Increase in Vote of Socialists and of Prohibitionists Is Reported, but Some Counties Have Not Yet Canvassed These Aspirants.

Late returns from Tuesday's election serve to bear out the previous esti-mates that absolute prohibition has car-ried in Oregon by a majority ranging from 2300 to 2500.

pected to be favorable. The final ma-jority, however is not expected to ex-ceed 2500.

The vote as it now stands is: Yes, 108,306. No. 105,955. Majority for, 2351.

Majority for, 2531.
Meanwhile the vote against the brewers' amendment, which would have reopened the state for the manufacture and sale of beer, is growing. It is probable that the measure will be snowed under with a majority of 40,000

Some Early Returns Faulty.

Revised figures show that Hughes' final plurality in the state will be \$900 or \$000. Incorrect returns sent from Lane and Jackson counties on Friday indicated that he might have a plurality over Wilson of 10,000 or more, but the official count from nearly every county in the state gives him a lead, on the face of available returns, of \$841. The missing precincts are expected to increase Hughes' lead.

The vote at hand is: Some Early Returns Faulty.

The vote at hand is: Hughes, 124,051. Wilson, 115,210.

Hughes' plurality, 8841.
Hanly, the Prohibition candidate, polled approximately 5000 votes in the state, and Benson, Socialist, 12,000 or 15,000.

Complete returns from the Seventeenth Senatorial District indicate that W. Lair Thompson has been defeated for re-election to the Senate by Judge George Baldwin (Dem.), of Klamath Falls. This will give the Democrats five members in the Senate.

five members in the Senate.

Mr. Thompson would have been a candidate for the presidency of the Senate again had he been re-elected. His defeat throws the field open for other candidates, prominent among whom are Gus C. Moser, of Portland; C. L. Hawley, of Benton County, and possibly Counced P. Olson of Portland. possibly Conrad P. Olson, of Portland.
The anti-compulsory vaccination bill
apparently has been defeated. The
vote now stands: yes, 93,671; no, 94,589;
majority against, 818.

GIRLS! BEAUTIFY YOUR HAIR AND

Hair Becomes Charming, Wavy, Lustrous and Thick in a Few Moments.

Every Bit of Dandruff Disappears and Hair Stops Coming Out.

For 25 cents you can save your hair. In less than ten minutes you can double its beauty. Your hair becomes light, wavy, fluffy, abundant and appears as soft, lustrous and charming as a young girl's after applying some Danderine. Also try this—moisten a cloth with a little Danderine and carefully draw it through your hair, taking one small strand at a time. This will cleanse the hair of dust, dirt or excessive oil, and in just a few moments you have doubled the beauty of your hair. A delightful surprise awaits those whose hair has been neglected or those whose hair has been neglected or is scraggy, faded, dry, brittle or thin Besides beautifying the hair, Danderine dissolves every particle of dandruff; cleanses, purifies and invigorates the scalp, forever stopping itching and falling hair, but what will please you most will be after a few weeks use, when you see new hair—fine and downy at first—yes—but really hew hair growing all over the scalp. If you care for pretty, soft hair, and lots of it, surely get a 25-cent bottle of Knowlton's Danderine from any drug store or toilet counter and just try it.—Adv.

At each of these meetings three or more student speakers, who had made a special study of the measures, explained each and tried to give as fair a presentation of both sides of the question as possible.

The youthful politicians found that political speaking was no child's play. In presenting both sides they often drew heavy fire from both supporters and opponents of the measures. Lora C. Little, instigator of the anti-

Little, instigator of the antivaccination measure, appeared at several of the meetings and succeeded in tangling up some of the speakers who were not as well informed on Medical facts as they might have been. It was generally conceded, however, that in view of the great fund of information which a complete authority on the questions would have to have had the students did very well. They did not claim to be able to give the voters infallible information, but avowed that their chief aim was to arouse the interest of the voters in the initiative problems
