Stanford Prexy Says American Game Is Menace.

COACHING SYSTEM SCORED

Announcement Is Made That Intercollegiate Athletic Relations May Be Discontinued if Students Force the Issue.

STANFORD UNIVERSITY, Cal., Oct. 28 .- (Special.) - Stanford may discontinue intercollegiate athletic relations entirely. This possibility was evident in a statement issued by President Ray Lyman Wilbur yesterday in response to a committee of prominent students who visited him in an effort to find out if there was not some way of American football being substituted for HEAVY ELEVEN DEFEATS COM-

American football being substituted for Rugby at Stanford.

If the students again should campaign to change the style of football to be played and should vote for American, the question would be turned over to the academic council by the faculty. According to Dr. Wilbur, this would mean a discontinuance of intercollegiate athletic relations, some of the faculty being already convinced that such relations are of no benefit to the university.

Stanford can afford to do what it thinks right, can afford to look ahead and stand for certain ideals in sports as well as other activities. Having set a standard after a careful survey of the past, present and probable future Stanford cannot and will not vacillate." K. Howard, editor of the Daily Paio Alto, the cellage publication, says:
"According to an unappealable and irrevocable mandate, Stanford must re-tain Rugby on the athletic calendar. Future agitation in behalf of American otball comprises wasted and unwise effort, as any organized attempt to reate relations by the academic council."
