The present only products the use of selnes and set nets in the Lower Rogue, but permits gill or driftnet fishing. Friends of the Macleay interests as-sert its passage practically puts Rod-erick Macleay, of the Macleay estate, which owns 6000 acres along the river and puts up the hulk of the selmon and puts up the bulk of the salmon pack from that river, out of business.

### Monopoly Declared Ended.

Sponsors of the bill, on the other hand, say it does not put Macleay out of business, but that it does end a oneman monopoly of the Rogue fishing industry. The Rogue River bill has been be-
