

## The Famous J. McNeil Whistler Bedroom Suite—Four Pieces—in

Ivory Enamel—Satin Walnut

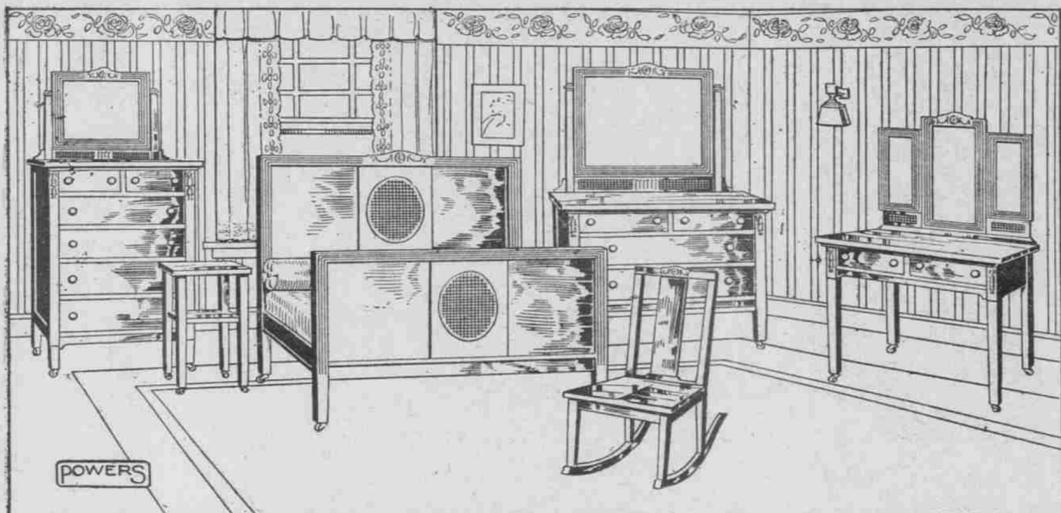

Exactly as Illustrated

Bed Dresser Chiffonier Dressing Table

# \$98.50

USUAL PRICE \$120

Terms--\$10 Cash, \$2 Weekly

### An Example of Whistler's Genius for Design

The manufacturers, in happily choosing the beaded frames for this dainty suite, have obtained the benefit of Whistler's remarkable genius for design. Simple and perfect in execution, the picture frames of James Whistler have become almost as famous as his pictures. This suite is in old ivory or satin walnut, of high-grade construction, yet most exceptionally priced.

#### Here Is Indeed an Unusual Offer

Just observe the above illustration—study its beautiful design, which is an example of the genius of James Whistler. Note the elegance and simplicity of the suite and remember to compare it piece for piece with those you have seen in other stores at more than double the price.

#### No Store to Our Knowledge Ever Made a Similar Offer

No store ever offered a suite so distinctive at such a low price. Four splendid pieces of highest quality at \$98.50. Choose three pieces of the suite and pay only \$73.85, or make your choice of any two pieces at \$49.75. Bear in mind you have your choice of ivory enamel or satin walnut.

#### \$10 Cash Places All Four Pieces in Your Home

and \$2 weekly for a short time gives you a complete bill of sale. This unusual offering of credit provides a way to own a suite of character and quality at a very special price and gives you all the time you want in which to pay for it. See this suite complete in our special third floor show rooms.

### Trunks, Bags, Suitcases

The special values offered in the big, new Trunk Department will convince you of our ability to undersell on goods of this character. You will find no old or shopworn pieces, but every article new and fresh from the maker. When wanting Trunks or Bags, just come in and learn what we can save you.

### We Say to You—the A-B Sanitary Gas Range Has No Equal

If you will spare the time and allow us to demonstrate the A-B Sanitary Gas Range, we can prove to you conclusively that it is not only the most attractive range you have seen, but one that will save you many dollars in fuel expense. Just one feature alone—the automatic gas valve—will convince you of the superiority of this range over all others.

\$1 a Week Pays for It

### Go-Carts—Carriages

A DISPLAY THAT WILL HELP YOU GREATLY IN YOUR SELECTION—80 STYLES.

