A SEPTEMBER DIALOGUE

CHARACTERS: Mr. Portland and the Gas Man, with Mrs. Portland and the Little Portlands for Chorus

Mr. Portland Your statement that your heating system is as ideal as human ingenuity can make it is pretty strong, let's test it out:-

Mr. Portland My ideal system would give the exact temperature I want in any room at any time independently of any other room or the

Mr. Portland My ideal system would ventilate as well as heat the house by drawing off the used air together with all smoke and fumes

The Gas Man I can't quite say that for my system, but it costs less to operate than any other and we can divide the cost of installation

The Gas Man Absolutely! A child of four can press the button, and that is all the attention my system requires throughout a year.

Portland Gas & Coke Co.

so that the initial outlay is no more than you would have to spend on getting your Winter's fuel.

Mr. Portland Will you give me a list of every customer you have and allow me to communicate with them?

Mr. Portland My fuel would always be in the basement, Summer and Winter, and would be paid for after I use it, not before.

My ideal system would start itself just when I want it; that is, before we get up in the morning, or before we get home

FORBES LINDSAY IS PORTLAND VISITOR

Author, Back From South American Trip, Says Nation Must Hustle for Trade.

CLOSE" STUDY IS NEEDED

European Countries Will Regain Old Footing After War Unless Present Opportunity Is Seized,

He Declares.

Forbes Lindsay, well-known author, traveler and lecturer, has been passing the last few days in Portland as the guest of his friend, William McMurray, general passenger agent for the O.-W. R. & N. Company, and has taken occasion to collect material here for proba-ble future literary productions. Mr. Lindsay recently returned from

an extended stay in South America. In fact, he has made several trips into the Latin-American countries and has writ-ten for Eastern magazines a series of articles dealing with the prospective

future trade relations between the two
Americas, North and South.
So far as those relations are concerned, Mr. Lindsay does not hesitate
to say that the United States will have
to mend its ways if it expects to share
in the business after the European war.

"We must improve our practices in 'We must improve our practices in two important particulars," he says.
"One is our shameful disregard of customers' orders, and the other is inadequate methods of finance. There are other minor offenses, but the two that I have enumerated are the most grievous."

South Americans Willing.

Mr. Lindsay declared that the peo-ple of South America would give this country the preference, other conditions being equal, over Germany, England and other European countries with when they have been accustomed to

tinued, "but as soon as the war is over it is more than likely that they will restablish their old connections.

"Germany and England particularly have catered to the wants and necessities of the Latin republics. They have pleased and satisfied them. Those countries are ready to resenter the South American field as soon as peace is declared. It is improbable that the United States can hold its trade there in competition with Europe."

School graduates in Lane County when the Double schools open this month. The delegation of instructors is the largest number of members of the last class to go into a sipple county in Oregon this Fall.

Leewell A. Wright, of Butte Falls, and School, made possible by previous or later teaching experience.

have been trying to do business through interpreters.

While in Peru Mr. Lindsay observed that a mining company had ordered a bill of machinery from a firm in the United States, specifying that it should be packed in 50-pound boxes. When it arrived it was in boxes of three or four times that size. The customer had to unpack it, take some of the machinary apart and reports it into the smaller. ery apart and repack it into the smaller boxes so that he could carry it into the mountains on the backs of mules. The manufacturer, with characteristic North American indifference to details, had disregarded this important provision of the order. The next order doubtless will go to a European firm, he said.

President Ackerman Says Two

More Are Badly Needed.

More Are Badly Needed.

Student to furnish him capable instruction, and the further duty we owe to every section of the state to furnish an adequate supply of trained instructors.

"The United States Bureau of Education recognizes but four factors in determining the location of a new normal school. First, it should be located so as to serve a well-defined

Incident One of Many.

So it goes, says Mr. Lindsay. This incident can be duplicated quite frequently by almost any keen observer. He reports, too, that American concerns doing business down there persist in their unwillingness to extend long-time credits, in displeasing contrast to their European competitors. This condition will have to be remedied before permanent trade can be satch. hefore permanent trade can be estab-

"Another important factor in developing future relations is adequate steam-ship service, and this must be supplied. "The South American trade will be worth more than all the Oriental trade "The South American trade will be worth more than all the Oriental trade combined, and when once we get it firmly established," says Mr. Lindsay, "we can hold it, peacefully, against all comers. It will be well worth our while to go after it, get it and keep it after we get it."

