# MORGAN IN CHARGE OF LOAN TO ALLIES

Bankers Predict Next Effort to Extend Credit in Six or Nine Months.

NEW YORK, Oct. 2.—J. P. Morgan & Co. have been placed in entire charge, subject to the wishes of the syndicate managers, of the flotation of the \$500.— 000,000 loan in the United States announcement to this effect was made

today.

The Morgan firm was requested to act as agents, it was said, at a meeting hetween the 60 syndicate managers in this city and the members of the Anglo-French commission which was held last night. The syndicate members are in charge of the loan in the entire country, other local syndicates reporting to them.

Work to Be Centralized.

The idea of appointing the Morgan firm as agent, it was said, was to centralize the work. Interest payments on the bonds will be disbursed through on the bonds will be disbursed through the firm. Probably interest will be paid in other cities than New York.

Lord Reading and his assistants on the Anglo-French commission have virtually completed their mission here and expect to depart for Europe within the next few days. They have yet to sign the contract for the loan, and this probably will be done early next week. Lord Reading will sign for Great Britain. He has full authority to do so without a further enabling act of Parliament, it is said. One or both of the French commissioners will sign the document on behalf of France.

With the virtual assurance that every dollar of the big loan will be subscribed. Wall street began to speculate as to the length of time that would clapse before another credit will have to be established. Some authorities placed this at nine months, some at six, in the meantime, it is probable that some other method will be devised to aid in stabilizing exchange. The floation of a considerable sum of short notes has been mentioned.

Loan Not Oversubscribed.

Loan Not Oversubscribed.

Subscriptions to the loan were said today to be exceeding the expectations of the syndicate managers. The exact amount spoken for thus far is known to the syndicate, but was not disclosed today. It was generally believed, however, that the loan had not been oversubscribed and that while the entire amount would be taken within a short time, it had not been all spoken for all yet.

Support of this theory was found in

German-American Protest Entered.

Henry Weismann, president of the German-American Alliance of the State of New York, made public today a letter of protest against the loan addressed to President Wilson. Mr. Weisman said in his letter that his organisation represented 600 societies of Americans of German stock, with more than 60,000 members. In the letter ne recalled the previously expressed feeling of the alliance that the shipment of arms and ammunition was an unneutral act and a factor in prolonging the war, and added:

"But this act of partisanship and inhuranity is accentinated by our furnishing the money with which to pay for these orders, and the attempt to use the National banks is a violation of the spirit if not the purpose of their inception, and we ask the Government to interfere with the proposed offrage."
