Official Report Says Only Private Property Was Damaged by Zeppelins.

INCIDENTS ARE RELATED

Two Hospitals Narrowly Missed, but Only One Church Hit-Military Effect Is Declared to Be

Wholly Lacking,

LONDON, Sept. 18.—An official de-scription of the effects of the latest Zeppelin raid on the London district, written by an impartial observer at the request of the Home Secretary, Sir John non, and issued tonight for publi-

In every case where damage has which suffered, and in most cases this has been of the small residential kind. Almost all the unfortunate people who have been killed not only were nonombatants, but non-combatants of class who hitherto, in the honorable practice of civilized warfare, have been exempt from attack—women, childen, small shopkeepers, workingmen—the sacrifice of whose lives serves no military purpose, either morally or materially.

The folly and futility of the raids last week may well be imagined when it is remembered that the London district, taken for convenience as the area administered by the metropolitan police, is just short of 700 square miles in area. It was by hastily dropping at random, in the dark, explosive and incendiary materials somewhere on this enormous surface that the enemy professed to have accomplished an important military purpose. No Military Purpose Accomplished.

tant military purpose.

"The fact is that no public institution of any kind was hit, nor was any power station or arsensi. No damage was done affecting the use of any build-ing connected directly or indirectly with the conduct of the war.

"It is true two hospitals narrowly escaped damage, but it is only fair to say, in behalf of the officers of an army which has done its best to destroy the cathedrals of Belgium and France, that up to the present they have succeeded in hitting only one church. in hitting only one church.

Moral Effect Negligible.

"So far as the meral effect of the raid is concerned, it is feared that from the standpoint of Berlin it was a complete failure. If Count Zeppelin himself accompanied the raiding aircraft, as has been reported from Holland, he will be disappointed to learn that only a minority of the vast population of London was aware of the presence of the summit of the peak, which is 29,000 feet, and that the summit of the peak, which is 29,000 feet, and that the party fully expected to make the summit of the peak, which is 29,000 feet, and that the prival of the vast population of London was aware of the presence of the summit of the peak, which is 29,000 feet and saw the Zeppelins the feelings everywhere aroused were interest and curiosity rather than fear.

"Here we a few platures of the effects of North Pole fame, has received a letter from his brother in his brother in hits outpointed Jack Allen in the middleweight division, but Referee Kendall called it a draw because Trambitias outpointed Jack Allen in the middleweight division, but Referee Kendall called it a draw because Trambitias outpointed Jack Allen in the middleweight division, but Referee Kendall called it a draw because Trambitias outpointed Jack Allen in the middleweight division, but Referee Kendall called it a draw because Trambitias outpointed Jack Allen in the middleweight division, but Referee Kendall called it a draw because Trambitias outpointed Jack Allen in the middleweight division, but Referee Kendall called it a draw because Trambitias outpointed Jack Allen in the middleweight division, but Referee kendall called it a draw because Trambitias outpointed Jack Allen in the middleweight division, but Referee kendall called it a draw because Trambitias outpointed Jack Rendall called it a draw because Trambitias outpointed Jack Rendall called it a draw because Trambitias outpointed Jack Rendall called it a draw because Trambitias outpointed Jack Rendall called it a draw because Trambitias outpointed Jack Rendall called it a dr
