SIXTH AND WASHINGTON STS. THE PLACE FOR LADIES. Anything You Can Wish For at All Times

GLASS OF WATER BEFORE YOU EAT ANY BREAKFAST

Wash poison from system each morning and feel fresh as a daisy.

Every day you clean the house you live in to get rid of the dust and dirt which collected through the previous day. Your body, the house your soul lives in, also becomes filled up each 24 hours with all manner of filth and poison. If only every man and woman could realize the wonders of drinking phosphated hot water, what a gratifying change would take place.

Instead of the thousands of sickly, anemic-looking men, women and girls who are the result of "nervous weakness," "run-downs," "brain fags" and pessimists we should see a virile, optimistic throng of rosy-cheeked people everywhere.

Everyone, whether sick or well, should drink each morning before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate at the drug store, which will cost but a trifle but is sufficient to demonstrate the quick and remarkable change in both health and appearance awaiting those who practice internal sanitation. We must remember that the skin is more important than outside, because the skin does not absorb impurities to contaminate the blood, while the pores in the 46 feet of bowels do.—Adv.
