

I. W. W. THREATS NOT TO MOVE GOVERNOR

Destruction of Property Will Win No Consideration for Hopyard Murderers.

LABOR CAUSE IS INJURED

California Executive Reviews Practice of Sabotage and Quotes Circular Ironically Suggesting Outlaw Measures.

SACRAMENTO, Sept. 11.—Industrial Workers of the World will fall by threats and sabotage to win consideration for their fellow-members now serving sentences for hopyard murders, Governor Johnson announced today. So long as incendiarism continues, said the Governor in a formal statement, he will refuse to take up the cases of Ford and Fuhr, whatever may be said in mitigation of their offense.

The Governor reviewed the Wheatland hopyard riots, in which the District Attorney of Yuba County was killed and the Sheriff received injuries from which he died a year later. He added:

"This is not a case where the leader of a strike is held responsible criminally for the act of violence of an individual striker, done without the knowledge or connivance of the leader. Here, Ford requested that the very thing which subsequently occurred should be done.

Homicide Cannot Be Justified.
"Unless we grant the individual the right in any case to resist to the utmost the authority of the law, we cannot justify homicide committed in these circumstances," said the Governor.

"Today they preach, in the name of Ford and Fuhr, violence, sabotage and arson. They demand the destruction of the farming and fruit industries of California; they are instructing by word of mouth and otherwise how best to do this, and barns and buildings of industry may be burned and how sabotage may be practiced. Some of their stickers ironically read:

"As long as Ford and Fuhr are in prison don't stick copper nails or tacks in fruit or grape vines. It hurts them!"

Men Are Worst Enemies of Labor.
"I suggest but a tithe of the agitation of the Industrial Workers of the World in behalf of Ford and Fuhr. This preaching and organization alike are the enemy not only of our farmers and our horticulturists, but even the worst enemy of organized labor." The statement closes with an assertion that while there are interesting circumstances which might be powerful arguments for a commutation of the life sentences, the Governor will never consider any of them until the lawless demonstrations cease.

HOPYARDS ARE GUARDED

SEVERAL SUSPICIOUS CHARACTERS SEEN NEAR INDEPENDENCE.

Stubble Fires Put Out in Many Places, Pickers Plentiful and Harvest Nearly Finished.

INDEPENDENCE, Or., Sept. 11.—(Special.)—Hop yards are being guarded in this section, by armed men, night and day, to prevent further fires. None has been reported in the last 24 hours. A few of the smaller yards have been picked and hops are being stored in the Southern Pacific warehouses in this city.

Several suspicious characters have been seen in this locality and deputies have been detailed by the Sheriff of Bolivar County to assist the growers in safeguarding their property.

Stubble fires have been put out in many places adjacent to hop yards and buildings. Owing to the heavy dew of last night small fires in the timber-clearings were put out.

Most of the yards will finish in another week. Many hopyarders already are returning home and all the yards are covered with pickers.

T. A. Livesley, of T. A. Livesley & Co., who suffered a loss from a fire of about \$22,000, said today that the blaze started either from a spark from a kiln or spontaneous combustion.

There has been no disorder and the growers have decided not to appeal to the Governor. The Southern Pacific warehouse, where many of the growers have stored their hops, is being guarded by day and night shifts.

BULGARIA CHANGING VIEWS

Government Hints It May Range Itself With Central Powers.

COLOGNE, Germany, via London, Sept. 11.—According to the Cologne Gazette, the Bulgarian government is sending an official pamphlet to all local papers explaining that Bulgaria might, for economic and political reasons, be compelled to abandon neutrality and range itself with the central powers.

SOFIA, Bulgaria, Sept. 8, via Paris, Sept. 11.—The Turco-Bulgarian negotiations concerning a boundary adjustment have been concluded. Turkey will formally turn over to Bulgaria the territory in question within a few days.

WEATHER OFFERS VARIETY

Montana and North Dakota Have Frost; Georgia Torridity.

WASHINGTON, Sept. 11.—With snow falling in Helena, Mont., temperatures near freezing in North Dakota, Montana and Northwest Wyoming, the hottest September weather on record in Georgia, and heavy rains in the Great Lakes region, the country's weather today presented a wide variety.

Warm weather promises to continue in the South, but north of Virginia and east of the Mississippi cooler weather will come tonight and Sunday. The thermometer went to 26 in Great Falls, Mont., last night.

Quarterly "Cleanup Day" Counseled.

