Actual Negotiations Declared Not Yet to Have Been Begun and Reports of Early Agreement on Terms Are Denied.

NEW YORK, Sept. 18.—The end of today's brief session found the situation unchanged with respect to the variance of opinion over the proposed Anglo-French credit loan...

Adjustment Still Far Off. Notwithstanding many rumors to the contrary, there was every indication tonight that an adjustment of differences over these and other minor proposals was still far from accomplishment.

In the course of the day it was reported that an arrangement virtually had been reached and that success of the plan would be announced shortly, perhaps on Monday.

Picture Purposely Painted Dark. In their negotiations with the commission, the American financiers apparently have had in mind continuously the blow which might be dealt American industry should the commissioners fall in their work.

At the beginning of parleys it was said the commissioners pointed out that the loan, in their opinion, was more vital to America than to either Great Britain or France.

Significance was attached to the drop in sterling today from \$4.73 to \$4.69 1/2, a loss of 3/4 cents overnight.

American Expected to Go to Washington at Once to Explain.

WASHINGTON, Sept. 18.—James F. J. Archibald, the American on whom letters from Dr. Constantin T. Dumba, Austro-Hungarian Ambassador here, and Captain Franz von Papen, German military attaché, to their respective governments, were found by British authorities, is due to arrive in New York tomorrow and is expected to come to Washington immediately to offer an explanation of his position.

Laws believed to apply to his case as it affects American neutrality have been carefully studied at the Department of Justice, but what action is contemplated has not been announced.

Acting Secretary Polk, of the State Department, and Attorney-General Gregory saw President Wilson today. Mr. Polk would not say what had been discussed or whether photographic copies of the messages carried by Archibald had reached the State Department, and the Attorney-General was equally reticent, although it is believed that the Archibald case figured in both interviews.
