

WAR BEGINNING, VILLA'S ANSWER

Rebel Chieftain Says Carranza's Despotism Will Not Prevail in Mexico.

RELIEF IS FELT AT NEWS

"Better Anything Than Suspense," Is View of Bodyguard—Aide Says Army of 40,000 Is Prepared to Enter Sonora.

EL PASO, Tex., Oct. 9.—"The war is just beginning," said General Francisco Villa, with a broad grin, on receiving from his representatives at Washington late today the news of the recognition of the Carranza faction as the de facto government of Mexico.

General Villa, in his private car of a troop train ready to leave for Casas Grandes, had just completed a reception to a party of American women when the news reached him.

A murmur of relief ran through the group of his bodyguard, which crowded the car as the news spread from lip to lip.

"We know now what we have to do," one exclaimed.

"Better anything than the suspense," said another.

"I shall fight Carranza and his despotism as long as his principles are threatening the freedom of the poor people of Mexico," declared Villa.

"Carranza cannot defeat my army," he asserted, "try as he may, and represent himself and his associates as the will of the constitutional cause."

"The nearest you can come to peace in Mexico is my plan. Have half the government officers sent to the capital cities of the states and to Mexico City by the convention representatives, the other half by the constitutional representatives of Carranza element."

"Then select a President who will not be biased in favor of either conventional or constitutional factions, and unresponsive to pressure from any side or person, no matter how influential; the President to be picked by joint conference of the Carranza and Villa leaders or assembled representatives."

Anarchy is Predicted.

"Surprise comes to me that the Pan-American conference should think of recognizing Carranza. He controls only where his troops are stationed," continued Villa.

"If he is recognized the way is open to anarchy in Mexico, for Carranza means favoritism for the military interests. Nothing for the common people. He represents the same faction Diaz and Huerta did."

Villa said his forces were south as far as Escalon and Sierra Mojada; that in the Parral district the troops of Urbina and Chao were loyal.

"But the biggest force behind us is the common people. This force will win against such a reactionary government as Carranza represents," he added.

In the discussion following the retirement of the American women satisfaction rather than resentment was generally expressed by the chiefs of the Northern leader.

General Villa retired to his private compartment on receipt of the news, saying he had nothing to add to his statement of today.

Surprise Campaign Promised.

Colonel Daracio Silva, assistant chief of staff, one of the three members of the original band of eight who entered the revolution with General Villa, said that now he would begin a campaign that would cause constant surprises.

"We will enter Sonora with 40,000 men," he said, "20,000 are now at Casas Grandes. We are well armed and equipped. The army has been reorganized. It is now a clean-cut fighting unit. Every superfluous official of the government has been cut off to fund the army."

"Just what our plans are cannot be revealed. They have been carefully thought out and arrangements have been completed for a campaign which I believe will surprise the world."

CANAL DELAYS SERIOUS

BUSINESS ADAPTED TO NEW ROUTE EXPECTED TO SUFFER.

NEW YORK, Oct. 9.—Dealers in perishable freight consigned from the Pacific by way of the Panama Canal have taken steps to have ships now loading or loaded in Pacific Coast ports and about to sail, unload their cargoes for shipment by rail, because of the closing of the Canal as a result of the earth quake. Such action was taken by the Dried Fruit Association of New York, co-operating with the National Wholesale Grocers' Association and other interested organizations.

The delay due to the closing of the Canal has caused no little concern to Eastern receivers of Pacific Coast freight, and the announcement by certain ship owners that the Straits of Magellan route, involving an extra voyage of 29 days, will be used until the Canal is opened will, they say, cause a great amount of inconvenience and probable loss to those who had adapted their business to the quick route.

The delay especially affects Hawaiian sugar buyers, who sell their sugar on the basis of quotations current on the day of its arrival. It was said that many had covered themselves from possible loss by purchases of Porto Rican sugar.

Latest news of the Canal blockade from Panama and Washington indicates that the Canal will not be reopened until November 1 and possibly later.

HOT DEBATE IS EXPECTED

Lumber Interests and County Officials to Discuss Paving.

One of the most spirited discussions that has ever been carried on before the Members' Council of the Chamber of Commerce is expected tomorrow, when the lumber representatives and the County Commissioners will talk on the reasons why the contracts for the road paving enterprises in the county were not let to the wood block advocates.

J. T. Dougan, representing the lumber interests, precipitated the controversy at the meeting last week by declaring that the county had discriminated against the wood block paving, although it had been shown that it

could be laid more cheaply and would prove as satisfactory as the bitulithic. County Commissioner Holman took exception to the remarks of Mr. Dougan and tomorrow's meeting was arranged.

BLINDNESS CAUSES SUICIDE

Loss of Eyesight Prompts Man to End Life in Hotel.

PHILADELPHIA, Oct. 9.—It was hard to make 4-year-old Gertrude Kauffman believe today that the daddy whom she tried to meet every night would never speak to her again. Fear of blindness caused her father, Elwin J. Kauffman, to kill himself with a revolver several Continental Hotel. His body, fully dressed, was found in a room at the hotel which he had engaged for the purpose of committing suicide.

Before firing the fatal shot Kauffman, who lived at 1335 Addison street, sent the following letter to his brother Harry:

"Look after Mamie and the baby for me. Goodbye to all." The number of the room was also given. On receiving the letter Harry Kauffman hastened to the hotel and took charge of the body.

Some time ago Kauffman lost the sight of one eye and an oculist told him it would only be a matter of time before he would be totally blind. The fear that he would be unable to provide for his wife and daughter preyed on his mind constantly.

MEN'S HAIR GROWS GREEN

Mustaches to Take on Grassy Hue in Munitions Factory Community.

WATERTOWN, N. Y., Sept. 24.—Employees in the plant of the New York Air Brake Company in this city who are engaged in work upon the company's munition contracts with the allies are becoming afflicted with green hair and mustaches.

Acid in which the jackets of the shells are dipped to clean them is attributed as the cause of the phenomenon. The change has been slow in affecting several in the plant. It has proceeded surely and a half dozen or more have brilliantly green hair and mustaches.

The green hue appears to be absolutely fast color, as several have attempted by means of shampoos and scrubbing to remove the color, but without avail.

ITALIAN KNOWS ANSWER

Question on Constitution Elicits Reply Hardly Expected.

"Can anyone tell me the provisions of the Constitution of the United States?" asked Principal Mossesohn, of the naturalization class at the Shattuck School, a few nights ago.

The answer was unbroken silence. "Do any of you know what provisions mean?" was the next question. Up popped a would-be citizen of Italian nationality.

"Yes, teacher, I know," he said. "Provisions is food."

CARRANZA IS RECOGNIZED

(Continued From First Page.)

the exception of those guilty of complicity in the plot to kill Madero and Suarez, or who are charged with civil crimes. A few political leaders who hitherto have opposed the Carranza government will not be permitted to return until the government is firmly established, and then only if they will pledge allegiance to it.

Form of Recognition Undecided.

The form in which recognition is to be extended has not been decided. Secretary Lansing said an Ambassador might be sent to the Carranza capital or an Ambassador named by Carranza received here, or that there might be an exchange of notes.

The recognition of a "de facto" government does not limit the action in any sense, officials explained. The term applies to an authority that arises out of revolution. When a constitutional government is again erected, other credentials will be given to the American diplomatic representatives. In the meantime the full moral support of the United States is to be given the de facto government to hasten restoration of constitutional authority.