CHICAGO, Sept. 11.—It is the duty of every citizen in the United States to observe "cleanup week" four times a year to guard against fires, according to Robert W. Bergantine, fire marshal of Minnesota, who spoke today before the National convention of fire marshals.

NEW YORK HEIRESS WHO IS ON WAY TO PARIS TO WED TITLED FRENCH OFFICER.

MISS EMILY E. SLOANE, AT LEFT, WITH COMPANION.

HERO WINS HEIRESS

Miss Emily Sloane to Become Bride of French Officer.

NEW YORK, Sept. 11.—(Special.)—Miss Emily E. Sloane, daughter of Henry T. Sloane, the millionaire carpet manufacturer, of New York, recently sailed aboard the steamship Espagne en route to France, where she is to become the bride of Baron Ansuray de la Grange, who is a captain in the French army and who is at present fighting in the trenches. It is said that the wedding will take place in Paris.

Miss Sloane, as secretary of the Lafayette fund, did much to aid the French soldiers and expects to take up the work of finding places for permanently injured soldiers.

Miss Sloane declined to discuss her coming marriage, though on previous occasions she is quoted as having said that there was not a war romance and that she had known the Baron and his family for many years.

The Sloane family has been prominent in New York for several generations and the name has figured frequently in philanthropic works for many years. Of late years the family has passed much time abroad, and Miss Sloane has been entertained by friends and relatives of the Baron, and his intentions was the subject of considerable comment.

The engagement was not announced prior to the outbreak of war. It is said the marriage would have occurred sooner had not the Baron been called to his colors. He has been mentioned in the dispatches more than once for bravery.

ROMANCE ANTE-DATES WAR

Bride-Elect Sails for France and Ceremony is to Take Place in Paris—Baron Ansuray de la Grange Now in Trenches.

the service expected of an Ambassador because he could not enjoy from this Government the confidence necessary for a proper discharge of his duties. This does not, however, compel the breaking off of diplomatic relations and our Government wisely accompanies the request for recall with an assurance of good will.

As to the proposed loan of a vast sum, Mr. Bryan continued:

"At the beginning of the war, this Government expressed its disapproval of loans to belligerents. An exception was afterwards made in favor of the credits given by bankers here to cover purchases. This proposed loan, however, is so large and will require the co-operation of so many people to insure its success that it raises several serious questions—the most important being its possible effect on this Nation's neutrality.

"The President has appealed to the American people to refrain from unneutral words and acts, but this appeal will have little effect if our people become financially interested in the success of either side. If such loans are encouraged our people are likely to become separated into groups, each group leaning to the side with which it sympathizes. We have duties enough in maintaining neutrality when sympathy rests upon sentiment. It will be still more difficult if sympathy represents large money investments.

"We cannot afford to put our neutrality in jeopardy for any money consideration. If Europe wants American money let it send back American securities instead of asking our people to share the risks of the war."

German Goods Barred Forever.

MELBOURNE, Australia, via London, Sept. 11.—The entire membership of the House of Representatives of the Federal Parliament, the legislative body of the Commonwealth of Australia, has pledged itself never again to purchase German goods.

When You Wash Your Hair Don't Use Soap

Most soaps and prepared shampoos contain too much alkali, which is very injurious, as it dries the scalp and makes the hair brittle.

The best thing to use is just plain mullein seed oil, for this is pure and entirely greaseless. It's very cheap and beats soap or anything else all to pieces. You can get this at any drug store, and a few ounces will last the whole family for months.

Simply moisten the hair with water and rub it in, about a teaspoonful is all that is required. It makes an abundance of rich, creamy lather, cleanses thoroughly and rinses out easily. The hair dries quickly and evenly and in soft, fresh looking, bright, fluffy, wavy and easy to handle. Besides, it loosens and takes out every particle of dust, dirt and dandruff.—Adv.

Warner's Safe Nerve

helps to allay pain and irritation and produce restful sleep. It is particularly useful whenever it is desired to diminish excessive irritability and is highly serviceable in attacks of headaches, sleeplessness and neuralgia. Warner's Safe Nerve is especially adapted to the use of people of nervous temperament and leaves no unpleasant after effects.

Two sizes, 50 cents and \$1.00. Sold by all druggists. Warner's Safe Remedies Co., Dept. 205 Rochester, N. Y.

Fat People

I WILL SEND YOU A PROOF TREATMENT FREE—EITHER SEX.
