

EUGENE CHAMBER CLOSES BUSY YEAR

Hustling Commercial Organization Points to Record of Accomplishment.

THINGS YET BIGGER AHEAD

Various Bureaus Touch Every Activity of City's Life—Newly-Elected President Is Active Newspaper Man.

EUGENE, Jan. 27.—(Special.)—The Eugene Chamber of Commerce began the second year of its existence Monday with a record of accomplishment unequalled by the Eugene Commercial Club, of which it is the successor. The plan of the organization was not only changed in January, 1916, but its policy was changed from building-up through publicity to organization for constructive development. The outstanding feature of the year's work by the nine bureaus which have been organized in the Chamber is that many new projects of far-reaching importance have been undertaken, and that the work has been made self-sustaining.

Joseph Koke, president, and George Quayle, secretary, have worked early and late on community problems, making a special effort to bring about complete understanding and sympathy between Eugene and the surrounding country, working on the theory that a city can grow no faster than the country in which it is located.

Flax Project Stands Out.
The greatest development project of the year has been the flax experiment, in which the Portland Chamber of Commerce has taken an interest and toward which it contributed \$1000. Its success is attested by the fact that a company to be financed by Will Lipman, of Portland, and David And and George Quayle, of Eugene, for the purpose of erecting a plant capable of handling flax from 1900 to 1900 acres annually has been announced as a private enterprise.

The possibilities of growing flax and developing a great linen industry in Oregon, the members of the Eugene Chamber of Commerce believe has been shown conclusively by a contract with a Belfast firm to supply flax fiber for the manufacture of linen handkerchiefs at a price of about \$1000 a ton. It was announced Monday night that this contract had been canceled by the Belfast firm, but a cablegram has since been received asking that the shipment of the fibre be made at once.

Every Activity Touched.
The various bureaus of the chamber touch every activity in the city's life. Questions for the benefit of the farmer have been agitated, good roads have been advocated, money has been spent in support of the University of Oregon, civic improvements have been favored, adoption of an extension of the city's ornamental lighting system has been secured, home industry has been encouraged, trade excursions have been conducted, investors have been advised, and small growing institutions have been assisted financially. The activities show the wide range of the year's work by the Eugene Chamber of Commerce.

The new officers of the club elected were: Frank Jenkins, president; Dr. T. T. Miller, vice-president, and B. Brundage, treasurer. The election of secretary will take place in March, after the reorganization of the various bureaus.

President Is Newspaper Man.
Frank Jenkins, newly-elected president, is the editor of the Eugene Morning Register. He came to Oregon and located in this city 10 years ago, and has been engaged continually in newspaper work since his arrival in the state. For several years he was the Eugene correspondent of The Oregonian, and in addition, wrote articles for syndicate publication. Five years ago, he purchased the interest of W. G. Gilstrap in the Eugene Register and became its editor.

Mr. Jenkins was born in Indianapolis, Iowa, where he spent his boyhood, and was graduated from Simpson College. He was married in 1912 to Miss Ray Woodruff, of Eugene, a graduate of the University of Oregon. They have one child, a daughter.

Mr. Jenkins has been elected as president of the Chamber of Commerce, after serving one year as vice-president.

JUG OF GOLD TALE DOUBTED

Relative of Man Named in Odd Request Says Aunt Had \$1800.

CENTRALIA, Wash., Jan. 27.—(Special.)—When informed that a will made by W. P. Bryan in 1888 and bequeathing to the finder of a half-gallon jug of gold buried on his old home place had been found, Allan Miller, a nephew-in-law of Bryan, who is at present working in Tacoma, stated that he doubted the existence of the gold. Miller, however, said that three days before the death of the aunt, Mrs. Bryan, he gave her \$1800, the disposition of which never was ascertained. This occurred many years after Bryan's death. The will was found in an old house on the homestead of Miller's son.

REV. MR. ACKERSON CALLED

Chehalis Presbyterian Church Wants Pastor Late of Summer.

CHEHALIS, Wash., Jan. 27.—(Special.)—At a meeting of the congregation of the Presbyterian Church on Thursday night Rev. T. D. Ackerson, late of Sumner, was called to the pulpit left vacant here by the resignation of Rev. H. A. Chittenden, who takes up the pastorate at Sumner February 1.

