

THRIFT CAMPAIGN IS PLANNED FOR STATE

Educators Propose to Arouse Interest of Students in Essay-Writing Contest.

PRIZES ARE ATTRACTIVE

Dean Bessell, of Agricultural College, is one of leaders in movement to teach people to save. Adults are to compete.

J. A. Bessell, dean of the school of commerce of the Oregon Agricultural College, Corvallis, and Arthur Henry Chamberlain, secretary of the California Teachers' Association and the California Council of Education, San Francisco, were in Portland yesterday conferring with reference to their work on the thrift committee appointed at the last meeting of the National Educational Association, held at Oakland last summer.

The plan of the association, according to Mr. Chamberlain, is to inaugurate a thrift in the American people. "However," he said, "I do not mean thrift in the narrow sense of penuriousness, but thrift as it has to do with the conservation of the body, of health, of mind.

"In fact, we plan to take up thrift as it has to do with the various phases of man's activities. To carry forward the campaign with any degree of success, we must take up the work among the children especially, which means we must take it up in the schools."

Work of Committee Divided.

The members of the committee appointed at Oakland are each to take up different phases of the subject, and will report at a gathering at Detroit February 25. The work is in conjunction with the National Superintendents' convention at that time. The national movement for the development of thrift was started by the American Society for Thrift, of which H. W. Struss, banker, of Chicago, is the president and financial backer. This organization was started about four years ago. It was through the influence of the Society of Thrift that the National Educational Association got behind the movement.

Attractive Prizes Are Offered.

The adult contest is open to all, and a first prize of \$750, second of \$250 and a third of \$100 is offered. In the school children's contest \$250 is offered in prizes.

Mr. Chamberlain said yesterday that the movement for giving school credits for work done at home, started by Superintendent Alderman and now becoming nation-wide, has its place in the thrift movement and will be one of the subjects discussed at the gathering at Detroit.

The use of money in the movement, said Mr. Bessell, "is to have nothing to sell and solicit no subscriptions."

H. W. Struss, head of the American Society for Thrift, will read the principal paper at the meeting at Detroit. Mr. Struss is a brother of Nathan Struss, who went down on the Lusitania.

Other Phases Are Considered.

The other members of the thrift committee will deal with different phases of the work as follows: R. H. Wilson, superintendent of public institutions in Oklahoma, "The Thrift Movement and Its Relation to Rural Life"; Dean Chamberlain, Oregon Agricultural College, "Its Relation to Banking, Accounting, School Savings Banks and Similar Institutions"; John D. Shepp, assistant superintendent of Chicago schools, "Relation to Health and Hygiene"; Kate D. Blake, principal of the public schools of New York City, "Thrift, Its Relation to the Home"; C. H. Dempsey, superintendent of schools, Haverhill, Mass., "Relation to the Industries"; H. E. Daniel, Chicago, secretary of the American Society for Thrift, "Its Relation to Men's Organizations, Such as Commercial Clubs and Labor Unions"; Arthur Henry Chamberlain, San Francisco, "Relation to Educational Movements"; M. H. Stuart, principal of the manual training high school, Indianapolis, "Its Relation to Conservation, Natural Resources, Time and the Individual"; and Mr. Chamberlain spoke briefly of the Portland and Oregon school system and also of the Oregon Agricultural College and Oregon University, both of which schools he visited. He left yesterday for San Francisco, and Mr. Bessell returned to Corvallis last night. Mr. Chamberlain is also editor of the Sierra Educational News.

JANITORS FILE PROTEST

OPPOSITION TO PRESENT SYSTEM OF SUPERVISION REPORTED.

Appointment of J. L. Shaw to Oversee Work is Declared to Be One Objection.

Protesting, it is understood, against being under the authority of School Chief H. Thomas and being compelled to undergo the inspection of J. L. Shaw, janitors of the Portland public schools have filed a complaint with Mr. Munly, chairman of the Board of Directors. Mr. Munly refused to discuss the protest except in general terms last night. School Clerk Thomas said he had not seen the complaint and knew nothing about it.

Mr. Munly admitted that the janitors had filed a grievance with him, but said he could not give out the contents until the matter came up before the board in the regular manner.

"The board will act on the complaint at its regular meeting next Thursday," he said.

Until the last few years the janitors were under the authority of the principals of the schools and the principals were responsible to the superintendent for the work of the janitors and the superintendent responsible to the board.

It is understood that the janitors desire to return to the old system.