The matter of a location of a normal school is not a local issue," said some in Eastern Oregon and one in Southern Oregon. One of the mistakes made in the past here in Oregon was to have our students teach in the public schools of Independence, which is communities. This unfortunate condition was brought about by a desire to additional normal schools does not speak well for "Educational experts who have stud-

ACCUSED CAPTAIN POPULAR

Second Washington Officers Assure Centralia in Message.

CENTRALIA, Wash., Sept. 2.—(Special.)—An unsigned telegram, sept by officers of the Second Washington Infantry at Calexico and referring to the arrest of Captain David Livingstone, commanding Company M, on the order of Colonel W. E. Inglis, was received yesterday by Mayor John Galvin:

"There is no need to fear as to the outcome of the proceedings against Captain Livingstone. He has a high reputation as an officer and a gentle-man in this regiment. The reputation of your splendid Company M is not at This message is sent by officers, who, for military reasons, cannot sign their names. Their names will be furnished after we are mustered out.

"GRANDMA BROOKS" IS 90

Oldest Resident of Skamania County Still Active in Civic Affairs.

SKAMOKAWA, Wash., Sept. 2 .- (Spe cial.)—"Grandma Brooks," as she is familiarly called by a large number of friends, celebrated her 20th birthday yesterday. She is the oldest resident of the county and of this section, but is in excellent health and yet takes an

active part in civic and community af-Mrs. Brooks came to the Skamokawa Mrs. Brooks came to the Samueland Valley-in 1870, when there were four white women in the settlement. There was no physician nearer than 50 miles and Mrs. Brooks was often

called miles to care for the ill. More than 200 children call her "grandma." She was born in New Lime, Ashtabula County, O., on September 1, 1826.

Big Prune Crop Ready.

VANCOUVER, Wash., Sept. 2,—(Special.)—The prune harvest in Clarke County will be on full blast next week and driers in each orchard will be taxed capacity for from three weeks to a month caring for the crop, which is the largest in recent years. Excellent weather has prevailed for the past month, enabling the prunes to ripen and mature into fruit of exceptional quality. The prune crop is the principal one in this district and more than 1500 persons will be engaged in the harvesting.

OREGON NORMAL SENDS 13 TEACHERS TO LANE

Six of Class of '16 Go to Eugene, Five to Springfield, One to Creswell and One to Rural School-Practice Teaching Followed at Monmouth.

Harriet Vilas. Naomi Gilbertson. ONMOUTH, Or., Sept. 2.—(Spe- River, will teach in the Creswell grade cial.)—Six teachers in Eugene, school. "They are willing to trade here now only because they are shut off from their European connections," he continued, "but as soon as the war is over tinued, "but as soon as the war is over tinued, but as soon as the war is over tinued, "but as soon as the war is over tinued, "but as soon as the war is over tinued, "but as soon as the war is over tinued, but as soon as the war is over tinued, "but as soon as the war is over tinued, "but as soon as the war is over tinued, but as the war is over tinued, but as soon as the war is over tinued, but as the war i

countries are ready to re-enter the South American field as soon as peace is declared. It is improbable that the United States can hold its trade there in competition with Europe."

New York Action Hopeful.

Mr. Lindsay, however, sees a hopeful sign in the recent action of the National City Bank of New York in establishing. The five Springfield grade teachers.

School, made possible by previous or later teaching experience. Attractive salaries have come to be real for grade work. Women far outnumber the men in this work. Students who entered the Oregon Normal with no teaching experience were "initiated" in their senior year. I land; Helene Ogsbury, of Monmouth, and Edith Bueil, of Eugene.

The five Springfield grade teachers.

Lane County's interest in grade work

LOCATION IS VITAL ISSUE area

School Must Be Placed in Town Big Enough to Provide Pupils for Practice, He Says, and to Get Educational Facilities.

"The matter of a location of a nor-

of the state as a whole.

