CHILDREN'S PARADE HEARING IS ASKED

East Side Business Men to Take Up Change of Route for Festival Event.

REASONS FOR MOVE GIVEN

Better Facilities for Spectators in Downtown Buildings and Increased Publicity Value of Photographs Cited.

With the announcement that the children's parade will be held on the West instead of the East side of the river this year, representatives of the East Side Business Men's Club have written the Rose Festival Association asking for a hearing on the subject. Before it was decided to make change in the route of the opening-

change in the route of the openingday pageant of the "Human Roses,"
festival directors took many things
into consideration, and it was decided
that inasmuch as the festival was held
for the benefit of all Portland the
features should be staged, without
cost, such as admission charges, where
the greatest number of people could
witness the events.

Since the opening day of the festival,
June 7, is not a public holiday, employes of wholesale and retail establishments, clerks in the big department stores, and those employed in the
downtown office buildings had been
denied an opportunity to witness the
hageant. Festival directors say by
holding the parade on the West Side,
thousands of people will have an opportunity to view the procession, many
who have never before seen this feature of the June celebration.

city on trains arriving the morning of opening day, from 7 to 10 A. M. Investigations made recently by festival directors brought forth the information that these visitors go to their hotels, and by the time they learn of the location of the pageant it is over with.

Pictures Are Factor.

One of the principal reasons for the annual Rose Festival is the valuable publicity it brings to Portland as the "Rose City" of the world. Photographs of the children's parade are in great demand, and festival governors have made a collection of these photographs to show just how Portland is advertised as a result of the distribution of these pictures. In nearly every instance the buildings shown in the background are one or two-story structures, and people reading Eastern magazines and newspapers will judge Portland as a city from the nature of the surroundings of the parade, say festival directors. Pictures Are Factor.

With the parade staged this year in With the parade staged this year in the business district, it is the idea that the high buildings with their thousands of offces, the rooms in a dozen hig hotels and many other buildings such as the department stores will afford thousands an opportunity to view the parade. Photographs of this feature will also carry street scenes in the business section showing the modern buildings, fine hotels, and exploit Portland as the "City Beautiful."

School Heads Concur. School authorities have advised the board of governors that the parade can be handled to fine advantage on the West Side, and the transportation of the children to and from the starting point of the parade can be taken care of on the West Side as promptly as

With the National dedication of the the United States, festival directors have decided to stage the features of the fiesta where the greatest number can witness the events in comfort, and

for that reason the children's parade has been moved to the West Side.

The question of moving the parade to the West Side has been considered for the last three years, and by inquiries of people living on both sides of the governors of the 1916 fiesta foun se tentative programme announced ast Tuesday evening at the weekly setting of the festival board.

It will be a long campaign because t has already commenced and will continue indefinitely, at least until Portland is as near a flyless city as it

It will be a strong pull because the plans for its promotion have been well worked out, and method and system will be employed in its conduct as well as enthusiasm. It will be pull altogether for the rea-

The campaign will have three branches at work—education prevention and destruction. The first will be promoted by the circulation of literature which will teach the habits and dangers of the fly, and give instruction as to the best methods of climination.

Double Result Desired. The preventive work will serve a double purpose—that of removing the breeding places of the fly, and cleaning

Traps Are Recommended.

To rid the house of flies there are several time-honored methods, such as sticky fly-paper, and poisons of various kinds—all good and moderately effective in their way, but the exhibit last Summer was convincing proof that traps were by far the most effective and satisfactory. More files were caught than could have been got in any other way, and they do away with the disgusting spectacle of sticky fly-paper, lying around, often to trap the paper lying around, often to trap the unwary visitor as well as the fly. No less disgusting is the moist fly-paper which adds the danger of poison flies

CITIZENS OF PORTLAND, MEN AND WOMEN:

This is a personal appeal to you.

The Young Men's Christian Association is engaged in a friendly contest with our neighboring city, Seattle, and its purpose is to secure memberships and subscriptions to the organization.

On its face the contest is merely an effort on the part of each to outdo the other. But the real purpose is to bring into the Y. M. C. A. a vast number of young men and boys who need its helpful influence.

The problem of our city today is the detached youth, the youth who is away from home and home influences, or the youth who is greatly in need of the helpful daily advantages which this institution offers for spiritual, moral and physical betterments. It begins with the boy's heart; it ends with his body. Its service through religious and moral instruction, its educational classes, its gymnasium and swimming pool, are such as to enlist the moral and substantial aid of every resident of Portland.

During the week over 300 men have given valuable time in the membership campaign. It has been faithful and unselfish work. They have had a large measure of support. We are, however, falling down in numbers as compared with Seattle and as compared with the total of last year.

One more day (Monday) remains of this contest. At 9 o'clock tomorrow night the records will close.

Won't you, who read this appeal, secure a number of subscriptions or memberships and bring them to the Y. M. C. A. headquarters before the closing hour Monday night?

The purpose is worthy, the end is worthy and whatever you do will redound to your betterment as well as of the city we love.
