STEALING OF LOVE LAID TO ANOTHER

Cameron Defense Charges Jesse Troeh Alienated Mrs. Cadwallader's Affections.

$1000 SETTLEMENT CITED

Ex-Husband Accuses Wealthy Timberman of Undue Attentions and Joy Rides While Woman Was in His Employ.

The defense for James E. Cameron, well-to-do timberman, accused by Charles L. Cadwallader of alienating the affections of Mrs. Cadwallader—affections valued at $50,000—executed a flank movement yesterday when it charged that Jesse Troeh and not Mr. Cameron stole the love of Mrs. Cadwallader, and, further, that Mr. Troeh paid Mr. Cadwallader $1000 to avoid a threatened suit.

This accusation, which the defense maintains it is prepared to prove, was made in the opening statements of Attorneys John McCourt and Elton Watkins to a jury in the court of Circuit Judge Davis. Testimony in the suit will begin Monday morning.

The alienation suit was begun after Mr. Cadwallader had secured a divorce from his wife, November 25, 1916, on grounds of desertion. In his opening statement to the jury Mr. McCourt alleged that the reason for the alleged desertion of Mrs. Cadwallader was the failure of her husband to support her. He went on to assert that before the divorce proceedings were begun by Mr. Cadwallader that Mr. Cadwallader had accused his wife of being intimate with Jesse Troeh and had demanded of Mr. Troeh money as the alternative of a suit.

Date of Note Given.

The attorney charged that in April, 1916, Mr. Troeh gave Mr. Cadwallader his note for $1000 to avoid trouble.

The defense holds that Mr. Cameron had no more interest in the young woman than was natural in an employer for an employe who had been in his office several years. Mrs. Cadwallader was a stenographer in Mr. Cameron's employ before she was married, and remained in his employ after marriage.

Gifts of candy at holiday seasons and other attentions, including "joy-rides," are charged up to Mr. Cameron by Mr. Cadwallader. In a deposition of Mr. Cadwallader, taken shortly after the filing of the suit, Mr. Cadwallader said the joyrides he remembered were on two occasions, when Mr. Cameron had called for himself and wife on a Sunday and had gone for a daylight trip out the Columbia River Highway. Mr. Cameron paid for the luncheon on one of these trips at Chanticler Inn, and monopolized the conversation, testified Mr. Cadwallader.

Taxi Rides Also Charged.

Taxi rides were also alleged in the complaint. In his deposition Mr. Cadwallader said that Mr. Cameron had sent a taxi for his wife to aid her in going to work last Winter during the heavy snow when car service was demoralized. Another time, he said, someone told him that his wife had been riding in the automobile of Mr. Cameron on the East Side. Mr. Cameron sent Mrs. Cadwallader home from work in his private automobile driven by his private chauffeur several times, said Mr. Cadwallader.

Attorney Henry S. Westbrook appears for the plaintiff in the suit.

Mr. Cameron has timber interests in Camas and Goldendale, Wash., and is president of the Cameron-Taylor Lumber Company, of Bull Run, Or. He is married and has five children.

CO-EDS CHOOSE ESCORTS

Reed College Girls Assume All of Men's Usual Prerogatives.

Reed College women will not only assume equal rights at the dance which they are planning to give March 4, but also most of the prerogatives which have usually been the sole right of the men students. The girls have taken it upon themselves personally to invite the men of their own choosing and the only choice left to the men is the old one which for ages has belonged to their sisters, either accepting or refusing the offer.

The women are assuming all the financial responsibility and making all the arrangements, even to filling out the men's programmes for them.

"CASCARETS" FOR YOUR BOWELS IF HEADACHY, SICK

For Biliousness, Bad Breath, Colds, Indigestion and Constipation.

Enjoy Life! Liven Your Liver and Bowels Tonight and Feel Fine.

Your tongue is coated! Look inside your watch cover and see! That's bad business. What have you been eating? What kind of a lazy chair did you take exercise in? Now don't think it doesn't matter, because, it's your bowels that talk now every time you open your mouth. That doesn't help your popularity, nor your earning capacity. Besides, a person with bad bowels is in a bad way and a coated tongue or a bad breath are sure signs of bad bowels and poor digestion.

