

BEAUTIFUL CLOSURES JULIUS L. MEIER ANNOUNCES RESULTS OF ALL-SUMMER COMPETITION IN ENTRIES.

HIGH INTEREST IS PRIZED Schools and Firemen Are Especially Commended for Participation.

Julius L. Meier, chairman of the City Beautiful committee, yesterday announced the results of the all-summer contest of the gardens of Portland.

Mr. Meier, in speaking of the contest, said: "I am quite gratified with the interest shown in the City Beautiful contest for the first year, and am quite sure that if it is conducted another year the interest will double, for many persons will enter their plots, which did not take part this year. It is particularly gratifying to notice the interest taken by the schools and firemen."

Special Prizes Offered. "The two districts which made the most of their plots in each district... The list of prize-winners follows: Prizes—Schools and fire companies, first, \$20; second, \$15; third, \$10; fourth, \$5; fifth, \$3; sixth, \$2; seventh, \$1; eighth, 50c; ninth, 25c; tenth, 10c; eleventh, 5c; twelfth, 2c; thirteenth, 1c; fourteenth, 50c; fifteenth, 25c; sixteenth, 10c; seventeenth, 5c; eighteenth, 2c; nineteenth, 1c; twentieth, 50c; twenty-first, 25c; twenty-second, 10c; twenty-third, 5c; twenty-fourth, 2c; twenty-fifth, 1c; twenty-sixth, 50c; twenty-seventh, 25c; twenty-eighth, 10c; twenty-ninth, 5c; thirtieth, 2c; thirty-first, 1c; thirty-second, 50c; thirty-third, 25c; thirty-fourth, 10c; thirty-fifth, 5c; thirty-sixth, 2c; thirty-seventh, 1c; thirty-eighth, 50c; thirty-ninth, 25c; fortieth, 10c; forty-first, 5c; forty-second, 2c; forty-third, 1c; forty-fourth, 50c; forty-fifth, 25c; forty-sixth, 10c; forty-seventh, 5c; forty-eighth, 2c; forty-ninth, 1c; fiftieth, 50c; fifty-first, 25c; fifty-second, 10c; fifty-third, 5c; fifty-fourth, 2c; fifty-fifth, 1c; fifty-sixth, 50c; fifty-seventh, 25c; fifty-eighth, 10c; fifty-ninth, 5c; sixtieth, 2c; sixty-first, 1c; sixty-second, 50c; sixty-third, 25c; sixty-fourth, 10c; sixty-fifth, 5c; sixty-sixth, 2c; sixty-seventh, 1c; sixty-eighth, 50c; sixty-ninth, 25c; seventieth, 10c; seventy-first, 5c; seventy-second, 2c; seventy-third, 1c; seventy-fourth, 50c; seventy-fifth, 25c; seventy-sixth, 10c; seventy-seventh, 5c; seventy-eighth, 2c; seventy-ninth, 1c; eightieth, 50c; eighty-first, 25c; eighty-second, 10c; eighty-third, 5c; eighty-fourth, 2c; eighty-fifth, 1c; eighty-sixth, 50c; eighty-seventh, 25c; eighty-eighth, 10c; eighty-ninth, 5c; ninetieth, 2c; hundredth, 1c.

SECOND 300-EGG HEN DEVELOPED AT OREGON AGRICULTURAL COLLEGE

Granddaughter of Bird Which Astonished World With Lay of 291 Eggs Is Performer—Numerous High Individual and Pen Records Being Established at State Station.

B. 42-834 Eggs in 4 Years. Mother of E. 115

throughout the United States published simultaneously a full-page article about one of these hens. A great many of the leading magazines of this country and other countries, practically all the farm and poultry journals of the United States, devoted much space to the hen. Until a week ago the performance of Lady Macduff, so far as records made in laying contests and at experiment stations were concerned, had not been equaled in the two years.

The day after E. 115 finished her year with 301 eggs a hen at the Delaware experiment station entered in a laying competition conducted under the auspices of the North American, Philadelphia, made a remarkable record of 314 eggs. Lady Macduff therefore relinquishes the seat of honor to the Delaware champion as the greatest layer in one year of laying. Lady Macduff still retains the honor, if not a greater honor than that of the Delaware hen, of not only being the first 300-egg hen, but of being the greatest producer of any known hen, whether considered on a two-year basis or three-year basis. Her remarkable laying proclivities did not leave her in her first year. At the end of her first year she had 512 eggs to her credit. Her 26 months of laying will soon be passed and she now has 673 eggs to her credit for three years. Her year is not up, but she apparently has finished her laying for this season. These are the greatest two and three-year records known in the world.

