Salem Command Brings National Distinction to Oregon, According to Washington.

ORDERS YET UNCERTAIN

Lieutenant Williams Is Detailed to Duty With Nebraska Guard, With Prospects of Getting Higher Commission.

OREGONIAN NEWS BUREAU, Washington, June 24.—The three officers and 145 men of Company M, Third Oregon Infantry, comprise the first National Guard organization to be mustered into the service of the United States, under the recent call of President Wilson, according to General A. L. Mills, chief of the military division.

General Mills received telegraphic notification today that Company M had been mustered, but he was not advised as to when the remainder of the Oregon Guard will be mustered, nor has he been advised by department headquarters at San Francisco whether this company will be sent to the border immediately, as a separate unit, or wait until further companies have been mustered.

Officers to Be Reappointed. General Mills further stated that under the Hay bill, which passed the Senate Monday, all officers of the National Guard who are mustered into the Federal service will have to be reappointed by the War Department. This bill, however, will be issued under the bill becomes a law, and then only the various officers are accepted with their troops. The issuance of commissions is expected to begin the middle of next week.

Lieutenant Kenneth P. Williams, Infantry, who has been on duty as instructor of the Oregon National Guard, today was detailed to temporary duty with the Nebraska National Guard, pending mobilization, with indications that he will be given a higher commission in that organization.

Idaho Examiner Detailed. Lieutenant-Colonel Marshall Wood, retired, now living at Boise, today was detailed to active duty as examiner of the Idaho National Guard, incident to its muster into the Federal service.

Colonel George B. Davis, recently relieved of duty as quartermaster at Seattle, is to be ordered to a court-martial because of charges brought against him alleging he has neglected to pay his personal debts. There is no charge of irregularity in connection with his military service.

First Lieutenant Carl F. von dem Bussche, Fourteenth Infantry, at Fort Wright also has been ordered to appear before a court-martial, the War Department declining to make public the charges on which he is to be tried.

ately retreat. Another battle at this time might precipitate general hostilities. Rumors that the Carranza government was seeking mediation through other Latin-American nations came from many quarters. No offers of mediation reached the State Department from any source. Administration officials hold that they have nothing to mediate. It is generally regarded as unlikely that President Wilson would agree to any proposal that would result in tying the hands of General Funston in his efforts to protect the border from bandits. A mediation plan resting on a military status quo during negotiations would prevent pursuit of raiders or any operations beyond the border to break up bandit organizations before they became dangerous. And it is for this purpose General Pershing's column has been maintained in its present position despite Carranza's opposition.

MEXICANS ADVANCE TOWARD AMERICANS

Columns Approach Each Other and Border Thinks Clashes Are Inevitable.

ORDER FOR ATTACK GIVEN

Carranza General Tells Troops to Strike if United States Cavalrymen South of Border Falls to Retreat Immediately.

EL PASO, Tex., June 24.—Apprehension that battles may be in progress tonight between American and Mexican troops in at least two places in Northern Chihuahua gripped the border tonight.

American columns were moving in the direction of San Antonio and Ojo Caliente, while General Jacinto Trevino, commanding the Carranza army of the north, has ordered troops at adjacent points to attack them if they do not retreat immediately. With a lapse of 24 hours, it is assumed here that it is probable that the opposing forces may have met.

Strength of Forces Unknown. Little was known here tonight as to the strength of the American columns or their mission, but it was assumed that one of them might be a detachment sent by General Pershing to rescue the survivors of the troops of the Tenth Cavalry engaged at Carrizal.

Army officers here also pointed out that the column headed for Ojo Caliente, about 30 miles southwest of Carrizal, probably is composed of the troops rescued immediately, with a detachment of two squadrons of the Eleventh Cavalry sent to reinforce them. Mexican authorities content themselves with assessing the strength of the American forces dispatched to meet them is "adequate."