Why don't you get a 10-cent box of Cascarets at any drug store and give your liver and thirty feet of bowels the nicest, gentlest cleansing they ever experienced? Take one or two Cascarets tonight and wake up feeling fine and fit. All Headache, Dullness, Biliousness, Bad Breath, Stomach Sourness, Cold and Constipation gone—wake up with your head clear, tongue clean, stomach sweet, liver and bowels active, step elastic and complexion rosy.

Cascarets work while you sleep—never gripe or sicken. Cascarets act so gently that you hardly realize you have taken a thorough cathartic. They don't bother you all next day like salts, pills, oil or calomel—Cascarets being perfectly harmless is best children's laxative.—Adv.

NEW OFFICERS OF ROTARY CLUB ELECTED AT ANNUAL MEETING TUESDAY EVENING.

C. E. Cochran, President. C. B. Waters, Vice-President.

J. L. Wright, Secretary. W. L. Whiting, Assistant Secretary.

ROTARY HEAD NAMED

Charles E. Cochran Is President of Portland Club.

OTHER OFFICERS ELECTED

Real Service to Community Will Continue to Be Policy for Ensuing Twelve Months, Says New Leader.

A year of results comparable to those achieved during the year 1916 by the Portland Rotary Club, is promised for the coming 12 months by the new set of officers which was elected at the annual meeting Tuesday night. The new president of the organization, Charles E. Cochran, defines the policy and programme of Rotary as follows:

"Rotary is a voluntary association of business men chosen according to a process designed to eliminate competition and dedicated to the development in each member of a new capability for service.

"The programme of the Rotary Club for 1917 will major on three features: "Information, Unselfishness and Service.

Members Business Leaders.

"The membership in the Rotary Club comes from the business and professional men of Portland. As a rule they are the leaders in their line of activity. If they are not such at the time they become members, it is only a question of time when they will become such by the practice of the ethics of Rotary.

"The business man is in danger of becoming isolated by too close adherence to business. While he is as straight as Euclid's line, which is the shortest distance between two points, he is likely to become as narrow.

"Rotary insists that the business man become informed, broadminded and tolerant; that he know at all times the condition of his own business and understand the profession or trade to which he belongs, sufficient to survive competition and a growing desire to increase his knowledge of all other subjects.

"Rotary finds expression in a righteous regard for self-interest, without selfishness. They are good forgetters of petty jealousies, cutting criticisms and the little things which mar and dwarf, and at once commend the endeavors of any man designed to promote the general welfare.

Community Service Proposed.

"Rotary proposes to be of real service to the community. It will be interested in public afairs. It will not become a partisan to persons, but will to principles. Its members have learned that the income account in business increases in proportion to the quality of service rendered, and have laid it down as a rule: 'He Profits Most Who Serves Best.'"

Other officials chosen at Tuesday night's election are as follows: Vice-president, C. B. Walters; secretary, J. L. Wright; treasurer, Estes Snedecor; assistant secretary, W. L. Whiting. The secretary, treasurer, and assistant secretary have all held office the preceding year and were re-elected.

WILLIAM ANGLE IS DEAD

Late Medford Man Descendant From William Penn.

MEDFORD, Or., Feb. 17.—(Special.)—William Angle, aged 77, died at his home here Thursday. Mr. Angle was a native of Pennsylvania and a descendant of William Penn. He came West as a young man and located in Jacksonville.

He married Mary S. Walker December 23, 1878. To this union five children were born, four of whom are living. He came to Medford in 1884 and started the firm of Angle & Plymale, general merchandise. He was in business for many years. He built the Opera block. He leaves a widow, three daughters, Mrs. Prudence Platt, Mrs. Katherine Gaddis and Mrs. Berniece Howard, and one son, Charles F. Angle, all of Medford; also one brother, L. L. Angle, of Ashland.

Ashland Library Shows Growth.

ASHLAND, Or., Feb. 17.—(Special.)—The city Library circulated 31,326 volumes in 1916, according to a report filed by the Library Commission with city authorities. Only two books were lost, 35 being condemned. The institution gained 585 volumes during the year, mainly by purchase. There are 2916 specific borrowers' cards on file. The state Library, through local channels, has also been made available.

Estes Snedecor, Treasurer.

LUMBERMEN TO MEET

WEST COAST ASSOCIATION WILL HOLD SESSION AT SEATTLE.

Mill Problems and Especially Car Shortage Will Be Topics Up for Discussion.