The call of Rev. Mr. Ackerson to Chehalis hinges upon whether or not he will accept a place at Whitworth College, which has been offered him. Within 15 minutes during the meeting a back debt of \$700 was wiped out by pledges which are redeemable in the coming six months.

A dinner was served prior to the business session by the Ladies' Guild of the church in celebration of the last payment of the church debt. At the close of the dinner the \$3000 mortgage was burned.

PUT CREAM IN NOSE AND STOP CATARRH

Tells How To Open Clogged Nostrils and End Head-Colds.

You feel fine in a few moments. Your cold in head or catarrh will be gone. Your clogged nostrils will open. The air passages of your head will clear and you can breathe freely. No more dullness, headache, no hawking, snuffling, mucous discharges or dryness; no struggling for breath at night. Tell your druggist you want a small bottle of Ely's Cream Balm. Apply a little of this fragrant, antiseptic cream to your nostrils, let it penetrate through every air passage of the head; soothe and heal the swollen, inflamed mucous membrane, and relief comes instantly. It is just what every cold and catarrh sufferer needs. Don't stay stuffed-up and miserable—Act.

THE DALLES WINS DEBATE

Wasco Negative on Health Insurance Issue Is Beaten.

THE DALLES, Or., Jan. 27.—(Special.)—The Dalles High School affirmative debate team defeated the Wasco negative team in the first interscholastic debate held here this year. The debate was held before a full auditorium at the High School building.

The debaters on The Dalles team were Bernice Bright and Hugh Hadley, and on the Wasco team, Matilda May and Clarence Yocum. Mr. Kirk, of the High School Board, acted as chairman.

The question was "Resolved, That Oregon should adopt a health insurance law embodying the essential features of the standard bill of the American Association for Labor Legislation."

INCOMING AND RETIRING PRESIDENTS OF EUGENE CHAMBER OF COMMERCE.

Left—Frank Jenkins, Editor of the Register, Newly Elected President. Right—Joseph Koke, Who Closes Successful Year as President.

ures of the standard bill of the American Association for Labor Legislation."

CHEHALIS MAN IS DEAD

Edward Burbee Is Buried at Toledo by Oddfellows' Lodge.

CHEHALIS, Wash., Jan. 27.—(Special.)—Edward Burbee, who died on Thursday at the family home in Chehalis, was 72 years of age and had been a resident of Southwest Washington since childhood, his father having come to the territory in 1847, locating first at Vancouver and later at Monticello.

A son, Emil Burbee, of Chehalis, and a daughter, Mrs. W. Wyckman, of Castle Rock, survive. Four brothers—August and Albert Burbee, of Chehalis; John Burbee, of Porter, and Norman Burbee, of Castle Rock, all elderly—are also living.

The funeral services were held at Toledo this afternoon at the Oddfellows' Hall under the auspices of the Oddfellows' Lodge. Interment was in the Toledo cemetery. Mr. Burbee had been a resident of Chehalis for many years.

WILLAMETTE TESTS NEAR

Student Activities at Standstill Until Next Semester.

WILLAMETTE UNIVERSITY, Salem, Or., Jan. 27.—(Special.)—The semester examinations are now the chief center of interest on the campus. They commenced Monday and will last throughout the week. As a result practically all student activities have ceased and all are getting in extra hours "cramming."

Registration for the second semester will be open February 3 and 4. Classes will be resumed Tuesday, February 6. Several new students will enter for the next semester.

"THE PRINCE CHAP" PLAY

IS READ BY MRS. CHILDS

Affair Under Auspices of Oregon City Woman's Club Proves Successful Occasion.

Mrs. Charles Childs, of Brownsville, formerly Miss Mary Sandstrom, of this city, presented a dramatic reading of the drama, "The Prince Chap," at the Congregational Church last night. The affair was given under the auspices of the Oregon City Woman's Club and for the benefit of the scholarship fund.

The church was well filled, as the reading and the musical programme, which rounded out the evening, were the biggest club event of the season here.

Assisting Mrs. Childs were Miss Mabel Irene Volkman, a well-known local pianist, and Dr. Roy A. Prudden, soloist. Mrs. Childs, Miss Volkman, and Dr. Prudden donated their services so as to swell the loan fund as much as possible.

Mrs. Childs graduated from the Oregon City High School, and later took a course in the Cheney State Normal at Cheney, Wash., from which she went to Boston, taking a special course in the Emerson College of Oratory. She later accepted a position at the Westlake School for Girls at Los Angeles, and later on at the California State Normal. Miss Volkman, a pupil of Mrs. Lena W. Chambers, of Portland, is a graduate of the Oregon Agricultural College, and has appeared here in concert a number of times. Dr. Prudden is prominent in local church work and in music.