Eastern Hen Higher. The day after E. 115 finished her year with 301 eggs a hen at the Delaware experiment station entered in a laying competition conducted under the auspices of the North American, Philadelphia, made a remarkable record of 314 eggs. Lady Macduff therefore relinquishes the seat of honor to the Delaware champion as the greatest layer in one year of laying.

The station has many other good layers from this family of heavy layers. The photographs of E. 115 and C. 543 were both taken when the hens finished their year's laying and show their plumage in a little the worse for wear. Both are active, vigorous and healthy. Inherits an erect comb from her dam. Her grand-dam's comb falls over to one side. These hens are of a new strain which has been called "Oregon," developed at the station from crossing Baverly Plymouth Rocks and White Leghorns.

Title First Established. This is the second 300-egg hen that has been produced at the station. The first was Lady Macduff, C. 521, which made a record of 302 eggs two years ago. Lady Macduff has the distinction of being the first 300-egg hen that has not been covered anywhere. It is not presumed to say there were not other hens that have laid as many eggs, but there were no records of individual performance reaching 300 eggs.

These two hens, C. 543 and C. 521, received great publicity and it is no doubt true that no other hens in history have been more talked about than those two throughout the United States and the world.

Dr. Rowland Guest Washington State College is Honoring Reed Professor.

Lectures are in order Recognized Psychologist and Art Critic Will Be at Pullman for Four Days—Receptions and Social Functions Planned.

Dr. Eleanor Rowland, dean of the college of women and professor of psychology at Reed College, is passing four days as a special guest of honor at Washington State College at Pullman.

Dr. Rowland has a Nation-wide reputation in educational circles as an advanced psychologist and an art critic. She has written a great many articles

for scientific magazines and has come before the popular public as the author of "The Significance of Art" and "The Right to Believe."

Dr. Rowland left Portland last Friday night and was received by the Pullman students as their honored guest at the football game yesterday between Pullman and the University of Montana and in the evening attended the reception given in her honor by Dean White.

This morning she will be taken for an automobile drive through Pullman and the surrounding country, and will be the guest of the Psi Beta Phi Sorority at dinner. In the afternoon she will deliver an address before the Twentieth Century Club, an organization of the faculty and most distinguished students, on "The Newer Psychology."

The Sigma Beta Phi Sorority will entertain her at supper, and in the evening she will be given a reception in her honor. Dr. Rowland will hold a conference with various students and organizations tomorrow morning. In the afternoon she will speak before the Women's Club on "Archaeology in the Greek Islands."

Tuesday morning she will address the Pullman students in chapel, at which time she will discuss student character throughout the world. Tuesday morning she will hold conferences with women's clubs and student organizations.

This visit is always the occasion of numerous receptions and other social functions in honor of the guest, as well as intellectual activities in the way of lectures and conferences. Dr. Rowland has a Nation-wide reputation in educational circles as an advanced psychologist and an art critic. She has written a great many articles

PROVE WHAT "AN-URIC" The New Discovery for Kidneys, Rheumatism and Backache Will Do for You. Send 10 cents with name of this paper to Dr. Pierce, Invalids' Hotel and Surgical Institute, Buffalo, N. Y., for a large sample package of "An-Uric." It will convince any one suffering from kidney, bladder, backache, that it is many times more active than lithia, and dissolves uric acid in the system as hot water melts sugar; besides being absolutely harmless, it preserves the kidneys in a healthy state by thoroughly cleansing them. It clears the heart valves and checks the degeneration of blood vessels, and regulates blood pressure. "An-Uric" is an insurance agent against sudden death. Send to Dr. Pierce, Buffalo, N. Y., for free book on Diseases of Kidneys—Adv.

Rheumatism A Home Cure Given by One Who Had It. In the spring of 1913 I was attacked by Muscular and Inflammatory Rheumatism. I suffered as only those who have it know, for over three years. I tried remedy after remedy, and doctor after doctor, but such relief as I received was only temporary. Finally I found a remedy that cured me completely, and it has never returned. I am afflicted and even bedridden with Rheumatism, and it is evened a cure in every case. I am a sufferer from Rheumatism, and I have tried your Rheumatism trouble to try this marvelous healing medicine. I have tried your Rheumatism trouble to try this marvelous healing medicine. I have tried your Rheumatism trouble to try this marvelous healing medicine.

"7" Humphreys' Seventy-seven For Grip, Influenza, COLDS. Exact Dosage. Six pellets every half hour until relieved; then at intervals of an hour until the Cold is broken.

New Home Treatment for Ugly, Hairy Growths. (Boudoir Secrets.) Here is a simple, yet very effective method of removing hair and fuzz from the face, neck and arms. It involves the objectionable hairs with a paste made by mixing some water with a little powdered salicylic acid. Leave this on for two or three minutes, then rub off, wash the skin and the hairs have vanished. No pain or inconvenience attends this treatment, but results will be certain if you are sure to get real salicylic acid.