The West Coast Lumbermen's Association will hold its regular monthly meeting at the New Washington Hotel, Seattle, on Friday afternoon, February 23. Preceding this association meeting will be the annual meeting of the Pacific Lumber Inspection Bureau, the certificate of which is recognized by practically every foreign government and every exporter and importer of lumber in the world.

It is announced that the association meeting will be devoted primarily to the discussion of mill problems which now confront the industry, with special attention being paid to the handling of lumber at the mills, a problem said to be constantly becoming more serious in view of the car shortage and the continual accumulation of unshipped orders.

O. P. M. Goss, consulting engineer of the West Coast Lumbermen's Association, will be one of the principal speakers before the Northwest Mining Convention, at Spokane, Wash., on February 21. Mr. Goss will discuss the use of structural timber in mining operations and also the increasing use of wood stave pipe.

COUPLE HELD FOR TRIAL

Son of Prominent Palouse Country Banker Involved in Case.

LEWISTON, Idaho, Feb. 17.—(Special.)—Preliminary examination has been waived in Judge Erb's court by Gladys Rodeen and Earl Whitlow, of Pullman, Wash., on a serious charge, and both were held to the District Court for trial during the March term.

The defendants were arrested in Lewiston on December 30 upon complaint of the woman's husband, who is also a resident of Pullman. It was charged by the husband that Mrs. Rodeen and Whitlow occupied a room at the Bollinger Hotel, giving fictitious names on the hotel register.

The families of both defendants are socially prominent in the Palouse country. Whitlow is the son of Mark Whitlow, one of the Commissioners of Whitman County, and who has extensive land and banking interests in the Inland Empire.

Pomeroy Plans 3 Days' Celebration.

POMEROY, Wash., Feb. 17.—(Special.)—Members of the Pomeroy fire department received permission from the City Council Wednesday to handle the local Fourth of July celebration, which will be staged for three days, July 2, 3 and 4. Virgil Chenea, Paul Rambo and Herbert Gillis compose a committee to handle the festivities.

In proportion to its size a fly walks 13 times as fast as a man can run.

RUSSIAN TALKS SET

Professor J. B. Landfield to Tell of Notables Known.

WIFE IS RUSSIAN PRINCESS

Discussions of Problems of Day Also Are to Be Features of Lectures to Be Held at Little Theater This Month.

"Turgeniev and Tolstoi" is the subject for the lecture which Professor Jerome Barker Landfield, formerly of the University of California, will give at the Little Theater, Twenty-third street near Washington, on Monday at 3 o'clock.

The lecture is the third in a series that Professor Landfield is giving in Portland on notable Russian writers and current events from observations gathered by him in extensive travels in Europe and Asia and from personal contact with some of the leading Russians.

Professor Landfield married the Princess Louba Lobanoff-Rostovsky, of St. Petersburg (Petrograd) and the alliance, together with his prominence in research work, subsequently brought him into intimate touch with the most noteworthy of the Russian intellectual and artistic leaders.

Intimate Touch Given Lecture.

These intimacies are reflected in his lectures on the Russian writers and his talks on European current events have the double value of being highly interesting and authentic. He is not only a fellow of the Royal Geographical Society and a member of the Russian Imperial Geographical Society, but he is a member of the American Historical Association, the American Institute of Mining Engineers and a member of the Phi Beta Kappa fraternity. He is also a member of the Delta Upsilon fraternity.

Professor Landfield led the mining explorations in Kirghiz Steppes in 1898, the Ural Mountains in 1899, the Chutkhotsk Peninsula, in Northeastern Siberia, in 1900 and the maritime provinces in Eastern Siberia in 1907.

For some years he was instructor in history at the University of California, ending that work in 1907 after a five years' term and taking up writing and lecturing and varied explorations.

Professor Landfield has been brought to Portland by Mrs. Walter Burrell and Mrs. Clarence Jacobson and during his stay in Portland he is the guest of Mr. and Mrs. E. W. Lazell, 350 Thirty-second street North.

Current Events Discussed.

A number of Portland intellectual leaders are interested in the Russian literature just at present, which is largely responsible for the choice of the lecture tomorrow afternoon on "Turgeniev and Tolstoi" and the subsequent lecture Wednesday afternoon, also at the Little Theater, on "Recent Russian Writers."

