

### HEAVY TRAFFIC ON A PORTLAND BRIDGE.

THE main arteries of Portland's business and social activities between the East Side and the West Side are the five big trans-river bridges. Daily, according to the city's latest statistics, 12,276 vehicles pass over the five bridges, carrying their loads of freight, both human and commercial. A total of 5906 automobiles cross the structures in an eight-hour day; 1678 auto trucks, 2417 horse-drawn vehicles and 2275 streetcars. The O-W. R. & N. bridge, on which this picture was taken, is one of the largest of the five. Of the total of 12,276 vehicles carried in eight hours on all bridges this one structure accommodates 2765.
