REBUILT
FEDERAL TRUCKS.
A SAFE USED TRUCK TO BUY.
In buying a rebuilt Federal you get as much value for your money as in any new truck you could buy. A rebuilt Federal means that it has been completely overhauled, every part critically examined, and, when necessary, replaced by a new one. It is painted and finished just like a new truck.
And remember this:
When you buy a rebuilt Federal you are protected by the same policy applied to all Federal owners. We operate a repair department manned only by Federal experts—open night and day—with the most complete stock of parts in the Northwest.
Federal leadership is a byword in the trucking field. This "built-in" quality, backed by an organization capable — and willing to give you real service, is consequently
A SAFE USED TRUCK TO BUY.
If you are in the market for a truck from $1000 to $1400 we urge you to compare used Federals with new trucks at similar prices. We think we can convince you of their superior value.
