# BULK OF CROPS GONE

Only 25 Per Cent of Apples Unsold.

## WINTER DEMAND IS GOOD

dition, Except Such Points as

Are Swamped With Consignments From Box Districts.

The Eastern apple markets are in a satsfactory condition, in spots, and but for the Eastern Markets in Satisfactory Con-

sfactory condition, in spots, and but for the tion would be a highly favorable one. Not over 25 per cent of the crop remains unsold in the Northwest, the early movement having been unusually rapid, and it is almost certain that this remnant will be marketed with good return. The general average of return on Northwestern apples, however, is going to be brought down by the low prices realized at some of the big cities in the East.

Advices just at hard.

of return on Northwestern apples, however, is going to be brought down by the low prices realized at some of the big cities in the East.

Advices just at hand show that the box apple market in the East, and especially at New York, is in a bad way, owing to the flood of consignments to auction and commission houses. Selling under such conditions naturally put the markets in buyers' tavor, and the consequence was that values were brought down, in some instances 50 to 75 cents a box, as compared with the price basis established in the Coast f. a. b. markets.

In other quarters the aspect of the market is better. Hig blocks are being sold in Texas and there is a steady business in box apples on the Atlantic seaboard from Maine to Virginia, barring the big markets mentioned. The policy of finding and devoloping new outlets is therefore bearing fruit. There is no difficulty in selling at a such points. On the best varieties, such as delicious, Spitzenbergs and that class of apples, prices are now substantially where they were two years ago. Jonathans of apples, prices are now substantially where they were two years ago. Jonathans moved out fast at fair prices. The large selling agencies, in fact, are practically sold

where they were two years ago. Jonathans moved out fast at fair prices. The large seiling agencies, in fact, are practically sold out of everything except winesaps and that type of apple.

Local jobling quotations:

SALMON—Commbia River, 1-pound tails, 100 per description, 125 per case, 100 per description, 125 per case, 250 per

do not articipate any activity until old carry-over stocks have been used up." This is the view that dealers here take and a quiet market is expected for some time yet. When the demand revives it will probably be on account of the business expansion in the East.

Several lots, aggregating 100 bales, including the Acker and Arthur crops, in the Silverton-Mt. Angel section, were bought by the F. S. Johnson Company, also 106 bales from a dealer, the prices paid ranging from 9½ to 10½ cents. California wires reported the saio of 500 bales of Senoma and Mendocinos at 9½ to 11 cents. Bernard Bing, writing from Nuremburg, says of the German bop market: "Hop Provisions.

Senoma and Mendocinos at \$1½ to 11 cents. Bernard Bing, writing from Nuremburg, says of the German hop market: "Hop harvesting is completed throughout Bavaria and Bohemia, but the yards are turning out less than expected. The hops, however, are of very line and sound quality. The demand on the producing points started very active and it is estimated that already three-fourths of the crop is sold off. The transactions of our market are rather settlye, too, and amount to 900 to 1000 bales a day. Choice qualities especially are in good demand and command firm prices. One realizes that our prices are actually on an evenings that our prices are actually on an evenings that our prices are actually on an evening the principle. Sold off.

## Offers at Merchants' Exchange Lowered One to Two Cents,

advance as soon as political state changes."

One to Two Cents,

There was a further scaling down of wheat bids at the Merchant's Exchange yesterday. The slump of 2 cents and mere at thicago and the almost impossible freight situation that exists here were depressing factors. The trade looks for further declines. The only effect of the lowering of the market on farmers, however, has been to prevent them from selling.