"While it may seem at first glance that we owe a duty to the young people who desire to obtain normal instruction this duty is slight in comparison with the duty we owe the student to furnish him capable in-

determining the location of a new normal school. First, it should be located so as to serve a well-defined area of population. Next, it should be centrally located in the area to be served. Third, it should be located in the most convenient railroad center of the district and lastly, it should be the district, and lastly, it should be located in a community sufficiently large to provide adequate practice eaching facilities.

Three Normals Found Necessary. "Oregon should have, under present conditions, at least three normal schools. We now have one at Monmouth, which serves the thickly settled Willamette Valley. We need

PORTLAND COMPANY PREPARES PRESENTATION OF SCENES FROM "IN THE PALACE OF THE

Gas Heating and Centilating System

A..... "Numerous educational surveys have established the fact that the normal school located in a small community cannot serve the interests of the state at each of the whole state, nor does it as well as if it were located in a city

The Gas Man My system does that.

The Chorus Oh! Daddy, do get one.

Mr. Portland Go ahead and give me an estimate.

and discharge them outside the premises.

The Chorus Could we look after the system when Daddy isn't here?

The Gas Man Gladly. We have 100 per cent satisfied customers.

Mr. Portland My ideal system would cost nothing to operate and nothing to install.

than to serve the best interests of the led the question find that students in distant parts of the state will not will be travel to a centrally located school.

ms well as if it were located in a city where the students will have ample facilities for practice teaching. In fact, practice teaching is the main essential of worth-while normal instruction. We learn by doing and teachers learn to teach by teaching. At Monmouth we are badly handicapped by a lack of pupils in the public schools. So serious is the need of more pupils for practice teaching that I am endeavoring to obtain permical to the public schools in the williamette Valley to have our students teach in the public rather than in Southern or Eastern

"We need a normal school in Southern Oregon and one in Eastern Oregon and it will be a serious mistake to locate it in a town of less than 5000 population. Take Eastern Oregon for example. You must plan for the future needs of the state and the ever-increasing demand for teachers. You increasing demand for teachers. You must plan shead to provide as many teachers as the area to be served may need in the future. Then, too, adequate railroad facilities, public libraries and other facilities and conveniences are to be found in the larger ommunity that are lacking in the smaller town.

"Lecturers and high-class educational entertainers come to the larger community that never are to be seen or heard in the small towns, but, of course, the most vital issue of all and community that never are to be seen or heard in the small towns, but, of course, the most vital issue of all and the one that bars the small town from becoming a normal school center is the inadequate supply of pupils in the public schools to furnish practice teaching for the normal students.

"I hope that the voters of the vital state of the company has built a complete sewer, water, gas and electric light system, installed in accordance with the Akron City code—so complete that when annexation came, no alterations were necessary to conform to city requirements. cilities along normal school lines from our state."

Vancouver Work to Begin.

VANCOUVER, Wash., Sept. 2.—(Special.)—Work on Vancouver's new \$140,000 Federal building is to be started at once, it has been announced by a local contractor. The Campbell Building Company, of Salt Lake City, has the general contract, but the excavation will be done by local people on sub-contract. As soon as the excavation is completed, which should be within three weeks, the crection work will be under way. The steel for the structure will be furnished by the Northwest Steel Company, of Portland.

The fame of Goodyear Heights has caused representations, desiring to tives of many representations, desiring to adopt similar home-building plans, who have invariably pronounced it the most perfect home-building plan to come under their observation.

Athletic and amusement features have not been overlooked. Within the property is a small lake, offering swimming, boating and skating facilities. Around this has been made a magnificent pleasure ground, including restful parks, tennis courts, dancing pavillon, athletic track and baseball, football and soccer fields, with a grand-stand seating capacity of 2000.

Stomach Troubles

It Neutralizes Stomach Acidity—Prevents Food Fermentations.

Doubtless, if you are a sufferer from indigestion, you have already tried pepsin, bismuth, soca charcoal, drugs and various digestive aids and you know these things will not cure your trouble—in some cases do not even give relief.

But before giving up hope and deciding you are a chronic dyspeptic just try the parks, tennis courts, dancing you are a chronic dyspeptic just try the other parks.

Sweden has nearly 10 000,000 acres of peat fields, but the annual yield is not more than 62,000 tons. Coal is selling at \$16.75 a 500 on that a cheaper fuel is a focuseity