Just take a peep into this wonderful department of Children's Vehicles and you will be surprised at the number of new things on show—Sulkies, Go-Carts and Carriages of every description that are priced in a way that will interest you.

#### The \$38 Reed Model Illustrated Here . . . \$29.85

By far the best Reed Carriage value procurable. Both body and running gear are finished in old ivory. Interior of basket and hood upholstered in corduroy, with full-length sides and wings. The hood is fitted with wind shield. The tubular reversible gear permits the body of the cart to be swung around facing the user. Beautifully finished, newest pattern.

- \$150 Worth of Furniture, \$15 Cash, \$2.50 a Week

## CAMPFIRE GIRLS' BAL MASQUE IS DALLAS' MOST SUCCESSFUL AFFAIR

Cards and Refreshments Are Enjoyed, Too, and Banquet in Honor of Peace Mission Delegate From University of Oregon Closes Happy Gathering.

Back Row, Left to Right, Mrs. H. A. Woods, guardian; Hallie Smith, Pearl Smith, Helen Casey, Maude Barnes, Middle Row, Muriel Grant, Marjorie Holman, Naomi Scott, Gladys Longbury. Front Row, Helen Longbury, Nona Farley.

DALLAS, Or., April 1.—(Special.)—One of the best social events of the year was held in this city last Saturday evening when the Campfire Girls of Dallas gave a bal masque. The ballroom was tastefully decorated, with a pergola made of green and white, and bowers of ferns and fire adorned the room. In a charmingly decorated corner which was decorated with festoons of green and white and six tables of cards were placed. Punch and ice were served from a charmingly appointed corner in which the campfire guardian, Mrs. H. A. Woods, presided. The Campfire Girls proved delightful hostesses, garbed in their ceremonial costumes. They also wore beads and other Indian relics.

Costumes Are Elaborate. Many elaborate costumes were in evidence. The patrons and patronesses of the evening, Mr. and Mrs. L. Barnes, Mr. and Mrs. R. Casey, Mr. and Mrs. G. O. Grant, Mr. and Mrs. U. S. Loughary. The hostesses were Misses Maud Barnes, Nona Farley, Muriel Grant, Marjorie Holman, Hallie Smith, Helen Casey and Naomi Scott. The guests were: The Misses Mary

Currin, Barbara Nealey and Elva Lucas, of Corvallis; Mamie Victor and Edna Townsend, of Salem; Levilla Cooper, Gladys Liveley, Phyllis Bush, Vivian Whitaker and Ora Fenton, of Independence; Edith Johnson and Lucile Tichenor, of Falls City; Lucile Craven, of Independence; Ruth Barrett, of Dallas; Vivian Hargrove, of Salem; Pauline Coad, Della Vierz, Jennie Muscott, Buena Fisk, Genevieve Coad, Roxana Fisk, Georgianna Fisk, Claudia Coad, Myrtle Hayes, Marie Griffin, Thelma Smith, Beth Wilson, Miriam Hart, Marjorie Bennett, Sarah Toevos, Rose Sheridan, Maud McDonald, Emma Skelton, Eva Atkins, Elma Harris, Winnie Lanier, Irene Barrett, Lucile Loughary, Lucile Hamilton, Miss Sterling, Claudia Plank, Miss Smith and Georgia Ellis, of Dallas; and Ira Mix, of Corvallis; Shaler Eldridge, of Independence; Henry Blagg, Jack Eakin, Cash Sibley and Edward Preston, of Corvallis; Edna Woods and Lamar Toose, of Eugene; Austin Titus, Judson Foster, Lester Gardner, of Falls City; Mr. Houska, of Corvallis; Wilfred Barret, of Portland; Frank Barrett, Willis McDonald, Joe Halgeron, Earl Brownlee, Edward Barrett, New Shays, William Ballantyne, Harris Ellsworth, Elwyn Craven, Fred Goch, Eugene Hart, Clyde Gibbs, Ray Boydston, Herman Hawkins, Lynn

