

REBEL SPREADING IN GREEK NATION

Uprisings Are Reported to Be Extending Through Northern Half of Country.

MARTIAL LAW PROCLAIMED

Provisional Government of Macedonia Established and All Cavalry and Gendarmes Volunteer to Oppose Bulgars.

ROME, via London, Sept. 2.—Information reached here today that the revolution in Greece is spreading and that martial law has been proclaimed in Athens, Piraeus and several other cities.

The uprising is extending in Thessaly and Epirus, which, together with Greek Macedonia, in which the movement was inaugurated, constitute the northern half of Greece.

The condition of King Constantine is reported to be very serious.

King Constantine has been in ill-health for several months, never having recovered from an operation for pleurisy. There have been no previous indications that the King's condition was serious.

BURIAL OF GREECE IS FEARED

Ex-Premier Venizelos Urges War Before Bulgars Seek Peace.

LONDON, Sept. 2.—Ex-Premier Venizelos, of Greece, leader of the party which favors participation in the war with the entente allies, is quoted in a dispatch to the Star from Athens as having said that the present situation was becoming more and more grave for Greece. M. Venizelos blamed those who had advanced knowledge of Roumanian intentions for not bringing about the intervention of Greece, at least simultaneously with Roumania. The Star's correspondent quotes him further as follows:

"With the Bulgarian troops between the Roumanians and the armies of the entente allies and with the Russians advancing through Dobruja, who can doubt that Bulgaria will seek to sign a separate peace with the entente? In this should happen before Greece goes in on the side of the entente it would mean the burial of Greece."

After an audience lasting two hours on Thursday with King Constantine, of Greece, which gave rise to persistent rumors, Premier Zaimis, according to a dispatch filed at Athens yesterday by the correspondent of the Exchange Telegraph Company, said that Greece maintained her policy of friendly neutrality toward the entente powers while awaiting events.

A number of animals in the running classes were to be taken away from the county, following the Cos Bay Jubilee races, but the fair board increased the purses for the runners and kept seven which were killed to leave.

A Russian patrol put to flight a party of the enemy northwest of Auberville after lively fighting. "The great majority of the women joining the ranks of the National Women's party are from the commercial organizations; women who must under the indignity of the treatment of the present Administration through the action of the judicial committee of the House of Representatives in its unfair blocking of the Federal amendment to enfranchise women."

ATHENS IN FERMENT AS REVOLT SPREADS

Greek Regulars Join Uprising. Roumanians Win From Austrians on Danube.

5-DAY BATTLE TURNS TIDE

Mackensen's Flank in Danger and Allies Gain Position Ready to Drive Wedge Cutting Off Two Teuton Armies.

BY ARTHUR S. DRAPER, War Correspondent of The New York Tribune and By Special Cable.

LONDON, Sept. 2.—(Special.)—While the revolt in Greece is spreading, Athens is in a ferment. Confronted on the one hand by internal dissension that looms larger hourly and on the other by allied pressure, the government is trembling. The question of intervention in the war may be settled in the next 24 hours.

Under command of a French Admiral, a big allied fleet cruises before Piraeus, the port of Athens. The flag of France today flies on four Greek merchant ships and three Austrian interned in the harbor. Boarding parties of the entente vessels seized the vessels, Athens reports.

Censorship is Effective. At Saloniki, revolutionaries have seized the wireless apparatus at the Greek arsenal. No news is allowed to trickle out of Greece into Germany. The shadow of the entente hand grows bigger every day, and King Constantine cannot hold out much longer.

The uprising, which Greek regulars have now joined, is spreading. All Northern Greece is now affected, and some dispatches say that martial law has been proclaimed in Athens, Piraeus and other cities. This revolt may sweep the King out of power at any moment.

Provisional Government Proclaimed. At Saloniki, revolutionaries have proclaimed a provisional government and have issued a manifesto calling on the people to combine to drive the Bulgars out of Greece.

The Roumanians have won the battle for Orsova, the Austrian bastion on the Danube. After five days of furious fighting the Teuton troops have been beaten and forced to retire to the west bank of the Cerna River.

In Transylvania, the Roumanian advance is unchecked. The Austrians, who have decided to shorten their line, are offering little resistance. The important city of Hermannstadt, 15 miles from the border and territory of Serbia, Kronstadt, have been abandoned to the invaders.

Mackensen's Flank in Peril. Now Mackensen's flank is in danger and the Roumanians are in position to drive in a wedge between the Teuton forces operating in Serbia and those in Transylvania.

On the northern front, where the Russians are fighting with the Roumanians, steady progress continues. The important city of Chirpuk, 15 miles from the border and territory of Serbia, Kronstadt, have been abandoned to the invaders.

Note Sent to Premier. The entente ministers at Athens have drafted a note for presentation to Premier Zaimis, says a Reuter dispatch from Athens, under date of Friday. The note was to be presented Friday or Saturday. The entente ministers asked the Greek premier to take part in a demonstration and other measures were not directed against Greece.

When the Baby Can't Sleep

It's in the long, peaceful hours of sleep that your baby grows. When he can't sleep something is wrong. Probably his food is wrong.

Perhaps his little system is desperately struggling with the heavy curd and the germs of raw cow's milk, meant for the four big stomachs of a calf—not the tiny stomach of your baby.

The baby will sleep as he should and grow as he should if you give him the food he needs. Nurse him if you can. If you can't, give him the nearest thing in the world to mother's milk—

Because it is purified and watched—and reduced to a powder—because no hand touches it and it comes to you in an air-tight can—it is as free from germs as mother's milk itself.

It is a complete food for your baby—you add only water and boil.

Remember, it is raw cow's milk that so often brings germs of diphtheria, scarlet fever, summer complaint to your baby. Keep those deadly germs away from him. Keep him safe on NESTLE'S FOOD.

Alleged Attack on Mrs. Floria Foreman by Mrs. Abe Anderson to Be Probed at Marshfield.

MARSHFIELD, Or., Sept. 2.—(Special.)—The grand jury, due to sit next Tuesday, will make a thorough investigation of the alleged assault on Mrs. Floria I. Foreman, by Mrs. Abe Anderson, of Kentuck Island, about six weeks ago.

Mrs. Foreman had intended leaving the district, but stayed to learn the outcome of the investigation.

The trouble between Mrs. Foreman and Mrs. Anderson was the outcome of a dispute about the cost of a janitor for the school where the former was teaching.

At the time Mrs. Foreman made complaint of having been assaulted. She exhibited numerous bruises and scratches and said she had been unmercifully beaten.