On Friday night, February 22, Professor Landfield begins a series of current events talks in which a number of Portland men and women are interested. He will talk at the Little Theater on "The Balkan Question, Russia and the Slavs." On the evening of Monday, February 26, his subject will be "Germany, Austria and the Project of Mittel-Europa." On Tuesday night, February 27, his subject will be "The Mexican Question, the Monroe Doctrine and the American Foreign Policy." "The Basis of Enduring Peace" will be discussed on the afternoon of February 28 as the probable concluding number in the lecture series.

The lectures are arranged on a non-profiting basis and are intended to satisfy a research hunger of the intellectually inclined in Portland. The first two lectures last week were largely attended and were the inspiration for considerable social activity as well.

PIONEER WOMAN IS DEAD

Mrs. M. S. Haas, Formerly of Polk County, Passes in Arizona.

COTTAGE GROVE, Or., Feb. 17.—(Special.)—Mrs. Matilda S. Haas, who died at Kingman, Ariz., February 5, and was buried at Mineral Park, Ariz., February 7, was born in Shelby County, Ohio, March 28, 1834, and crossed the plains to Oregon with her parents, William and Susanna Robinson, by ox team in 1847.

She was married to Washington L. Riggs in Polk County April 29, 1849. To this union were born seven children, of whom three survive: Ann C. Hubbard, of Falls City, Or.; John L. Riggs, of Chloride, Ariz., and Leroy W. Riggs, of Cottage Grove. She is also survived by one sister, Mrs. S. J. Scott, of Creswell, Or.

She was married about 1877 to James W. Haas in Mineral Park, Ariz., at which place she resided until death.

Frank S. Stone Is Dead.

SANDY, Or., Feb. 17.—(Special.)—Frank S. Stone died at his home, the Peek-a-boo farm, 10 miles east of Sandy, on the Mount Hood road, Thursday, after a lingering illness from stomach trouble. Mr. Stone was 42 years old and had lived in this vicinity several years. The funeral was held from the home today.

Ridgefield Girl Best Speller.

RIDGEFIELD, Wash., Feb. 14.—(Special.)—A spelling contest was held here last Friday in which the three best spellers from the seventh and eighth grades of the Pioneer school and the three best from the local school met to compete for the state spelling contest to be held at Olympia, Wash. Miss Dorothy Weber of the Ridgefield school, won and so will take part in the last county spelling match to be held at Vancouver next Friday. Miss Weber is the daughter of Mr. and Mrs. Hosmer H. Weber, of this place.

Convention Date to Be Set.

The executive board of the Pacific Coast Claim Agents' Association will meet Monday at 10 A. M. at 520 Electric building, and will set the date for the convention of the association which is to be held here next Summer. Other general plans for the convention will be considered tentatively at this meeting also. Members of the executive committee are: J. H. Handlon, of San Francisco; A. M. Lee, of Seattle; F. M. Hamilton, of Seattle; D. C. Davis, of Tacoma; C. A. Blackburn, of Butte, Mont., and T. G. Aston, of Spokane.

STREET WORK PROPOSED

Paving of Morrison Link Is Contemplated.

Proceedings are to be started at once for the paving of Morrison street, between Chapman and Stout streets over a fill constructed about five years ago between the grounds of the Multnomah Amateur Athletic Association and the old exposition building grounds. A petition signed by the owners of the greater part of the ground was filed yesterday with Commissioner Dieck.

The improvement if put through will be about 600 feet in length and will connect Morrison street with Washington street for traffic, which is diverted now because the stretch is not paved. The plans call for the extension of the tracks of the Portland Railway, Light & Power Company along the street, and this company therefore will bear a large part of the cost of the improvement.

Coos Knights of Pythias to Meet.

MARSHFIELD, Or., Feb. 17.—(Special.)—The Coos County Knights of Pythias lodges have arranged to hold their annual convention at Coquille February 18, when visiting grand officers, Leslie E. Crouch and Jack Clark, of Portland, will be present. The afternoon will be devoted to business and the evening will be taken up with a banquet and a social time. One of the oldest Knights of Pythias orders in the state, Myrtle Lodge No. 3, is located in Marshfield.

BREAKS A COLD IN A HURRY

"Pape's Cold Compound" is pleasant and affords Instant Relief.

