The first period ended 17 to 9 in favor of the Portlanders, mainly because the visitors were trying to obtain their location. The crowd was much lagged, but when both contingents were going at top speed it was as pretty a game as the more than 500 spectators would witness.

PROFESSOR RAPS SPORT

BERKELEY EDUCATOR ARGUES FOR CAMPUS GAMES ONLY.

Students Aroused by Indictment of Intercollegiate Athletics, Which Graduate Describes as Super-Efficient.

BERKELEY, Cal., Feb. 19.—(Special.)—An attack on intercollegiate sports by Carleton H. Parker, professor of political economy and graduate of the University of California, today raised a storm of discussion on the campus.

Professor Parker declared that the intercollegiate games of today are perversions and argued for universal campus recreation.

"Not only is the student in reality barred from physical participation," said Professor Parker, "except on the bleachers, but the athletics itself, through professional training and gigantic expenditures, is raised to a super-efficiency that the student sits in foreign to his ability and sports sense as is flying of birds. It is not that the games are not as thrilling as the Giants vs. Athletics, that the feeling is not as tense as the night Volga and Ritchie fought. It is all of that, and that is the perversion of it. We have taken a vital thing—the educational participation of students in competitive sports and have turned it out-prise-fought a prizefight with it."

Coach Vaughn returned his contract from Tacoma, where his folks reside. He said in an accompanying letter that he would wait until he received notification of his transfer from St. Louis before signing anyone else's contract.

ATHLETICS IS RETAINED

WILLAMETTE REFUSES TO ABOLISH OUTSIDE GAMES.

Salem University Expects to Win Students Because State Schools Have Barred Freshmen.

WILLAMETTE UNIVERSITY, Salem, Or., Feb. 19.—(Special.)—Regardless of what the other non-conference colleges of the state do, Willamette University will compete in intercollegiate athletics next year, as it has in the past. At a meeting some time ago of the independent colleges at McMinnville it was decided that each college do away with intercollegiate athletics. The trustees of Willamette met last Tuesday and decided to continue the competing of college against college in friendly athletic contests.

The freshman ruling recently adopted by the state schools, it is thought, may pull a number of students to the university, as it is figured that first-year men may come here that they may be allowed to compete in athletic contests in their freshman year.

It is predicted that Willamette will be represented on the gridiron next fall with the best team in its history. The basketball, track and baseball teams will also have a good working nucleus.