BENGROUT SKILLED

Ex-Oregon Football Player Is Caught by Alaskan Slide.

BODY TO BE BROUGHT BACK

Death Occurs Near Juneau—Wife Is Portland Girl and Parents Reside at La Grande—Snow Does Much Damage.

LA GRANDE, Or., Jan. 27.—(Special.)—Ben Grout, son of Mr. and Mrs. E. E. Grout, of this city, was killed by a snowslide near Juneau, Alaska, where he was employed as an accountant. The body is being brought to La Grande for burial by the widow and year-old son. The widow was formerly Miss Pratt, of Portland. She and her husband were graduates from the University of Oregon, where the young man was prominent in football. Until last year he had been teaching at Hood River and in Portland.

REEDSPORT HAS BOOM

NEWS OF BIG TIMBER DEAL CAUSES DEMAND FOR TOWN LOTS.

Speculators Are Disappointed.

MARSHFIELD, Or., Jan. 27.—(Special.)—News of the probable heavy investment in paper spruce timber on the Umpqua and Smith Rivers in Douglas County by the International Paper Company caused widespread interest over the entire Coast section of Southwest Oregon. Work on the foundation has been started upon as certain of making some point on the Umpqua River the rival of any manufacturing locality in the state of Oregon.

Inquiries have been coming from all directions as to the magnitude of the affair and speculators have been flooding Reedport townsite, with appeals for lots in the large tract which the company has bought, and of which but a small portion was sold.

Since the townsite goes with the International Paper Company option, those who would speculate will have to wait until the company places the property on the market, and many were sorely disappointed.

Cruising of the timber will occupy between six weeks and two months and this time will elapse before any movement will be made by the prospective purchasers.

If the company selects Reedport, which seems probable, as the center for their manufacturing plants and business operations, that town will see a most wonderful growth, for it will be the home and tributary converging point for all the concentrated mills and the outlying logging camps, which will probably number from seven to 15.

Several thousand men would be required, it is said, properly to carry on the work and hurry it to completion in the shortest time possible, that the company may commence to reap some of the new rewards apparent in the manufacture of paper.

FARM LOAN BODY PLANNED

La Grande Farmers Sign Roll and Organization Monday Likely.

LA GRANDE, Or., Jan. 27.—(Special.)—Eight farmers had signed up tonight to form a farm loan association in this vicinity, following a meeting of farmers and business men here today. It is known that at least four others want to sign and it is deemed certain that the association will take concrete form Monday.

The working principles were explained to the farmers and some expressed themselves as dissatisfied with the law, deeming it impractical.

La Grande Streets Flooded.

LA GRANDE, Or., Jan. 27.—(Special.)

Heavy rain today is bringing about a rather serious condition on La Grande streets. Sewers are unable to carry off the water and slush several inches deep is hindering pedestrians.

Minister Gets Ashland Farewell.

ASHLAND, Or., Jan. 27.—(Special.)—Rev. J. E. Smith, old-time resident of this city, is about to leave with his family for a permanent residence in San Diego. Since residing here he has been pastor of the Methodist Church, president of the Chautauqua Association and commander of Burnside Post, G. A. R. A general reception was tendered him on Friday evening, and he has been invited to preach a farewell sermon at the Methodist Church on Sunday, January 28. The family leaves for Southern California February 1.

Spelling Contest Arranged.

CENTRALIA, Wash., Jan. 27.—(Special.)—A. C. Canterbury, Lewis County Superintendent of Schools, has been in Centralia for the past few days arranging for the participation of the local schools in the county spelling contest, arranged to select a pupil to represent the county in the state spelling match in Olympia on March 5. Tryouts will be held in each of the local schools on February 2, the three highest in each school to engage in an elimination contest.

Dubois Holdings Cruised.

ASTORIA, Or., Jan. 27.—(Special.)—According to the records in the Court-house, the Clatsop County holdings of the Dubois Lumber Company, all of which are to be sold, have been included in the recent sale to Ogden capitalists, comprising 24,627 acres of timber land. The county gives the amount of United States for seven years.

Dane Held on Return Visit.

