

GOVERNOR HANDS OF ROBERT ELDER

Idaho Committeeman Is Sure of Enough Delegates to Convention to Elect.

ADA IS OPPOSITION'S HOPE

Miss Bernice McCoy Announces She Will Not Be Candidate for Re-election as State Superintendent of Schools.

BOISE, Idaho, May 6.—(Special).—Unless Ada County sends a consenting delegation of 20 members to the Democratic state convention at Pocatello May 18 and is able to seat it, Robert H. Elder, Democratic National Committeeman, will be elected on the first ballot.

Counties expected to send unopposed delegations, found them for the National Committeeman. It is apparent now that no matter what protest will be raised, the Elder people will be in absolute control of the convention.

Ada Primary Unlikely Now. The enthusiasm for a primary in Ada County seems to have cooled considerably. No move has been made to hold such an election and the state convention date is rapidly approaching.

Canvassing in Ada county, which has the same representation as Ada in the state convention, will end a contesting delegation to Pocatello. The Pence-Nugent-Elder wing of the county convention instructed 30 delegates for Mr. Elder. The anti-Elder committeemen bolted and called a primary. This primary was held two weeks later and 500 delegates voted to send 30 anti-Elder delegates to the state convention.

Half Are for Mr. Elder. The latest returns received here include the election of delegates to the state convention from 20 out of the 37 counties. Of this 20, National Committeeman Elder has 10, giving him a total of 122 delegates; Jerome J. Day, of Moscow, 18 delegates; Arthur M. Brown, of Twin Falls, 18 delegates; 30 delegates from Canyon County are in contest, three counties have elected unopposed delegates and two have named favorite sons.

If all the Day, Bowen, favorite sons, contested and unopposed delegates were counted against Mr. Elder, he would still have a margin of 18 with a number of favorable counties to hear from.

The following table is compiled from the latest returns received here: For Elder—Ada 30, Adams 6, Banker 18, Benewah 6, Bonanza 18, Bounding 6, Clearwater 6, Fremont 12, Kootenai 12, Mindoko 6, Nez Perce 12, total 132. For Day—Idaho 12, Latah 18; total 30. For Bowen—Twin Falls 18; total 18. For favorite sons—Blaine 12, Gooding 6, Total 18.

A contest—Canyon 30. Unopposed—Gem 6, Lewis 6, Lincoln 6. Wilson backing unopposed. The Democratic National convention at St. Louis and will send a representative delegation to that city to take part in its deliberations. It is conceded that President Wilson will receive the unanimous endorsement of the state convention.

Miss McCoy will be made up of such Democrats as Governor Hawley, John P. Nugent, Robert H. Elder, Joseph T. Pence, George W. Tannahill and Ada. The announcement of Miss Bernice McCoy that she will not be a candidate to succeed her father as state superintendent of public instruction was one of the most interesting developments in Republican circles. She will remain in the University to complete a post-graduate course in school administration and theory of education.

Influence Greatest Given Woman. Aside from directing the state educational work, she is a member of the State Land Board, which carries on a loan business running to the tens of millions of dollars and has a voice in the important land administrative affairs of the state. It has been said that the office confers greater power than any other woman.

Miss McCoy has elected state superintendent of public instruction in 1914, following the retirement of Miss Grace Shepherd, under whom she was first assistant. Her retirement is generally regretted by those who have been associated with her on the land board and the educational work.

Dr. Sisson, Commissioner of education, paid her a high tribute, declaring she had kept her pledge to the people to aid the new system of state educational administration. Attorney General Peterson asserted that her services on the administrative boards of the state has a "highly refreshing refutation of every argument that can be framed against woman suffrage."

Miss Ethel E. Redfield, superintendent of public instruction in Nez Perce County, has announced her candidacy for state superintendent of public instruction in the Republican primaries. She pledged herself to a constitutional amendment favoring abolition of the office of state superintendent of public instruction. Miss Redfield has been engaged in educational work for several years.

Hot Water for Sick Headaches

Tells why everyone should drink hot water with phosphate in it before breakfast.

Headache of any kind is caused by auto-intoxication—which means self-poisoning. Liver and bowel poisons called toxins, sucked into the blood, through the lymph ducts, excite the heart, which pumps the blood so fast that it congests in the smaller arteries and veins of the head, producing violent, throbbing pain and distress, called headache. You become nervous, despondent, sick, feverish and miserable, your meals sour and almost nauseous you. Then you resort to acetanilide, aspirin or the bromides which temporarily relieve, but do not rid the blood of these irritating toxins.

A glass of hot water with a teaspoonful of limestone phosphate in it, drunk before breakfast for a while, will not only wash these poisons from your system and cure you of headache, but will cleanse, purify and freshen the entire alimentary canal.