At the Merchants' Exchange bid prices were reduced I to 2 cents, as compared with Friday's offers. No sales were poated at the session. Total board sales for the SEED SECLETION URGED

at the session. Total board sales for the week were 40,000 bushels of wheat and soo tions of cats,

KENNEWICK, Wash, Oct. 23.—(Special.) With the early pointo crop having increased this year to the shipment of 39 cars from this point, to say nothing of the late crop of tubers, the matter of procuring good seed potatoes has become a problem in this district. Lee M. Lampson, agriculturist for Henron County, thinks, however, that a little trouble on the part of the farmer at the time of digging will eliminate this trouble.

steady. "A break of 75 cents to \$1 in Eastern markets in the last \$8 hours confirms the information that has been given our readers in the columns of the Livestock Reporter from time to time in the last four weeks. Those that condemn the Portland market (usually misinformed people) have simply not studied the Eastern situation with any degree of diligence. During each year Chicago, prices break from \$1 to \$1.50 at about this time in the year. Portland market very seldom breaks over 10 to 15 cents. "It is impossible to say just what is the Irregular Closing of Wall Street Stock Market.

## TONE AT START STRONG

"It is impossible to say just what is the matter with the sheep shippers. They are so few that they are almost a rarity. Prices here compare very favorably with prices anywhere else—they are higher than they have been for years, yet only a small supply is coming. It certainly would be an opportune time for anyone to test the market out. Lambs will bring \$7.25 for prime quality with other lines in proportion.

"Nearly all the season's lambs have been shipped from country points, feeders taking most of the tail-end lots.

"There is a tremendous shortage of sheep at all American markets and just now seems to be a propitious time for the 'in and outers' to get back into the business again."

Current prices at the local stockyards of the various classes of livestock are as feilows:

Polk Apple Crop Short.

RICKREALL, Cr., Oct 23.—(Special.)—
A remarkalle shortage is noted in the apple crop of Polk County for the season. Since late in September when picking commenced the yield was shown to be on the decrease. The latest varieties are especially short As in past years the largest growers are shipping their crop to the Portland market, where a fair price is obtained. The crop decrease this year is practically the same as that of last season.

but the prices are and show corresponding advances for the week with the rise in Buenos Ayres.

"While it is difficult to determine with any exactitude the changes from week to 162% week in the situation at the mills, it would asked as a set there had been some improvement lately in the demand for cloths, both for men's wear and for dress goods. Woolen mills are still well occupied on old contracts and are reported to be considerably behind in many instances on their delivities.

The press goods plants are still running very well on old and repeat orders and men's wear worsted mills are also finding considerable repeat business on Winter weight goods. In some cases yarn mills are rushing out belated orders on heavy weights.

"The yarn and top plants are going slong very well, apparently, and, while prices are no higher, they are certainly holding steady."

BIG BEND WHEAT CROP IS HELD.

BIG BEND WHEAT CROP IS HELD

Farmers Reported to Be Watting for \$1 at WENATCHEE, Wash, Oct. 22.— (Special.)—Little of the Big Bend wheat crop has been moved. It is estimated that of the 3.000.000 bushels of wheat threshed in Douglas County this war, 43 per cent still remains in the hands of the ranchers. Of the 3.per cent which has been sold, perhaps half of It has moved out of the county. Last year at this time the Great Northern ran special trains over the Mansfield line to carry the wheat. This year it can readily be handled by the regular train service. The majority of the ranchers are waiting for \$1 wheat at shipping points.

Many Matson ranchers averaged between 60 and 80 bushels to the acre of good quality wheat. It is now moving out at the rate of eight or 10 cars daily, somewhat faster than from the Big Bend.

Apple Shipments Heavy. Shipping Point.

Apple Shipments Heavy.

WENATCHEE, Wash., Oct. 22.—(Special—For the first time this season apple shipments totaled more than 100 cars Wedneday. The aggregate movement from point on the North Line and Wenatchee was 16 cars. This does not include stations a Monitor. Cashmere. Dryden, Peshastin Leavenworth and Palisades, which shippe probably 56 cars more.

New York Sugar Market. NEW YORK, Oct. 22.—Sugar, raw steady.
Molasses, 2.62c; centrifugal 4.39c. Refined steady.
The market for futures was quiet with prices lower under scattered liquidation, closing anchanged to 6 points lower. Sales: 600 tons, December 2.12c; March 2.96c; May 2.06c. July 2.13c.
