

New York City.

New York City.

Equipped by life-long habits of observation, and helped by access to numerous official papers, diaries, and personal letters of officers and enlisted men in which battle scenes as they actually existed are described, this book is one of the notable warrecords of the year.

From the viewpoint of a British exponent, we read a fair, candid and intelligent account of the British campaign in France and Flanders, in the year 1914, the time the big war began. As a permanent record, the book will go far, and is sure to be highly

year 1914, the time the big war began. As a permanent record, the book will go far, and is sure to be highly valued. No spirit of boasting is shown, and it is agreeable to note that German opponents are not abused, but receive fair treatment.

The chapter heads are: "The Breaking of Peace," "The Opening of the War," "The Battle of Mons," "The Battle of Le Cateau," "the Battle of the Marne." "The Battle of the Aisne," "The La-Basse-Armentieres Operations," "The First Battle of Ypres," "A Retrospect and General Summary," and "The Winter Lull of 1914."

It is stated that early in the war, particularly at the period of and about the Battle of Mons, "the British made the mistake several times of trusting surgeons and orderlies to the enemy's morcy, with the result that they were inhumanly treated, both by the authorities at the front and by the populace in Germany, whither they were conveyed as starving prisoners of war. For the first six months, the German's treatment of prisoners was brutal in the extreme, and frequently accompanied by torture and neglect."

It is estimated that the desperate struggle of December 6, 7, 8 and 9, 1914, between Von Kluck and the French General Maunoury, was the first turning point of the war. Von Kluck saw that the French general must be crushed, and he "passed back two army corps across the Ourcq and fell upon the French with such violence that for two days it was impossible to say which side would win. At fell upon the French with such violence that for two days it was impossible to say which side would win. At
one time the situation feemed desperate, but 20,000 men, odds and ends of
every kind—Republican guards, gendarmes and others—were rushed out
from Paris in a five-mile line of automobiles, and the action was restored.
Only on the morning of the 10th did
the Germans withdraw in despair, held
in the front by the brave Maunoury,
and in danger of being cut off by the
British to the east of them."

With reference to the usefulness of
aeroplanes, it is stated that it is only
when weather interferes and prevents

After the battle of the Marne, it was found that the Germans had perfected, with the aid of petrol, a method of burning their dead. "Apart from the losses the mere fact that a great German army had been hustled to the safe."

aided in upbuilding their country—the men who have contributed to the efficiency and happiness of their fellow men. If America is to have an aristocracy, let it be so builded. And our future will be safe. across 30 miles of country, had been driven from river to river, and had fin-ally to take refuge in trenches in or-

broken through the British at Gheluv-elt, in the series of fights at the first battle of Ypres, they would have hacked their way to the sea, and thus

Philosophy can bake no bread, but she can sive us God, freedom and immortality."

FREDERICH VON HARDENBERG.

Charles M. Schwab, Author of "Succeeding With What You Have" A Book of Bright Optimism.

when weather interferes and prevents are oplanes from rising, that a general realizes how indispensable these machines have become to him. "As a wit expressed it, they have turned war from a game of cards into a game of chess."

After the battle of the Marpe, it

Oh, Mary, Be Careful! by George Weston. \$1. Illustrated, J. B. Lippincett Co., Philadelphia.

der to hold their ground, was a great encouragement to the allies. The battle must also be regarded as a fixed point in military history, since it was the first time since the days of the great Napoleon that a Prussian army had been turned and driven. It is impossible not to admire the way in which the German general in command-observed and tried to profit by any gap in the British line."

At the battle of the Alsne, the Brit-

"It would be an ungenerous foe who would not admit that the Germans had fought bravely and well. Not all our hatred for their national ideals nor our contempt for their carfty misleaders can prevent us from saluting those German officers and soldiers who poured out their blood like water in the attempt to do that which was impossible."

Such is the first of the big war books of the conflict, from a British viewpoint. The time has not come as yet to get the German side of the question.

Succeeding With What You Have, by Charles M. Schwab. 50 cents. The Century Co. New Tork City.

ford College for Women, Rockford, Ill. Her book consists of three public addresses ahe delivered, and in them she discusses, with prudence and entertaining qualities, the problems of democracy and public efficiency, with glances at the exactitude of autocracy. She preaches a new call to patriotism, and becomes a valiant defeuder of real democracy. Her book is most helpful.

The three addresses are: "The Essence of Democracy," "The Efficiency of Democracy," and "American Women's Contribution to Democracy."

Going Abroad Overland, by Rev. David M. Steel. \$1.50. Illustrated. G. P. Putnam's Sons, New York City.

Sons, New York City.

Our author is rector of the Episcopal Church of St. Luke and the Epiphany, Philadelphia. His travel book is the glowing record of three trips to the West, made by Dr. Steele, a journey in which he has traveled 20,000 miles. The messages were written originally as weekly articles for the religious page of the Philadelphia Press newspaper. They have decided graphic, descriptive value.

Dr. Steele, in your next trips to the West, remember the Pacific North-

Garden Ornaments, by Mary H. Northend, Hlustrated. \$2.50. Duffield & Co., New York City.

Embellished by 32 full-page illustrations, this book has practical, educational value. The gardens described are mostly of an extensive, ambitious character. The pages describe the character. The pages describe the various kinds of ornaments and furni-ture which add to the beauty and delight of a garden—pergolas, tea-houses, entrances, pools, sundials, fountains, bird baths, paths, steps and pottery, and how best to fit them into one's garden scheme.

An English novel, with a recital so creeping a realism so gripping, that the story reminds one of the black art of E. A. Poe. "The Beetle," and what happened to Richard Holt, unemployed clerk, has such powerful appeal that it had better not be read in the solitude of one's room. Highly-strung women should not read it. The Beetle, the individual, is a monster.

Succeeds the late Admiral Dewey as president of the General Board of the Navy, retaining also his duties as chief of naval operations. Admiral Benson was next in rank to Admiral Dewey.
