REED ANNOUNCES 11 EXTENSION COURSES

Series of Lectures to Be Given Library Will Begin Thursday Night.

LIST OF SPEAKERS IS LARGE

Theory of Founders Is Followed in Extending Service of College to Community --- Systematic Study Classes Arranged.

selves of the courses of instruction in Reed College the trustees and facuity of the institution have arranged 11 public extension courses consisting courses will be delivered in the Public Tuesday night at 8 o'clock, with a lecture by Norman Frank Coleman, A. M. Professor of English, on "The Growth of the English Bible."

tory of English Literature and the pipe-organ lecture-recital course will be given at Reed College, and the remaining two courses before Portland

at S o'clock.

These study courges are primarily for those who wish to do systematic work and write the required papers, and take the final examinations.

A certificate of credit is given by Reed College to anyone who satisfies the requirements of a study course. A fee of \$2 is charged for each student. Registration takes place at the first meeting of the course. No charge will be made, however, for those who merely wish to attend the lectures.

Library Lectures at S O'clock.

turbance.

The first Reed College Extension courses were given during the season of 1911-12. The total attendance then was 360. From that time it has increased at the rate of more than 300 a year until last season 1347 people attended the lectures.

The course on "The English Bible." by Norman Frank Coleman, A. M., will be the first course to open at the library. It will be a literary treatment of the bible in 12 lectures on Tuesday night from October 5 to December 21.

Peace Course Interest Vital,
No course will be of more vital interest to the public than the one on "The Problem of Peace." In these days of war when the nation's peace policy is of paramount importance, it would have been hard to have chosen a subject of greater public interest. The problem will be dealt with from all angles. The facts of the scientists will be given as well as the most modern theories of peace advocates.

The lecturers of the course are: William Trufant Foster. Ph. D., professor of biology; William Fielding Ogbium, Ph. D., professor of biology; William Fielding Ogbium, Ph. D., professor of biology; William Fielding Ogbium, Ph. D., professor of history; Norman Frank Coleman, A. M., professor of English.

The course will consist of eight lectures, delivered at the Library as follows:

He believes that the highway College. This course will be held in the Library Hall on Thursday nights and consists of the following 12 lectures:

harge of the course, which will meet dondays from October 11 to March 20. there will be 24 meetings at which sapers will be read and discussions and examinations held.

History Talks to Be Illustrated.

"The Story of Early Man," a course by William Fielding Ogburn, Ph. D., professor of economics and sociology, will consist of five lectures at the Ainsworth School on Tugsday from January 4 to February I. These lectures will be illustrated by lantern sildes, which will portray man as he looked before the dawn of history. The titles of these lectures are:

The Antiquity of Man," January 4: "The Evolution of Early Chiture in Europe," January 11: "The Races of Mankind and Their Distribution." January 18: "How Frintitive Man Lived." January 25: "Customs and Manners," February I.

The course in "Best Books in Special Fields" will be one of particular guidance for librarians, book dealers and readers. Each faculty member will give an outline of what he considers the best books in his line of instruction and a brief outline and comment on the contents of each volume recommended.

Book Meetings on Wednesdays. History Talks to Be Illustrated.

Book Meetings on Wednesdays. The lectures of this course will be held in Library Hall on Wednesday nights from November 3 to March 1, and are as follows:

Por those who cannot avail themelves of the courses of instruction a Reed College the trustees and facility of the institution have arranged public extension courses consisting for 215 free lectures. Five of these ourses will be delivered in the Public obrary. The first will commence next headay night at 8 o'clock, with a neture by Norman Frank Coleman, M. Professor of English, on "The rowth of the English Bible."

Three courses: Natural Science, History—Free Courses will be declivered and the pe-organ lecture-recital course will given at Reed College, and the relating two courses before Portland ubs.

Three Study Courses Offered.

These courses are for people who

Three Study Courses Offered.

These courses are for people who wish more serious opportunities for intellectual and moral instruction than is ordinarily provided by entertainments or lectures. The college and the lecturers receive no remuneration for these lectures.

They are given on the theory that the founders of the institution wished it to be of services to the community in the broadest sense.

Three study courses are offered this year, one in the History of English Literature, at the Reed College, Saturday mornings, at 10 o'clock, one in Natural Science, at Reed College, afternoons at 5 o'clock.

These study courses are primarily the extension course in natural science, which has been meeting at Reed College on Mondays, Tuesdays, Thursdays and Fridays since the beginning of the semester, will continue until May 18.

St. Lectures in Science Course.

The course consists of 85 lectures, illustrated by lantern slides and laboratory demonstrations. The subjects dealt with are: Astronomy, geology, chemistry, physics and biology. This is one of the courses in which those who wish to may take regular class work and receive a certificate of credit.

> portrays the wages of sin

PARK, WEST PARK, NEAR WASHINGTON.

THIS IS THE STORY OF "DAMAGED GOODS"

"Damaged Goods" is a frank and free discussion of the "forbidden subject." It tears the mantle from prudery.

For this reason it has been indorsed by medical societies and scientists all over the world.

It is from the book by Eugene Brieux, "Les Avaries."

It portrays the life of George Dupont, college man, until after his marriage.

He is seduced by a woman in his own set. He regrets.

Then his friends give him a bachelor dinner. He takes his first drink. He is forced, quite against his desires, into circumstances which result in a night of debauchery with a girl of the streets. That the girl had been afflicted with a dread disease as the result of her life of license he did not know; nor what his one night would cost him.

The picture shows his realization that he is diseased. His visit to a specialist, the cure outoutlined. He goes to a quack. The latter's "cure" is outlined. Believing himself cured, Dupont marries, although the doctor has shown him-pictured daringly in the film-in a wonderful manner just what the disease will result in if he marries.

Retribution comes quick and fast. The birth of his baby is shown, the appearance of the disease in his offspring.

Never will such a terrible lesson of the effects of sex license be pictured again.
