ASK THE MAN WHO OWNS ONE

A Fair Deal is Part of Every Part of a Packard Truck

The Packard Motor Car Company does business under a one-word policy.

The word is fairness.

It covers the whole ground, from the smallest detail in a Packard truck to the sale and guarantee of that truck to the customer.

It sets the price of the Packard truck-a price based on honest cost of manufacture in a \$25,000,000 plant where experience and resources permit economy not otherwise possible.

The price is not only fair to maker and buyer-it is maintained. Every buyer gets the same square deal.

Nor does Packard fairness stop with the sale of a truck. Even in the minor matter of repair parts, the Packard user pays fairly and no more.

And on top of this policy of fairness-unchanged in ideals or practice throughout the 17 years in which Packard success has grown-there always is the self-evident superiority of the Packard truck itself.

Place a Packard truck beside any other truck and compare them. The difference is clear—even to the uninitiated eye.

The superiority of the Packard is unmistakable, and is just as great in the fast, little one-tonner as in the great 61/2-ton burden carrier.

Telephone for a salesman, no matter what your line of businessthere is a true Packard for each traffic need.

MAZAMAS PLANNING HIKE

AMBITIOUS TRIP TO TOP OF SILVER STAR PEAK IN WASHINGTON.

Portlanders to Climb 4300 Feet and Visit Old Abandoned Mines on

BY W. T. HARDESTY.

The Maxamas have planned a rather ambitious programme of local outings ambitious programme of local outings for the ensuing season, embracing several week-end and two-day trips. One of the most notable outings will be that of next Saturday and Sunday, May 13 and 14. The objective of this trip is Silver Star Mountain or peak. This mountain is in Skamania County, Washington, a short distance from the Clarke County line. It bears northeasterly from Vancouver and is about 12 miles due north from Cape Horn. Silver Star Mountain enjoyed a great mining boom years ago, and its sides are still scarred with prospect holes and shafts sunk by imaginative prospectors. All of these were long since abandoned and the mountain has reabandoned and the mountain has reverted to its primeval state. Forest fires years ago burned off most of the fine bodies of standing timber.

Hikers to Climb to Clouds, The elevation of this peak, about 4200 feet above sea level, and its isolated position, afford a commanding view in all directions. From the summit a long stretch of the Columbia River is in sight, and the principal snowcapped peaks of the Cascades, including Rainier, St. Helens, Adams, Hood and Jefferson, are all plainly in view.

time to take a special train for Portland, arriving about \$:20 P. M. The Blake total distance covered on foot on Sunday will be 17 or 18 miles, including heade the ascent and descent of the mountain. It is expected that only the hardler ones among the men and women will case,

The country adjacent to this peak is a fine hunting ground, and cougars are said to be abundant. On a scouting trip made by some Mazamas from Vancouver in April they were treated to a serenade by one of these animals. A burst fellow, with a robust voice.