CHEHALIS, Wash., Jan. 27.—(Special.)—Peter Nelson, formerly of Winlock, who left some time ago for a visit to his home in Denmark, writes that he has been impressed into army service in that country. Mr. Nelson had neglected to take out citizenship papers, though he had been in the United States for seven years.

A Nervous Wreck at 46

A Miracle of Strength and Vitality

at Fifty—Taking Iron Did It

Doctor Says Nuxated Iron Is Greatest of All Strength Builders—Often Increases the Strength and Endurance of Delicate, Nervous Folks 200 Per Cent in Two Weeks' Time.

NEW YORK, N. Y.

Not long ago a man came to me who was nearly half a century old and asked me to give him a preliminary examination for life insurance. I was astonished to find him with the blood pressure of a boy of 20 and as full of vigor, vim and vitality as a young man; in fact, a young man he really was notwithstanding his age. The secret he said was taking iron—Nuxated Iron had filled him with strength and vitality. At 50 he was in bad health; at 48 careworn and nearly all in. Now at 50, after taking Nuxated Iron, a miracle of vitality and his face beaming with the buoyancy of youth. As I have said a hundred times over, this is the greatest of all strength builders. If people would only throw away patent medicines and nauseous concoctions and take simple Nuxated Iron I am convinced that the lives of thousands of persons might be saved who now die every year from pneumonia, grippe, consumption, kidney, liver and heart trouble, etc. The real and true cause which started their diseases was nothing more or less than weakened condition brought on by lack of iron in the blood. Iron is absolutely necessary to enable your blood to change food into life and health. Without it, no matter how much or what you eat, your food merely passes through you without doing you any good. You don't get the strength out of it, and as a consequence you become weak, pale and sickly looking. Just like a plant trying to grow in a soil deficient in iron. If you are not strong or well, you owe it to yourself to make the following test: See how long you can work or how far you can walk without becoming tired. Next, take two five-grain tablets of ordinary Nuxated Iron three times per day after meals for two weeks. Then test your strength again and see for yourself how much you have gained. I have seen dozens of persons, run-down people who were ailing all the while, double their strength and endurance and entirely get rid of all symptoms of dyspepsia, liver and other troubles in from ten to fourteen days' time simply by taking iron in the proper form. And this after they had in some cases been doctoring for months without obtaining any benefit. But don't take the old forms of reduced iron, iron acetate or tincture of iron simply to save a few cents. You must take iron in a form that can be easily absorbed and assimilated like Nuxated Iron if you want to feel any good, otherwise it may prove worse than useless. Many athletes have won the day simply because they knew the strength builders. If people would only throw away patent medicines and nauseous concoctions and take simple Nuxated Iron I am convinced that the lives of thousands of persons might be saved who now die every year from pneumonia, grippe, consumption, kidney, liver and heart trouble, etc. The real and true cause which started their diseases was nothing more or less than weakened condition brought on by lack of iron in the blood. Iron is absolutely necessary to enable your blood to change food into life and health. Without it, no matter how much or what you eat, your food merely passes through you without doing you any good. You don't get the strength out of it, and as a consequence you become weak, pale and sickly looking. Just like a plant trying to grow in a soil deficient in iron. If you are not strong or well, you owe it to yourself to make the following test: See how long you can work or how far you can walk without becoming tired. Next, take two five-grain tablets of ordinary Nuxated Iron three times per day after meals for two weeks. Then test your strength again and see for yourself how much you have gained. I have seen dozens of persons, run-down people who were ailing all the while, double their strength and endurance and entirely get rid of all symptoms of dyspepsia, liver and other troubles in from ten to fourteen days' time simply by taking iron in the proper form. And this after they had in some cases been doctoring for months without obtaining any benefit. But don't take the old forms of reduced iron, iron acetate or tincture of iron simply to save a few cents. You must take iron in a form that can be easily absorbed and assimilated like Nuxated Iron if you want to feel any good, otherwise it may prove worse than useless. Many athletes have won the day simply because they knew the strength builders. If people would only throw away patent medicines and nauseous concoctions and take simple Nuxated Iron I am convinced that the lives of thousands of persons might be saved who now die every year from pneumonia, grippe, consumption, kidney, liver and heart trouble, etc. The real and true cause which started their diseases was nothing more or less than weakened condition brought on by lack of iron in the blood. Iron is absolutely necessary to enable your blood to change food into life and health. Without it, no matter how much or what you eat, your food merely passes through you without doing you any good.
