Ford's Prairie School Starts Sept. 6.
CENTRALIA, Wash., Aug. 14.—(Special.)—Henry Loomis, clerk of the Ford's Prairie School District, yesterday announced that the district's school will start September 6. Only three teachers will be employed this year, as against four last year, owing to the fact that the ninth grade has been abolished. There were only two ninth-grade students last year, the rest, owing to its close proximity, attending the High School.

We give our out-of-town customers the same privilege of buying from our daily ads as those who live in the city. Your order is studied and promptly filled with as much "intelligent interest" as if you were here yourself. Should you come in person we will be glad, upon request, to have one of our experienced shoppers assist and conduct you to as many of the 75 different departments as you choose. Now! An Initial Showing of Fall Suits

Our New Apparel Department, the Finest on the Pacific Coast, Is Wonderfully Convenient to Shop In!

Naturally you look to Meier & Frank's for the first view of the correct new styles in the greatest variety. And this season we have determined to serve you better than ever before.

Our close associations with New York will keep you fully informed of the developments of Fashion, and our merchandising methods assure you of worth-while low prices.

Tailored Suits Priced \$15 to \$65

We want to talk about three distinct lines of Fall Suits today. First there is the

TAILORED SUIT FOR DRESSY WEAR

It comes in rather severe lines this season, with the military air well sustained. Upright collars of velvet or braid, that may also be worn low, showing soft linings of velvet, are very good. Black, navy, African brown, dull green, and many invisible checks and stripes are shown. Whipcord is a leading material, with serges, gabardines and tweeds close followers.

THE SPORTS SUITS FOR GENERAL WEAR

What have been known all Summer as "Sports Suits" are to be just as popular this Fall. Norfolk styles lead, with smart belts and pleated effects. You're sure your sports suit will never go out of style—an economy for general wear. Some new suits are in pretty checked effects, with the new high-low collar and other innovations. Priced \$24.50 and \$29.50.

MISSES' AND JUNIORS' SUITS

Developed along smart, clean-cut lines, typical of the American school girl. Made mostly of serges, gabardines and whipcords. Navy, browns, greens, stripes, mixtures. For outfitting girls for school and college. We advise early selection. Prices range from \$15.00 to \$34.50.

Tailored Dresses Priced \$15 to \$35

They're simply charming, these new models in Dresses that are going to be so popular this Fall and Winter. Mostly they're shown in princess, Eton and Norfolk effects, the latter particularly good for young girls and small women. Serges, gabardines and whipcords are prettily combined with plaid, striped and plain taffeta—one pretty model is of taffeta with serge band trimmings. But serge is the favorite material, and navy or black the leading foundation colors. Ball buttons, lingerie collars, braid and bead embroidery are all used to enhance the effectiveness of these gowns that have simplicity of line for their chief charm. The designing, the materials, the trimmings and the prices all combine to make a telling appeal to women who know and appreciate values. And you're assured that tailored dresses are "the thing."

Here! The Autumn Styles in Chic Millinery—Beautifully Tailored Models From VOGUE PHIPPS HYLAND BURGESSER

"Smart" is the word that best describes the hat models we are showing—smartness of shape, trimming effect and color all are in evidence. Make it a point to visit the parlors. As usual—our prices are "Right!"

Bearing the impress of artistic designing and bowing to the mode that prevails, which is staidness, black, dull greens, navy and brown are the popular colors. But style, which after all, is the essential of successful millinery, is omnipresent in such models as charming draped turbans, sailors in variations, Tam O'Shanter, and tricornes that fit closely about the face.
