Columbia Highway points in the Willamette Valley and cities in Washington.

city and one of the greatest acts of philanthropy on record in the state. "It is true," said Mr. Munly, "that

the schools have been left large sums by will, but Mr. Benson's gift is with-out parallel." Mr. Plummer also expressed himself.

Mr. Flummer also expressed almself, saying: "I am proud to be a member of the board on such an occasion as this." In making the donation Mr. Benson said that he had not had the advantage either of a classical or trade education when he was a boy and he was making the gift "for the benefit of the boys and girls of Portland and not for the benefit of the taxpayers." Con-tinuing, he said, "I appreciate the val-ue of an education and the knowledge of a trade and I am glad to help the and girls get a start in the proper

Gift Is Explained.

Following was the offer made by Benson: Members of School Board, District

No. 1-Gentleme I herewith offer to donate to your district \$100,000 for the purpose of building the first unit of trades school buildings on the site recently pur-chased by you, construction to begin immediately and the cost of same to be advanced by me from time to time on advanced by me from time to time to request of your board as needed for said purpose, on 30 days' notice, in amounts of \$25,000, until the entire \$100,000 is expended. "This donation is upon the express condition that your district will con-tract to expend at least \$100,000 dur-

ing 1916 for the construction of the second unit of said trajes school.
"Yours truly."
S. BENSON."

The site of the trades school is from East Twelfth to East Fifteenth atreets and from East Irving to East Glisan streets, inclusive, with a power plant located at East Thirteenth and Oregon streets.

WIFE MAKES BID FOR PEACE

Cash. Fare and Farm Concessions Offered for Return Home.

Peace negotiations between a discordant couple have begun in the advertising columns of the newspapers.
Offering concessions in property, farm products and a cash indenfulty of \$100 as a basis for a treaty with the husband who has left her. Mrs. E. E. Moore, of Woodland, Wash., has had published the following notice:

"I will give my husband, Mr. E. E. Moore, \$100 and pay his way home and the crops and three calves, one yearling, one cow and half the pigs and part of the place if he'll come home. He always shall have a home.

"MRS. E. E. MOORE."

Mr. At Riverside are still these parent trees, preserved as almost sacred, priceless relics of human enterprise. From Riverside we follow the Santa Fe Raliroad in concrete roadways via Perris and Marietta, Along these concrete foundations are deliveries of finely crushed material to construct the bituminous surface.

We passed all one forenoon riding over the valleys leading to the great mountain range to the south and then crossed over a ridge of hills to Temecution. There were abundant Spring rains

Fort Is Built of Brick,

Portland. Or., whose family name he did not want mentioned, although some of them are in the printing business. As is usual in such places, the games are run by a syndicate. To see women stand up to a faro table, a chuck-luck game, or throw dice for money, or play 21 or the roulette game for hard coin was a new sensation. But they played the games with a zest and they were Americans. This only proves that the most intelligent and prudent representatives of the fair sex cannot be trusted

Guide at \$1 Hour Declined.

Buildings Shew Foreign Ideas.

The ancient temples of Central America and monuments and tablets of pre-christian civilization show distinct traces of Hindoo, Persian and Egyptian ideas and symbols.

There are beautiful symbolic pictures in the theosophical headquarters, before reaching the Art building. The first art gallery has rude tile floors, enormous spaces with a single row of pictures on each side, dominated by collections by Childe, Hassam and Robert Henri, Americans. The whole ensemble is so artistic that a mere arbitrary collection of paintings is minimized in effect, as one wanders through the cloistered arcades, cooled on each side by thickets of flowering shrubs and plantations of evergreens. The real art collections are the decorative pottery in the Archaeological building, where the indigenous arts produced by the artistic achievement up to the point where the white man stepped in, arrested and destroyed the art tendency that was leading up to higher expressions

ment 30 to 50 feet wide and thronged with such wealth of motor-driven vehicles as the world did not dream of 20 years ago. The parade of luxurious cars cannot be surpassed in any American or foreign city. Here are cars of all colors and from all states in the Union. Thousands of cars are shipped here by their owners from the East and are never driven off the pavements. ments.

Many carry colored chauffeurs, and some Japanese. The colored driver of the auto is the legitimate successor of the Pullman porter and dining car man. Motor cars at the beaches or on Washington and Wiltshire boulevards are surely not to be numbered. These streets and Pasadena avenue to Long Beach, and the new boulevard through Topango Canyon are driven over by thousands of cars daily and at speed practically without limit. Of course reckless drivers are arrested, but the actual practice is to penalize the snail. A friend who represents the Apperson branch at Los Angeles took us out, and to say that there were no snails on Figueroa avenue out towards the exposition park is putting it mild.

Scenic Rides Are Numerous.