Under the present system the janitors are responsible to the school clerk and the superintendent of properties. Recently J. L. Shaw was appointed to oversee them.

It is understood that the janitors point out that Mr. Shaw was a "spotter" for the Portland Railway, Light & Power Company previously, and he is using similar methods now.

SWEETHEART ENTERS PLOT

Bomb Believed Placed Under House by Jilted Suitor.

Was the explosion of a bomb beneath the home of Frank Amato, 246 Division street, Thursday night the work of a jilted sweetheart of 11-year-old Mary Amato? This is the theory upon which the police are working and is expected to result in the arrest of the young man, as Detective La Salle and Legard are confident of his identity.

The damage done by the bomb was small, and the noise was attributed to the house to the back-firing of an automobile.

Monday night, December 13, the election of officers of Peninsula Council, Royal Arcanum, of St. Johns, will take place in Blackner's Hall, on Burlington and Jersey streets. At their next meeting, December 27, they expect to initiate 18 candidates, and they are trying to make it a dozen.

UNIVERSITY IS TOPIC

Capen Survey Discussed at Civic League Luncheon.

HIGH RANK GIVEN OREGON

President Campbell Looks Forward to Development of Higher Education and Bishop Summer Asks Aid for Students' Loan Fund.

Oregon has the highest percentage of persons in any state of the Union enjoying the privileges of higher educational institutions, and the higher education in Oregon is at the lowest per capita cost in the United States. This point was emphasized strongly by P. L. Campbell, president of the University of Oregon, at the luncheon of the Civic League at the Multnomah Hotel yesterday, which was devoted to a presentation and discussion of the recent report of Dr. Capen, expert in higher education from the Federal Bureau of Education.

Dr. Capen's survey of the state university, completed recently, gave Oregon the distinction of having one of the most promising state universities in the country.

Dr. Capen pointed out that the institution is in the period of emergence from a college to a fully developed university, and President Campbell in his address held out the idea of steady growth of the institution toward the ideal of a graduate institution, comprising the work of high schools and colleges.

He predicted that in time the freshman and sophomore work now done in the university will be taken over by six-year high schools and in preparatory colleges, leaving the university to handle the junior and senior work and the courses leading to post-graduate degrees.

W. K. Newell spoke in behalf of the regents of the university and Dr. George Heber in behalf of the members of the faculty, while the relation of the alumni to the university was discussed by Mrs. Alice Benson Beach.

Bishop Summer, called upon to speak, urged that every effort be made to help the student loan fund.

"There is in the University of Oregon," he said, "a fine spirit of self-sacrifice and earnest effort among the students to equip themselves with a higher education, than I have found in any other institution in the West. The people of Oregon should do everything in their power to help the young men and women who are displaying this spirit, for it means not only the benefit to the student, but an immeasurable return to the state in a higher and better and more enlightened citizenship."

Mr. Miller, of the board of regents, presided.

WIRELESS PHONE USED

PORTLAND-SEATTLE TALK IN FORE-RUNNER OF NEW YORK SERVICE.

Uninterrupted Conversation is Made Possible by Use of New High-Power Receiver.

A wireless telephone conversation was held yesterday between Portland and Seattle by W. P. Marshall, from the Federal Telegraph Company's wireless station in Portland and the Universal High-Power Telephone Company's radio station at Seattle. A phonograph record played at Seattle was distinctly heard at the Portland station also.

The test is a forerunner of direct wireless telephone communication between New York and Portland.

The test was made using a recently perfected high-power telephone transmitter which eliminates hindrances caused by the complicated equipment of the average radio station. It is probable, according to experts, that the new invention will be perfected to a stage where it can be used on all wireless plants. Heretofore the plant at Arlington equipped with a wireless telephone attachment has been unable to talk to many other plants because of the complicated apparatus. Paul J. Hadst, an engineer of Seattle, has devised the new transmitter.

"There is no limit," said C. O. White, of the Seattle wireless company, who is now in Portland, "to which wireless telephony can now be carried. With this new transmitter a wireless telephone service between Portland and New York, San Francisco, Honolulu, and, in fact, any place on the globe, can be maintained much more economically than that of the ordinary type."

"Within a month Portland will be able to talk from the local station with San Francisco and Los Angeles direct by wireless telephony."

Mr. White leaves tomorrow for San Francisco, where he will carry on a series of tests to determine the proper wave lengths which will be established by the new wireless system along the Pacific Coast.