Matherly, Mr. Coff, Walter Muir and Floyd Ellis, of Dallas; Mr. and Mrs. A. B. Starbuck, Harry Vierz, Tracy Staats, Walter L. Toose, Jr., Lloyd Soehren, R. P. Butler, Mrs. W. L. Kirkpatrick, C. Le Crider, L. D. Brown, Maurice Dalton, Harold Rich, Clinton Foster, H. C. Eakin, H. A. Woods, H. A. Lucas, J. R. Craven, D. P. Patterson, I. N. Woods, Mrs. Robey, Miss Rose Parrott, Mrs. Elita Plank, Mrs. B. Lovelace and Walter Vassall.

Pilgrimages Are Made. The Campfire Girls of Dallas have been organized for several years and each summer make a pilgrimage to some beach resort or mountain camping place. Through dues, donations and social events they accumulate the necessary "wherewithal" to take their trips. Immediately following the ball a banquet was given by a number of the young people at the Imperial Hotel in honor of Lamar Toose, University of Oregon student representative with the Ford peace expedition. The table was nicely decorated with Spring blossoms. An enjoyable four-course dinner was served, with Miss Muriel Grant presiding. Following the dinner Mr. Toose related his experiences in securing his passport to accompany the Ford expedition.

## ADVICE GIVEN ON BEST FOODS FOR CHILDREN

Comparative Nutrition Values of Edibles Are Set Forth in Bulletin Issued by Department of Agriculture.

WASHINGTON, D. C., April 1.—What six school children had to eat at noon in the lunch basket, at the home lunch table, or in the luncheon operated by the school authorities? To help answer this question, which almost every mother and many of the educational authorities are constantly asking, the United States Department of Agriculture, through the office of home economics, has just issued Farmers' Bulletin No. 712, "School Lunches."

This bulletin was prepared by Miss Caroline L. Hunt and Miss Mabel Ward, under the direction of Dr. G. F. Langworthy, of the states relations service. The bulletin, after discussing the general principles of feeding school children to provide for activity and develop them into sturdy manhood and womanhood, gives a number of simple and appetizing menus for the school lunch basket and bills-of-fare and recipes for preparing inexpensive and nourishing noonday meals or hot dishes for children, either at home, on a school stove, or in the domestic science kitchen.

In feeding a child or anyone else, the authors of the bulletin point out, it is not wise to think of any one meal apart from the other two. It is seldom convenient to provide at one meal all the materials needed by a growing body, and those which are omitted from one meal should be supplied by one of the other meals.

The noon meal for children, however, where food must be prepared at home in the morning to be eaten elsewhere at school, offers special difficulties and deserves the careful attention of parents. Before it is possible to plan a rational basket or other luncheon for children, it is necessary for the mother to understand the general essentials of diet for young people. These essentials in general are an abundance of simple foods, carefully prepared, and of sufficient variety to provide energy, repair wastes, provide elements for building bone and tissue, and stimulate growth.

To do this most effectively the three meals each day must supply the child with sufficient food from each of the following classes:

forming a sticky mass, or being too dry to eat. These qualities can be obtained in rolls and biscuit, as well as in ordinary bread, provided they are cooked thoroughly. The objection to hot bread is due to the fact that undercooking may leave it soggy on the inside rather than because such breads are eaten hot. The child's appetite for bread may be stimulated by using different kinds of bread, zwieback and crackers, by the addition of raisins, currants or nut meats, and sometimes by cutting the slices into fancy shapes.

Cereal mushes and ready-to-eat breakfast foods supply nearly the same nutrients as bread, a half cupful of cooked cereal being about equivalent to a good-sized slice of bread. A table-spoonful of cream is about equivalent in fat to a liberal spreading of butter.

2. Protein-rich foods—While bread and cereals come near to fulfilling one of the important requirements of diet—a correct proportion of nutrients providing fuel only and those useful for body-building—other foods which provide protein in larger proportion, compared with fuel should not be neglected.