Scenic Rides Are Numerous Los Angeles and San Diego both have wonderful inviting possibilities for motoring. They are in the same class with Portland in affording opportunity for long reaches of avenues and boulevards, and at the same time plenty of chances for scenic highways. But the California towns have made more hay in these meadows than Portland.

Forty miles out from San Diego the Camina Real is paved, but by the inland.

Benson, wealthy lumberman, good roads enthusiast, high-minded philanthropist and "first citizen of the State of Oregon," has added one more altrustate act to his already lengthy list. Yesterday morning at a special meeting of the School Board, in the office of the oregon, wealthy lumberman, good ley and cities in Washington.

SAN DIEGO, Cal., July 31.—(Special.)

—To San Diego via Riverside and the foothill route, 170 miles, and back by the coast route, 130 miles, is problem. There are between 140 and attendance. There are between 140 and all retail jewelers in the state who are toring in the United States. To Riverside and the foothill route, 170 miles, and back by the coast route, 130 miles, is problem. There are between 140 and attendance of the School Board, in the office of the School Board, in the office of the School Board, in the office of the School Board, are over gracious grades and of the Sun are over gracious grades and over grades

The last 20 miles into the Harbor of the Sun are over gracious grades and grow in interest as the last canyon rises from the riverbed at the head of the bay and come down University avenue to the hotel section. After dinner we motored out to Point Loms. headquarters of the International Theosophical Association. It is a night ride of magical effects.

At Los Angeles we begin to realize Mexico. One whole city park is given up to Mexicans. From this on south we pass Mexicans every few miles on horseback and pass adobe houses and even anug modern bungalows occupied by our brown-skinned neighbors to the south of us.

the south of us.

Monoplane Sails Overhead,

As we toured out of San Diego for Mexico a monoplane sailed over us headed out for the Pacific. It is a sport that has become quite the rage of these southern cities. There is a Govern-ment aviation station at San Diego. Los Angeles air flends fly from their homes in the suburbs to take dinner at their country clubs. Their last trip is always made in an ambulance or a hearse. It is also safe and a favorite way of touring into Mexico.

To Tiajuana we go south 16 miles through National City to the boundaries of the land of sentiment mystery and

tove. How these came to be sent is a nystery.

Heaven for Motoring Pound.

Los Angeles is the veritable heaven on earth of the automobilist. Sunday morning we drove to Santa Monica Beach from Pasadena via Hollywood, The Crar of Russia is said to refer to this place as a "pearl of the Russian crown."

Heaven for Motoring Pound.

Los Angeles is the veritable heaven on earth of the automobilist. Sunday morning we drove to Santa Monica Beach from Pasadena via Hollywood, to mingle, but show no signs of combining.

Beach from Pasadena via Hollywood, to miles of regular silk-finish paventage as a "pearl of the Russian crown."

The military band plays at the fair, and is the principal attraction.

Poor as they are and distressful as hill, overgrown with bloom, to the foot the cross and stood in awe and the cross are spoken there. The many races Poor as they are and distressful as their condition may be under revolution, one gets the feeling that this is their country and that they cannot help but love it as their own, and that the United States has no business under any circumstances to take it away from them or that they would ever toleral.

We drove our motorcar up the sceley of the cross and stood in awe and reverence at the cradic of Christianity and civilization on the Pacific Coast, antedating the landing of the Puritans by 80 years.

Trees Cover Sides of Roads.

United States has no husiness under any circumstances to take it away from them, or that they would ever tolerate foreign subjugation.

The Monte Carlo department of Tiajuana is confined to a long, low building, and is run by some low-browed Americans, one halling from Portland, Or., whose family name he did not want mentioned, although some of them are in the printing business.

For a party of Americans to enter a fortified city of a country at war without passports would be an unheard-of undertaking in Europe. But we even declined the offers of guides to show us through at \$1 an hour.

This time gives one a general concept, but one has no time to study the botanical gardens, the experimental farms, tea culture and many other special features peculiar to Southern California.

These Californians have promethean foresight for future road development. Twenty miles north of San Diego we are on pavement at place's built down on the ocean beach, with the sea wall for the west slope of the grade and the surf beating against the completed highway. Parties go 20 miles in their autos dressed in bathing suits for a dip in the surf.

Beach Ride One of Spiender.

The run along the beach for 70 miles

California.

The decorative effects are intensely Spanish, a combination of the Italian renalssance, overloaded with the concept of opulence, the manifestation of material development, the abundance of wealth following the Spanish discoveries. This art concept pervades the exteriors.

The endless arcades are an orange plnk, and looking through them the courts have a warm violet atmospheric tinting. The buildings are topped with copper-red cornices, a triple tier of decorations in Moorish effects of the richest Isabellian period. Ancient American art is made prominent in the California building.

Buildings Show Foreign Ideas.
