"Seemingly the feller don't know his own mind at all," Birsky commented.

"It ain't that exactly," Zapp said. "He's in a way up against the same proposition like Mr. Wilson; he couldn't rely on the backing of his own party at all. For instance, if he makes a speech in which he says that if America keeps the 5000 American soldiers in Mexico there is 100,000 Mexicans stands ready to die for their country, and it wouldn't make no difference if there was 6500 American soldiers, the 100,000 Mexicans stands ready anyhow, y'understand, then the next day

"What do you mean-provisional President?" Birsky asked.

"A provisional President," Zapp explained, "is a President that gets his job through a revolution. He acts as President until an election is held, provided he lives that long. There's a whole lot of honor attached to it in Mexico. Every time a provisional President starts to go out of his house, Birsky, he receives a salute of twentyone guns-sometimes fifty-one guns, depending on the number of people laying for him, so you can imagine what the front of a provisional President's house looks like, Birsky, If they don't get him with the first salute, it must