Milk Rich in Minerals. These foods include milk, meat (except the very fattest), fish, poultry, eggs, cheese, dried beans, cowpeas, peanuts and almonds, walnuts and other nuts. Nuts, of course, also contain considerable fat. Milk is an absolute essential, not only because it contains a large number of nourishing substances in forms easily assimilated, but also because, in some way not now fully understood, milk seems to promote growth and help the body of a child make good use of other foods.

Milk is rich in most kinds of mineral matter, particularly lime, and in the development of bone and tissue.

Milk should never be omitted wholly from the diet of a child. If not used at luncheon it should appear in other meals. For luncheon, however, it has been found that such dishes as milk toast, milk soups made with vegetables, fish or vegetable chowders, and cocoa are valuable foods, easily prepared at home or in the school, because they require no oven and can be made in simple utensils. White sauces made of vegetable juices, milk or broth differ from milk soup largely in that they contain more flour. When considered as a food, the food value of skim milk, which contains a larger percentage of protein, though less fat than full milk, should be overlooked.

Eggs, the next of the protein foods commonly given to children, contain much iron and their yolks are rich in fat.

3. The fatty foods—The fatty foods, such as butter, cream, salad oils, bacon and similar foods, are important sources of energy and nourishment for the growing body. Fats are best given in such simple forms rather than in rich pastries or sweetened cakes.

4. Fresh vegetables and fruits—Be-

cause ordinary vegetables such as potatoes, greens, lettuce, green peas and beans, asparagus and other and the ordinary fruits do not contain much fat or protein, their value in the child's diet is frequently underestimated. These things, however, should be considered a necessary part of the diet of the child for the very important reason that they furnish mineral and other materials required to form bone and tissue as well as to provide water and supply some energy. Green vegetables are valuable particularly because they contain iron in forms which the body can utilize.

Fruits Contain Sugar. Fruits contain a considerable percentage of sugar, especially when they are dried, and sugar is a quickly absorbed fuel food. As things eaten rich in fat or protein, their value in the child's diet is frequently underestimated. These things, however, should be considered a necessary part of the diet of the child for the very important reason that they furnish mineral and other materials required to form bone and tissue as well as to provide water and supply some energy. Green vegetables are valuable particularly because they contain iron in forms which the body can utilize.

Sweets and desserts—Sugar, as has been said, is a quickly absorbed fuel food and simple sweets have their place in the diet of all children. If not served between meals or at times when they destroy the appetite for other needed foods, there is no objection to their use. They may be served in the form of cake, not rich enough to be classed as pastry, cookies, sweet chocolate, simple candy, honey, dried or preserved fruits, maple sugar and loaf sugar. In general, fruits, fresh, baked or stewed or raw and simple sweets are much better desserts for children than rich pastry, which contains a large amount of fat.

Suggested Menus Listed. The following suggested menus for the school lunch basket give the child, as nearly as is practicable in such a meal, the proper proportions of the different classes of foods:

For the Basket Lunch.

1. Sandwiches with sliced tender meat for filling; baked apples, cookies or a few lumps of sugar.
2. Slices of meat loaf or bean loaf; bread-and-butter sandwiches; stewed fruit; small frosted cake.
3. Crisp rice or nut-broiled oat and filled with chopped meat or fish, moistened and seasoned, or mixed with salad dressing; orange, apple, a mixture of sliced fruits, or berries; cake.
4. Lettuce or celery sandwiches; cup custard; jelly sandwiches.
5. Cottage cheese, maple sugar and chopped green pepper sandwiches, or a pot of cream cheese with bread-and-butter sandwiches; peanut sandwiches; fruit; cake.
6. Hard-boiled eggs; crisp baking powder biscuits; celery or radishes; brown sugar or maple sugar sandwiches.
7. Bottle of milk; thin corn bread and butter; dates; apple.
8. Raisin or nut-broiled with butter; cheese; orange; maple sugar.
9. Baked bean and lettuce sandwiches; apple sauce; sweet chocolate.

The provision of a bottle of milk is suggested in one of the menus, but of course taking milk to school in warm weather would be impracticable unless means were provided for keeping it chilled until it is consumed.
