Fire Stations Desired.

Recommendations are made for three sew fire station buildings. Two of here were allowed for the present year, but the money has not been spant be-cause of financial shortage. The main one is \$40,000 for the construction of a new building in place of the present headquarters station on Fourth street, near Yamhill. The second largest will be \$15,000 for a new building at Sixteenth and Washington streets, where the present structure has to be torn out because of part of it occupying private property. This is a new proposal. The third is \$10,000 for a new building to take the place of the shack occupied by the Sellwood company.

In the fire bureau provision is made for \$15,000 for a house for the men assigned to the fireboat Williams, Provision also is made for one automobile aerial truck to cost \$13,000 and \$6000

City Council when it takes up consideration in about two weeks of the municipal budget of proposed expenditures for 1916. With one week still to go the members of the Council have their proposed budgets nearly completed. They are all due in a week from tomorrow.

Although special appropriations apparently are being sought with a rather lavish hand, the budgets will all show attempts at economy. Except in the police, fire and health bureaus and the various bureaus of the Department of Public Works salary increases are few and far between. Many cuts in the number of employes have been made and an attempt apparently has been made to get everything in the way of maintenance cost down to bedrock.
