OREGON CORN LAUDED

CORVALLIS MAN CALLS SALEM EXHIBIT EXCEPTIONAL

Willamette Valley Product Compared Well With Eastern Crop, says Man Who Judged Show.

Corn of exceptional quality can be grown in the Willamette Valley. This was shown conclusively at the exhibition of G. R. Hyslop, assistant professor of crops at Oregon Agricultural College, who judged the corn exhibit at the state show held at Salem during the past week as the result of the efforts of Luther J. Chapin, County Agriculturist of Marion County.

Mr. Hyslop said that he had judged many corn shows in Ohio, where he was reared, and that he could think of only one exhibit of a similar character to the one at Salem which surpassed it in the quality of the corn shown.

The showing was particularly good," said Mr. Hyslop, "considering the fact that the Willamette Valley people have not been selecting and raising corn for years like the people of the East and Middle West. The ears shown at the Salem exhibit were of large quality and well-filled with solid grains. One ear scored a total of 95.5 points, which is exceptionally high.

There was a large quantity of corn shown, the arrangement of the exhibit was fine, and the exhibition room was nicely decorated.

The exhibit was shown in a hall in the Rogers Paper Company building. There were 52 100-ear exhibits of yellow corn, 7 100-ear exhibits of white corn, 15 10-ear exhibits of yellow corn, 52 10-ear exhibits of white corn, 35 single-ear exhibits of field corn, 35 pop corn entries, besides numerous entries of corn and potatoes.

Since he has held the position of Agriculturist of Marion County, Luther J. Chapin has been working particularly toward the development of an improved strain of corn which may be profitably raised in the Willamette Valley. He believes that there is no reason why this section of the state should not become as great a corn-growing country as those of the East and Middle West.

MARKET INSPECTION DUE

Seaside Club Women Make Inquiry Into Butter Making.

SEASIDE, Or., Dec. 4.—(Special.)—The domestic science department of the woman's club, believed in "Made in Oregon" and also "Made in Seaside."

Hearing many complaints against the quality of a producing creamery, a committee was appointed to investigate. The manager of the creamery was enthusiastic over the interest taken by the club and immediately put into operation a long, intensive, bacteriological program to improve the quality of the butter. More than 600 pounds of butter is produced each week during the winter, more than half of this being shipped out of town.

The club women promised that when the butter was brought up to the standards that all of it would be consumed at home. Every place, where food is handled for public use, was visited and the sanitary conditions found excellent. Market inspection now will be a regular part of the domestic science department.

FALLS CITY VOTE AT HAND

Eight Aspire to Election to Three Council Posts Tomorrow.

DALLAS, Or., Dec. 4.—(Special.)—As the date of the city election approaches in Falls City candidates for the three vacant chairs on the Council are springing up from all sides. Election will be held in that city under the amended charter adopted at the general election held there in April of this year.

HOQUIAM MILL GETS SHARE

Order of 200,000 Ties of Million Won From Union Pacific.

HOQUIAM, Wash., Dec. 4.—(Special.)—Nearly one-third of the order of 1,000,000 ties recently placed by the Union Pacific system is being furnished by one mill at Hoquiam, the Geary Harber Lumber Company. This concern is furnishing 200,000 pieces of the ties.

The Hoquiam plant already has shipped more than 100,000 ties to the Union Pacific system. Another 100,000 ties are in the yards of the mill here ready to be shipped as fast as they can be inspected by the railway inspectors, and the mill will complete the cutting of the order in about three weeks.

An average of about seven cars of ties is being shipped out each day by the mill to the railway. This is as fast as they can be inspected.

COW WORTH \$19 MONTHLY

Seven Animals in Satsop County Herd Average 25 Pounds of Fat.

HOQUIAM, Wash., Dec. 4.—(Special.)—What is believed to be one of the best butterfat producing grade cows in the state has been discovered in the Satsop Valley in the Nez Perce country, dairy herd by the tester for the County Dairy Testing Association. Careful tests show this cow to be producing more than 119 worth of butterfat at a price of 24 cents a pound each month.

The tester has found seven cows in the herd which produce an average of 25 pounds of butterfat a month.

HOQUIAM HAS NO POVERTY

Salvation Army Head Says Assistance Not Sought.

HOQUIAM, Wash., Dec. 4.—(Special.)—This city bears the distinction, according to the local head of the Salvation Army, of being the only city in the Northwest where there is no poverty and no needy people. He bases his opinion on the fact that he has no calls for assistance.

Anticipating that the winter would be a hard one, the army collected a considerable quantity of clothing, but has found no use for it.

CAMPAIGN MEETING WAITS

Polk Republican Central Committee Gathering Is Postponed.

DALLAS, Or., Dec. 4.—(Special.)—H. H. Hampton, of Monmouth, chair-

man of the Polk County Republican Central Committee, was in Dallas this week to arrange a date to hold the first meeting of the committee. Owing to the fact that several events of importance are scheduled for Polk County for December 13, the date tentatively set some time ago, Dr. Hampton decided to postpone the meeting until after the first of the year, when a full quota of members will attend.

weed out the boarders, and the feeding of hogs, was assured of a large and attentive audience at every one of his lectures.

One of the enjoyable features of the school was the hearty sociability on the part of all in attendance. This feature was greatly accentuated by the fact that on Tuesday the farmers served a luncheon at 12 noon, and on Thursday and Friday the Pacific Coast Condensed Milk Company and the bakers of Chehalis took turns in serving a luncheon at 12 noon.

It is believed that when the budget is made up for the year 1917, the farmers of Lewis County will be assured the service of some good man.

Wenatchee District Growers Plan to Increase Acreage. WENATCHEE, Wash., Dec. 4.—(Special.)—The growing of English walnuts in North Central Washington may become within the next ten years an industry second only in importance to apples. It is believed that the climatic conditions and the soil are favorable to the growing of the hard-shelled northern variety. In the Wenatchee north country there are now 1900 trees planted, part of which are in bearing.

D. A. Henderson and W. F. Shepherd, of Chehalis, have the largest bearing grove. They are growing them on a commercial basis, having 30 acres of trees, varying from 2 to 14 years old. H. S. Simmons, George Farwell, William Turner, and A. D. Browning are Wenatchee ranchers having trees. Next year it is expected that 500 acres will be set out in Okanogan and Chelan counties.

Water Bids Coming In. MILWAUKIE to Have Entire New Distribution System. MILWAUKIE, Or., Dec. 4.—(Special.)—Milwaukie is now receiving bids for the construction of the distribution system of the municipal water plant, according to the plans and specifications which have been completed by City Engineer J. W. Morris, which are in his office in the Morgan building in Portland. Bids will close December 11.

tem of the municipal water plant, according to the plans and specifications which have been completed by City Engineer J. W. Morris, which are in his office in the Morgan building in Portland. Bids will close December 11. The plans include water mains ranging from four to eight inches in size, and cover the entire town system. They include the erection of a stand-pipe in Milwaukie, the eastern and highest portion of the town. The engineer estimates are \$24,000 for the system, but it is thought that the bids will range much lower than those figures.
