EAN FRANCISCO, Jan E.—(Special.)

Australia is to be scratched off the map, at least until after the war, so far as a passible stopping place for fighters is concerned. This is the report brought back to has Francisco by Jack Kasras, who reached here the first of the week on the steams momen, cans Les Darcy, the hydray boy, who is generally accredited with being the middleweight champion.

Darry was prevented from coming to this country because of the enforcement of the military law of the country and Kasras says the fistic game ganarally has gone to the demnition however. Of course we have heard all this talk before, but usually by fighters who are "sore" for one reason or another. Kesaras, however, got along sitely with the powers that be in hydray and as he has no axes to grind in making such a statement, it rather counts for more.

Durcy Only Muney Getter "As long as the war continues," said Kearns, "the fighting game in Aus-tralia cannot be expected in above much in the way of returns. With the ex-teption of Les Darry, who is the one big card, the fighters are hardly makemption of Les Darry, who is the one hig eard, the fighters are hardly making their sail. Darry does draw hig memory when he appears as one of the prinicipals; but that lets the apert out. The boys that I had with me hardly naid their way and the future certainly adding to be a decimal took bright. Clabby remained ever because he was under contract for three more fighte and Eddie McGourty seemed comfident that he wested best Darry, who managed to step the Wisconsin boy in eight rounds. "I for East Watson remain her and Eddie Wisconsin boy in eight rounds." I for Red Watson remain because these was a chahor for one more serap. But I expect they will all of them be at home shortly, as they can so far her here than serous the water." The Darry situation, according to Kances, was rather a poculiar one, Jack had signed a contract to manage the Amstralian for a term of three pours and they had engaged passage on the Bonoma, intending to sail before.

"With regard to the disappointment which Jack Kearns suffered Chrough had getting Durcy for an American tion, is might have been understood by that prespective manager that no Australian biners are likely to go out of their country unless they are de-parting for the war in Europe. Jack has been a fine fellow during his se-journ in Australia and has made a let of friends for himself. However, he has been most useful to his boys in getting good matches for them and good publicity. "Miny mesole fuel for his own sake."

good publicity.

Minz people fust for his own sake will feel that he had had luck in missing the big remosp-making proposition he took on when he contracted with the Australian champion. Yet had Jack the Australian champion. Net had Jack had a word with Jacony Plaker, instead of holding aloof from the primater while the negressions were going on he would have learned that before these magnitations commenced it had been decided that Parry would not heave this country. There is now in Australia a military is w ferbidding the departure of Australian men of military age except under special passports and a great recruiting movement is now in progress.

Durcy Being Watched.

Rearry may first confident within himself that Darry will steat away in the night and reach American shores, but the government officials are aging have an eye on the house from start to finish and possibly he is not as analytic to leave as his craimhile American manager would have us believe.