A dose taken every two hours until three doses are taken will end grippe misery and break up a cold.

It promptly opens clogged-up nostrils and air passages in the head, stops nasty discharge or nose running, relieves sick headache, dullness, feverishness, sore throat, sneezing, soreness and stiffness.

Don't stay 'uffed-up! Quit blowing and snuffling! Ease your throbbing head! Nothing else in the world gives such prompt relief as "Pape's Cold Compound," which costs only 25 cents at any drug store. It acts without assistance, tastes nice, causes no inconvenience. Be sure you get the genuine. Don't accept something else.

Do You Realize the Benefits and Delights of a

Proper Morning Toilette?

Try These Special Suggestions

A FEW moments spent each morning in the proper care of the mouth, throat and nasal passages will go far toward making the entire day more pleasant and more worth while. It will not only make you more comfortable, but it will lend a feeling of exhilaration and protect you from all manner of germ contagion, such as colds and grippe, as well as the more dangerous contagious diseases.

Try these suggestions for even two or three mornings, and you will find them so beneficial and pleasant that you will surely wish to continue.

When you first arise, go into the bathroom and bathe, as is your usual custom. Then cleanse your teeth with Benetol Tooth Cream. This is the only tooth cream in the world that is really antiseptic and germicidal (others claim to be, but they cannot show any real germicidal strength.)

Now put from 12 to 20 drops of Benetol in a glass and fill it with hot water. With this, rinse your mouth and gargle your throat. Drink what is left down to a small quantity. Dilute this still further by about 4 to 1. With this, either use a nasal douche or snuffle it up your nose to clear out all the accumulated phlegm and catarrhal inflammation.

When you use Benetol as your morning mouth wash and gargle, we would strongly urge that you swallow a part of it. This will sterilize the stomach and bowels, prevent stomach trouble, dure dyspepsia, indigestion, gas on the stomach and ulceration of the stomach.

In fact, the more you use Benetol products, the more you will value them as being far superior to any others.

One trial of Benetol Ointment will convince you that nothing has ever equalled this preparation as a tonic for the skin. It is an absolute physical impossibility for a man to contract "Barber's Itch" or any other contagious skin disease if he uses "Benetol" or "Benetol Ointment."

Try these suggestions—rinse your mouth—gargle and swallow—"Benetol." You will feel so clean—so sterilized—so antiseptically clean—that you will never go back to the old way.

Full directions for the use of these articles packed in every carton.

CAUTION—Always insist that your druggist supply you with Benetol in the original red cartons.

All Druggists Sell All Benetol Products and Recommend Them as the Best for the Purposes for Which They Are Advised.

Manufactured Only by THE BENETOL CO., Benetol Bldg., Minneapolis, Minn.

City Physicians Explain Why They Prescribe Nuxated Iron

To Make Beautiful, Healthy Women and Strong Vigorous Men

NOW BEING USED BY OVER THREE MILLION PEOPLE ANNUALLY

Quickly transforms the flabby flesh, toneless tissues, and pallid cheeks of weak, anaemic men and women into a perfect glow of health and beauty—Often increases the strength of delicate, nervous, run-down folks 200 per cent in two weeks' time.

New York, N. Y.—It is conservatively estimated that over three million people annually in this country alone are taking Nuxated Iron. Such astonishing results have been reported from its use, both by doctors and laymen, that a number of physicians in various parts of the country have been asked to explain why they prescribe it so extensively, and why it apparently produces so much better results than were obtained from the old forms of inorganic iron.

Extracts from some of the letters received are given below:

Dr. King, a New York physician and author, says: "There can be no vigorous iron men without iron. Pallor means anaemia. Anaemia means iron deficiency. The skin of anaemic men and women is pale. The flesh flabby. The muscles lack tone, the brain fags and the memory fails and they often become weak, nervous, irritable, despondent and melancholy. When the iron goes from the blood of women, the roses go from their cheeks.

"In the most common foods of America, the starches, sugars, table syrups, candies, polished rice, white bread, soda crackers, biscuits, macaroni, spaghetti, tapioca, sago, farina, degerminated cornmeal, no longer is iron to be found. Refining processes have removed the iron of Mother Earth from these impoverished foods, and silly methods of home cookery, by throwing down the waste-pipe the water in which our vegetables are cooked, is responsible for another grave iron loss.