J. W. Sadler, Who Didn't Know He Had Run, Elected in Aurora.

Appendicitis Victim Recovers in Sellwood Hospital Here and Hears of His Victory.

J. W. Sadler, one of the leading merchants of Aurora, Or., went to bed ill with appendicitis early in the week. Yesterday morning Mr. Sadler, much improved, woke up in the Sellwood Hospital in Portland to find himself Mayor of the City of Aurora, which is in Marion County.

He knew nothing of his nomination, nothing of his campaign and nothing of his election until the news was carried to him at the hospital after it had been found he was elected. It was a complete surprise.

Friends of Mr. Sadler at Aurora were about to press him in the campaign when he took sick. He was too ill to be told then. But the friends went ahead, nominated and elected him and said nothing. He did not realize it had Sellwood Hospital for a few days, but his recovery is practically assured.

HIGHWAY TO GET ROSES

PERSONNEL OF COLUMBIA ROUTE COMMITTEE ANNOUNCED.

Work Will Be Started in Few Days So That Plants May Be in Bloom by Next June.

Work of planting roses along the roads leading to the Columbia River Highway will be started within a few days now, according to E. J. Jaeger, vice-president of the Rose Festival Association, who announced last night the personnel of the committee which is to take charge of the planting.

Samuel C. Lancaster will head the committee as chairman, and the other members are Father Schoener, H. J. Blaessing, E. B. McFarland, Emory Olmstead, Frederick Holman and J. A. Curry.

Following his appointment yesterday, Mr. Lancaster said that he planned to get the committee together immediately and begin operations. The matter will be taken up with the people along the highways to ask them to plant the roses after the plans outlined by the committee. The florists and rose growers will also be asked to co-operate.

"We hope to get the flowers planted by January 15 said Mr. Jaeger last night so that they will be ready to bloom by June. We plan to only plant roses up to where the scenic part of the highway begins. After that we want to leave it in as near the natural wild state as possible. The roses will be planted along outside the fences so as to give the greatest possible effect."

WATER SYSTEM CRITICISED

Ex-Councilman Wallace Declares Mr. Daly's Method Unfair.

A new angle in the system of Commissioner Daly of collecting water rental from the landlord if the tenant fails to pay has been brought to light by ex-Councilman H. W. Wallace. He reports that last Spring he tore down a building he owned at Davis street and Broadway and erected a new building. New tenants have moved in and have been presented with the water bill of the tenants who occupied the old building.

Mr. Wallace says that if the city collected water rental in advance as was customary the bill would be paid, as it is now he will have to foot the bill for the tenants have gone.

Men of Business That Make the World Go.

"Pe-ru-na Cured me in Six Weeks." 5,000,000 People in This Country Have Catarrh.

I thank You for the health which I now enjoy. Peruna the best remedy for catarrh.

Mr. Tom F. Dady, No. 2 Manhattan St., Rochester, N. Y., writes: "I was troubled with catarrh of the head for many years before I paid much attention to it, but a few months ago I was so annoyed by headaches and difficulty in breathing through my nose, and my eyes smarted and looked so inflamed that I felt I must do something to relieve this state of affairs."

"I noticed one of your ads. in the paper, and then and there decided to try Peruna. I am pleased to say that it came up to all my expectations, for it did what it had driven the catarrh out of my system and I have not been troubled since."

Mrs. A. J. Tieman, 1122 Wyoming St., San Antonio, Texas, writes: "I suffered over nine years with catarrh of the head, nose and ears. Five bottles of Peruna have restored me my health."

"I could scarcely hear in one ear, but that is cured. It has helped my family, and I know of other people in the neighborhood that it has helped."

San Francisco, January 6, 1914.
Mr. A. de la Torre, Jr., formerly U. S. Inspector of Immigration, Port of San Francisco, writes from No. 1111 Powell St., San Francisco, Cal.: "I take great pleasure in recommending your great National catarrh cure, Peruna as the best I ever used. I sincerely express my thanks to you for the health which I now enjoy. It has done me and a number of my friends good, and I can assure you that I shall take every opportunity to speak in favor of what I consider to be the best remedy for catarrh in existence today."

Those who have no time for sickness should use Peruna as a preventive.

COUGHS AND COLDS

Mr. John Paulin, Sr., care William Wegner, Grafton, Wis., writes: "I have used Peruna with good results for coughs and colds. It has also cured my catarrh, which always became worse when affected with a slight cold."

Those who object to liquid medicines can now procure Peruna Tablets.
