## OREGONIAN ELECTION RETURNS.

**Electric Signals in Residences of Portland, Salem, Oregon City and Vancouver, Wash.**

The Oregonian has arranged with the Portland Railway, Light & Power Company for a code of signals to announce the result of the Presidential election next Tuesday night in residences of its electric light patrons in Portland, Salem, Oregon City and Vancouver, Wash. The signal will be given by the turning out of the electric lights as soon as the result is known, according to the following code:

Two dashes (two successive five-second intervals of darkness) will indicate that Wilson has won.

Three dashes (three successive five-second intervals of darkness) will indicate that Hughes has won.

Four dashes (four successive five-second intervals of darkness) will indicate that the result is still in doubt.

The first signal will be given as soon as the result is known. If the returns are decisive, before 11 P. M., but at any rate a signal will be given promptly at 11 P. M., or as near 11 P. M. sharp as is possible.

**Bulletins at Sixth and Alder.**

A complete bulletin service of election returns will be flashed by The Oregonian Tuesday night on a screen at Sixth and Alder streets. The count in the different states will be shown as rapidly as it is reported by the Associated Press, which has unequalled facilities for assembling election news. Because of the difference in time between Portland and the East, it is probable this service will begin by 6 P. M. Reports of the count in Portland and Oregon, including contested offices in Multnomah County and initiative measures, will be flashed at frequent intervals after the polls close at 8 P. M. The Oregonian has made arrangements to cover every county in Oregon. The bulletins will be continued until midnight or later.

The action is brought against Alex Friedman, butcher; Harry Marcus, C. S. Jackson and the Journal Publishing Company. Friedman conducted the Seattle Meat Market, having a stall in the Washington-Street Public Market prior to August 25.

Many of the students are engaged in doing the janitor work in the buildings and in keeping the lawns in shape. Twenty-five men doing this kind of work at present. ## "Quality-Plus"

"QUALITY" has many interpretations—it is frequently understood according to one's viewpoint. During our sixteen years of conservative growth from a small store to one of the leading jewelry establishments in Oregon we have interpreted the word "quality" in but one way, and that in the broadest and most liberal sense!

"Quality-Plus" is the way we put it when referring to our jewelry, silverware and diamonds; that is, the very best quality obtainable, plus service—plus dependability—plus Jaeger's reputation.

When we say the "BEST OBTAINABLE" it should not be construed to mean the most expensive obtainable, for our stock of jewelry, silverware and diamonds includes reasonably priced items, but all with our "QUALITY-PLUS" guarantee! In other words, we mean the utmost in quality at a given price. Inspection and comparison invited.