"Therefore, if you wish to preserve your youthful vim and vigor to a ripe old age, you must supply the iron deficiency in your food by using some form of organic iron just as you would use salt when your food has not enough salt."

Dr. E. Sauer, a Boston physician who has studied widely both in this country and in prominent European Medical Institutions, says: "As I have said a hundred times over, organic iron is the greatest of all strength builders. If people would only throw away habit-forming drugs and nauseous concoctions and take Nuxated Iron, I am convinced that the lives of thousands of persons might be saved who now die every year from pneumonia, grippe, consumption, kidney, liver and heart troubles, etc. The real and true cause which started their diseases was nothing more nor less than a weakened condition brought on by lack of iron in the blood.

"Not long ago a man came to me who was nearly half a century old and asked me to give him a preliminary examination for life insurance. I was astonished to find him with a blood pressure of a boy of 20 and as full of vigor, vim and vitality as a young man; in fact, a young man he really was, notwithstanding his age. The secret, he said, was taking iron—nuxated iron had filled him with renewed life. At 20 he was in bad health; at 46 he was careworn and nearly all in—now at 50, after taking Nuxated Iron, a miracle of vitality and his face beaming with the buoyancy of youth.

"Iron is absolutely necessary to enable your blood to change food into living tissue. Without it, no matter how much or what you eat, your food merely passes through you without doing you any good, and as a consequence you become weak, pale and sickly looking, just like a plant trying to grow in a soil deficient in iron. If you are not strong or well you owe it to yourself to make the following test: See how long you can work or how far you can walk without becoming tired. Next take two five-grain tablets of ordinary nuxated iron three times per day after meals for two weeks. Then test your strength again and see how much you have gained. I have seen dozens of nervous, run-down people who were ailing all the while double their strength and endurance and entirely rid themselves of all symptoms of dyspepsia, liver, and other troubles in from ten to fourteen days' time simply by taking iron in the proper form. And this after they had in some cases been doctoring for months without obtaining any benefit. But don't take the old forms of reduced iron, iron acetate or tincture of iron, simply to save a few cents. The iron demanded by Mother Nature for the red coloring matter in the blood of her children is, alas! not that kind of iron. You must take iron in a form that can be easily absorbed and assimilated to do you any good, otherwise it may prove worse than useless. Many an athlete and prize-fighter has won the day simply because he knew the secret of great strength and endurance and filled his blood with iron before he went into the affray; while many another has gone down in inglorious defeat simply for the lack of iron."

Dr. T. A. Wallace, a physician of many years' experience in this country and who has been given many honorary titles in England, said: "I have given Nuxated Iron a fair and prolonged trial. I have been more than pleased with the results and will continue its use."

Dr. Schuyler C. Jaques, Visiting Surgeon of St. Elizabeth's Hospital, New York City, said: "I have never before given out any medical information or advice for publication, as I ordinarily do not believe in it.

"But in the case of Nuxated Iron I feel I would be remiss in my duty not to mention it. I have taken it myself and given it to my patients with most surprising and satisfactory results. And those who wish quickly to increase their strength, power and endurance will find it a most wonderfully effective remedy."

Dr. James, late of the United States Public Health Service, says: "Patients in an enervated and devitalized state of health—those, for instance, convalescing from protracted fevers, those suffering from a long-standing case of anaemia, all such people, in my opinion, need iron. Of late, however, there has been brought to my attention Nuxated Iron. In practice, I have found this an ideal restorative and upbuilding agent in these cases above mentioned."

NOTE—Nuxated Iron, which is prescribed and recommended above by physicians in such a great variety of cases, is not a patent medicine nor secret remedy, but one which is well known to druggists and whose iron constituents are widely prescribed by eminent physicians both in Europe and America. Unlike the older inorganic iron products it is easily assimilated, does not injure the teeth, make them black, nor upset the stomach; on the contrary, it is a most potent remedy in nearly all forms of indigestion as well as for nervous, run-down conditions. The manufacturers have such great confidence in nuxated iron, that they offer to forfeit $100.00 to any charitable institution if they cannot take any man or woman under 60 who lacks iron, and increase their strength 200 per cent or over in four weeks' time, provided they have no serious organic trouble. They also offer to refund your money if it does not at least double your strength and endurance in ten days' time. It is dispensed in this city by The Owl Drug Co.
