Agents for Majestic Ranges

The Majestic Range is in a class by itself. It would take this entire page to point out its many superior qualities. If you are interested, write us for pamphlet, "Range Comparison."

FREEDOM FROM KITCHEN DRUDGERY

The Majestic is the sure baker. Its scientific construction forces the heat to every part of the oven, and its asbestos lining reflects the heat onto all parts of the baking. Bread is baked and browned perfectly, top, sides and bottom without burning. The Majestic is made of non-breakable malleable iron and charcoal iron that resists rust three times longer than steel. The oven is kept tight, permanently, by cold riveting (not bolted or clamped)—no cracks to be putted. The heat is held in and maintained with less fuel, and repairs, its perfect baking results, and the years it outlasts the ordinary range, prove the wisdom of paying the slightly higher Majestic price.

The DIVAN-BED AS A SETTEE

The DIVAN-BED AS A FULL SIZE BED

Above is pictured the Duo-Fold Divan Bed when opened up and ready for use as a bed. But two simple motions are all that are necessary to make the change from divan to bed. It is unnecessary to move the Divan from the wall, the back remains stationary. There is enough space between the springs to allow the mattress and bed clothes to remain when folded up. When used as a bed you do not sleep on the hard upholstery, but on the mattress that can be placed over the springs, thus making your bed as comfortable as a full-sized regulation bed.
