

COMRADES OF OLD COMPANY G OF O. N. G. WILL HOLD REUNION

OLD comrades of Company G, Oregon National Guard, one of the best-known military organizations of the city, will fraternize in the 32d annual reunion on November 15. The members of the company will gather at the rathskeller of the German House and the old days will be revived and half-forgotten tales recalled at the informal bohemian dinner that will be served.

Probably 70 veterans of the popular company will be gathered at the reunion. The spirit of the old days and of comradeship drawn tighter by the passing years will rule. Robert E. Davis, who succeeded Louis Clinton Farrar as captain of old Company G in 1892, will act as toastmaster. There will be no set speeches but probably all present will take some part in the evening's entertainment.

Company G was organized and entered the service of the Oregon State Militia on November 15, 1883. It maintained a distinct individuality, doing its part in preserving the good order of the state and even in those days taking a stand for National preparedness. Its members were well drilled, and the company is recalled as having been a model volunteer military organization.

In its mission, Company G stepped to the front when the Spanish War broke out. In 1898 the organization, a capable fighting unit, was merged into the Second Oregon Regiment and shared in the brilliant work of that organization in the Philippines.

The original members of Company G are scattered to many parts of the world. Many have died, but there are still a large number in and about Portland who cherish memories of the old days and who count the annual reunion as one of the brightest days on the calendar.

Members of the company were not, presumably, made into brutal persons by their early military training. They stand high in the professional and business ranks of the state.

Some have kept track of their former comrades and are able to recall the activities of each member of the company. The roster of the company is given here and what the members later undertook in a business way is recalled by one who was prominent in Company G.
