

POSTOFFICE ROSES \$21,000,000 BY WAR

Deficit Reduced by Economy to \$11,000,000, Report of Mr. Burleson Says

PARCEL POST EXPANDS

Previous Suggestions to Congress for Government Ownership of Wire Lines Renewed—Postal Savings Banks Prosper.

WASHINGTON, Dec. 11.—Postmaster-General Burleson's annual report, made public today, says the postal service has cost the American postal service \$11,000,000, but that economies of administration have reduced the audited deficit to a little more than \$11,000,000 for the fiscal year which ended last June.

Had it not been for economical reorganization begun before the war started, and continued since, the Postmaster-General says the audited deficit would have been at least \$12,000,000. Of the total deficit, however, his analysis of the Department's finances declares that all but a little more than \$2,000,000 was the result of increases of postal salaries and additional railway mail pay required by law.

Weight Basis Is Advocated. Chief among recommendations to Congress are a renewal of previous proposals for a change from the weight to the space basis of fixing pay to the railroads for carrying mail; a renewal of recommendations for Government ownership of telegraph and telephone lines; removal of the four-pound limit on first-class mail, and the adoption of more liberal limitations on the weight and insurance of parcel post packages.

The greatest expansion in the postoffice, the report shows, was in the parcel post, which has increased from 15 principal postoffices show it to be half of all the parcel business, and that more than 100,000 parcels are being transported every day. Before the parcel post was established not more than one-fourth that number were sent.

Savings Depositors Increase. While the war has crippled the money market, the number of depositors has increased. The number of depositors in the postal savings banks exceeded any year since the banks were established. More than 1,000,000 deposits were on the books at the end of June, 1914, a gain of 25 per cent for the year, and they had on deposit nearly \$100,000,000, a gain of more than 50 per cent.

Increases in deposits in some cities were remarkable. They increased in New York 150 per cent; Bridgeport, Conn., 132 per cent; Brooklyn, 147 per cent; Patterson, 142 per cent; Jersey City, 122 per cent; Detroit, 112 per cent. Other cities showed gains ranging from 50 to 100 per cent. Of all the depositors more than 50 per cent were first-time depositors, and that 10 per cent of the total deposits. The figures are represented as showing plainly the attraction of the postal banks to the country.

Fraud Cases Are Few. The activities of the Postoffice Department in suppressing fraudulent use of the mails are unabated. The report says the Department is working in close cooperation with those interested in purifying the advertising columns and that during the year 37 concerns or persons were barred from the mails and 1900 lotteries were barred out.

The subject of railway mail pay, which is one of the most controversial between the Postoffice Department and the railroads, the Postmaster-General's report treats at length. It describes the situation as one which is pressing for immediate adjustment, but expresses regret that the railway mail reorganization bill was killed in the last Congress.

Saturday's War Moves

The entente allies, notwithstanding the Teutonic sweep through Serbia and their recent retreat to a line near the Greek border, are not going to abandon their campaign in the Balkans. This decision, Paris dispatches say, was reached at the war conference that has been in progress in Paris for the past day or two, between Premier Briand and General Gallieni, the French War Minister, and Sir Edward Grey and Earl Kitchener, the British Foreign and War Secretaries, respectively.

SUFFRAGISTS ON CAPITOL STEPS AT WASHINGTON. President Wilson looked on the petition of 4,000-000 women voters today and decided that suffrage was a matter "worthy of his most serious consideration." Suffragists hailed this statement as one more step forward in the conversion of Woodrow Wilson to their cause because always before this he has told them he would do nothing about it, since it was a matter for the states. The picture shows the suffragists gathered on the east steps of the Capitol from where they brand their way to the White House to present their monster petition, which had been brought across the continent by automobile, more duly to impress the President of the need of action.
