Zapp said, "I'd schenck the credit for it to any of the others, Birsky, because if I would be a politician, Birsky, I wouldn't got nothing to do mit no isms. Once a politician oder a statesman starts to monkey with an ism like unionism, socialism, militarism oder Americanism, Birsky, for all the good it's going to do him, it might just so well be an itis like appendicitis, tonsillitis, bronchitis oder peritonitis. Take William J. Bryan, for instance, and that feller has had ism after ism till he's already got one foot in a political grave. Speaking from the standpoint of politics, he is now being taken round in a wheel chair, and when a seemingly strong, healthy feller like Mr. Wilson meets him on the street and goes home and says to Mrs. Wilson at dinner: 'I seen old Mr. Bryan in front of the drug store this afternoon, Mommer. Ain't it terrible what creeping pacificism has done to that feller?' Mrs. Wilson nods and says would he have another plate soup and dismisses it like that, Birsky, because little does she suspect that her own husband has already got the beginnings of acute Americanism in his system."

"Is Americanism so terrible as all that?" Birsky asked.

"It ain't quite understood as yet, Birsky." Zapp replied. "The only thing they know about it is that it's very catching. Roosevelt got it first. 'The first and only stage in some cases, like old Mr. Bryan olav hasholom," Zapp said, "aber with the Kaiser he seems to have got past that part of his ism. There was a time here about three years ago when you couldn't pick up a paper without reading how the Kaiser addressed the South Prussian, Wumterburg and Rhein-Pfalz Commercial Travelers' Association or some such organization about the mailed fist oder the three K's or something, but nowadays the poor feller don't open his mouth at all."

"Why should he?" Birsky asked. "If every politician mit an ism would have his ism tried out on him the way the Kaiser has, Zapp, even fellers mit socialism would keep quiet. Take that speech which the Kaiser used to get off a few years ago about women should attend to the three K's-Kirche, Kuche und Kinder-and leave all other jobs to the men folks, and he had a pretty good nerve to pull it even in them days, when thousands of German women was not only attending to the church, the cooking and the children, but was also attending to the coal mining, the farming and the street sweeping, not to mention a few hundred other jobs which

"Who told you the Kaiser says such things about Germany?" Zapp demanded."

"Why, you did, didn't you?" Birsky replied.

"Me? I never said no such thing," Zapp cried indignantly. "What you are saying the Kaiser says about Germany was what President Wilson says about America."
