PLANS FOR PARADE ARE ABOUT READY

Enthusiasm for Great Demonstration to Be Held June 3 Daily Increases.

THOUSANDS TO TAKE PART

Various Military and Civic Organizations to Be in Line—Members of Professions of City Also Will Participate.

With enthusiasm daily growing in volume the citizens of Portland are preparing to send about 10,000 of the city next Saturday, June 3, one of the biggest parades in favor of preparedness for defense that has ever marched in the West.

The demonstration in Portland will be simultaneously with similar demonstrations in 25 of the leading cities of the United States, to give the country the assurance of the attitude of the representative mass of the people toward the question of preparedness.

While the parade will move in divisions according to the organizations that are participating, the participants will be individual citizens, and the parade will be the acme of the doctrine of peace through preparedness as being asked to turn out.

The general committee in charge of the movement, of which C. U. Gantenbein is chairman, has been organized only a week and already organizations representing an aggregate membership of between 30,000 and 40,000 have announced their sympathy with the movement and their intention to march in the parade.

Attorneys Show Interest. An example of the thoroughness with which the preparation for the parade is being made is given in the arrangements that have been made for bringing the plan to the attention of the lawyers of the city, who are being asked to march in the "legal division."

Dan J. Maloney is chairman of the committee, with Ralph A. Carter, secretary, and the following attorneys are working in the preparation for the lawyers' participation: E. E. Covert, E. Y. Lattin, W. A. Carter, J. C. Spence, Allen, Eugene Brooking, Ralph Harburt, Chris A. Bell, Forrest S. Fisher, Thomas G. Greene, Spencer C. Spence, Roger B. Sinnott, John A. Laing, John F. Logan, J. N. Hart, Arthur Langguth and Henry A. Davis.

Each member of this committee has gone out on a canvass of the business buildings of the city with the determination of seeing every lawyer in the city and asking him to join the parade. Practically not a single lawyer has been received yet from any one in the legal profession.

"It is an honor for what is denominated 'preparedness,'" Judge Henry McGinn wrote opposite his name on the list that the committee is circulating.

Judges to Be in Parade. All the Circuit Judges and District Judges, the District Attorney and all of his deputies and the United States District Attorney and all of his deputies are expected to participate.

More than 250 names of attorneys were on six lists that were partially completed by the committee yesterday by the district attorney's office and there are 18 lists out in all. There will be probably more than 500 men walking in the lawyers' division.

The list of names of the various clubs and fraternal organizations of the city, the entire membership of which are being asked to participate, is being brought back to the general committee larger and larger returns on the number of people who will elect to be in the parade.

"We are trying to see everybody," said Mr. Maloney yesterday, "but we are not going to be in the parade until we have a personal invitation extended to every lawyer in the city, they are all asked to be in the parade."

This is the position taken by all of the committees of various organizations, church and civic, that there will be "roses to spare" for the Festival.

The buds are just ready to begin bursting out now, said J. A. Curry yesterday, "and if the weather man will vouchsafe three days of sunshine between now and the opening of the Festival they will be in fine condition at that time. The roses on Portland Heights are a bit behind the roses in the lower part of the city, but there are no danger of there not being enough roses."

E. J. McFarland corroborates the testimony of Mr. Curry and predicts that there will be plenty of roses.

"They are already well along and we have 10 days' leeway," he said, "it will be almost an impossibility for anything to happen to keep the roses from being out well for the Festival. People get in a panic about this time every year, but I have hardly ever known of there being anything like a failure of the rose crop for the Festival."

Local rose experts are busy these days allaying what they take pleasure in terming the "annual panic" over the possibility of the roses not being well in bloom at the opening of the Rose Festival.

It does look as though there may be some ground for the panic this year, because the lateness of the Spring and the recent cold weather has held the buds back seriously, but the experts reiterate their assurance that there will be "roses to spare" for the Festival.
